Diplomacy and Murder in Tehran Laurence Kelly, 2006-08-25 In this first biography of Griboyedov in English Laurence Kelly paints a vivid picture of his remarkable literary and diplomatic gifts which were nevertheless overshadowed by ill fortune and tragedy When the Tehran mob broke into the Russian embassy and murdered all the diplomats there the death toll included one of the most brilliant and promising stars in the early 19th century Russian literary firmament Alexander Griboyedov's masterpiece Woe from Wit had been praised by Pushkin as making an indelible impression It also had the distinction of being immediately banned by the Russian censors The play's alternative title was The Misfortune of Being Clever and perhaps Griboyedov's tragedy was that he was not clever enough to withstand the malign forces which shadowed and dogged his career As a writer he narrowly escaped the ferocity of the Tsar's government on suspicion of complicity in the 1825 Decembrist plot by liberal aristocrats to overthrow the Tsarist state After his brush with the wrath of the Tsar Griboyedov was dispatched to Georgia and Iran charged with furthering Russia's expansionist agenda in the Caucasus and beyond As one of the earliest Russian players in the Great Game he was a leading actor in defining the Tsar's relations with the Persians and the British in the region But Griboyedov viewed his mission to Tehran as Russian Minister Plenipotentiary with the greatest foreboding In the end his diplomatic skills were no match for the zealous mobs unleashed by the mullahs

incensed by trivial incidents which they portrayed as a slur on Iran's self-esteem and the honour of Islam. This book makes an invaluable contribution to the diplomatic history of Russia, the Caucasus and Iran while at the same time shedding much new light on the life and works of a writer who was among 19th century Russia's most respected and prominent literary figures.

Moving in the USSR Pekka Hakamies, 2005-06-30. This book deals with 20th century resettlements in the western areas of the former USSR, in particular the territory of Karelia that was ceded by Finland in the WWII, Podolia in the Ukraine and the North West periphery of Russia in the Kola peninsula. Finns from Karelia emigrated to Finland, most of the Jews of Podolia were exterminated by Nazi Germany but the survivors later emigrated to Israel and the sparsely populated territory beyond the Polar circle received the Soviet conquerors of nature which they began to exploit. The empty areas were usually settled by planned state recruitment of relocated Soviet citizens but in some cases also by spontaneous movement. Thus a Ukrainian took over a Jewish house, a Chuvash kolkhoz was dispersed along Finnish khutor houses and youth in the town of Apatity began to prefer their home town in relation to the cities of Russia. Everywhere the settlers met new and strange surroundings and they had to construct places and meanings for themselves in their new home and restructure their local identity in relation to their places of origin and current abodes. They also had to create images of the former inhabitants and explanations for various strange details they perceived around themselves. All articles within this volume are based on extensive field or archive work. This research project was funded by the Academy of Finland. *A Time to Sow: Refusenik*

Kharkiv is Ukraine's second largest city and its former capital. Situated within 40 km of the Ukrainian-Russian border, it is one of those East-Central European liminal cities which became a center of modernization and pluralization in the borderland area, playing a prominent role in the process of nation building. Volodymyr Kravchenko's expanded edition of *Kharkov/Kharkiv* now in the English language and including a new chapter on the reconfiguration of the Ukrainian-Russian borderland during and after the watershed Euromaidan event, uniquely uncovers the city's long history from the 17th century to today. Addressing issues of regional and national identities, Ukrainian-Russian relations, mental mapping, historical narratives and the ensuing deconstruction of national mythologies, this book fills a unique gap in the literature on Kharkiv. *The Life and Death of Alexander Pushkin* Илья Дружников, 2006. In this monograph, Druzhnikov explores the final seven years in the life of Russian poet Alexander Pushkin (1799–1837). In examining the circumstances that eventually led to this cultural hero's untimely death, he constructs a new scholarly version of Pushkin as an artist profoundly at odds not only with his society but

Gelazis, Blair A. Ruble, 2009-02-10 Cities after the Fall of Communism traces the cultural reorientation of East European cities since 1989 Analyzing the architecture commemorative practices and urban planning of cities such as Lviv Vilnius and Odessa the contributors to this volume demonstrate how history may be selectively re imagined in light of present political and cultural realities These essays show that while East European cities gravitate nostalgically toward Habsburg Baltic Imperial Russian and Germanic pasts they are also embracing new urban identities grounded in ethnic national European Western and global contexts Ultimately the editors argue that one can see a New Europe taking shape in these cities where a strained discourse between different versions of the past and variously envisioned futures is being set in stone steel and glass Catalogue of the Harvard University Fine Arts Library, the Fogg Art Museum Harvard University. the rest of the world and the consequent separation of Russian emigrants from the church were disastrous for the church which declined very significantly in the 1920s and 1930s. However, when Poland was partitioned in 1939 between Nazi Germany and the Soviet Union, Stalin allowed the Patriarch of Moscow Sergei jurisdiction over orthodox congregations in the conquered territories and went on later to encourage the church to promote patriotic activities as part of the resistance to the Nazi invasion. He agreed a Concordat with the church in 1943 and continued to encourage the church, especially its claims to jurisdiction over migrant Russian orthodox churches in the immediate postwar period. Based on extensive original research, the book puts forward a great deal of new information and overturns established thinking on many key points. **Index to Jewish Periodicals**, 2003.
