*Natchez* David G. Sansing, Sim C. Callon, Carolyn Vance Smith, 1992      **An illustrated history of the great republic** Jas. D. M'Cabe, 2023-03-16 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost      **An Illustrated History of French Literature** Charles Marc Des Granges, 1921      **The Illustrated History of Methodism** James Wideman Lee, bp. Naphtali Luccock, James Main Dixon, 1900      **Illustrated History of All Nations** Israel Smith Clare, 1909      **Thoroughbred Nation** Natalie A. Zacek, 2024-09-09 From the colonial era to the beginning of the twentieth century horse racing was by far the most popular sport in America Great numbers of Americans and overseas visitors flocked to the nation's tracks and others avidly followed the sport in both general interest newspapers and specialized periodicals *Thoroughbred Nation* offers a detailed yet panoramic view of thoroughbred racing in the United States following the sport from its origins in colonial Virginia and South Carolina to its boom in the Lower Mississippi Valley and then from its post Civil War rebirth in New York City and Saratoga Springs to its opulent mythologization of the Old South at Louisville's Churchill Downs home of the Kentucky Derby Natalie A Zacek introduces readers to an unforgettable cast of characters from plungers such as Virginia plantation owner William Ransom Johnson known as the Napoleon of the Turf and Wall Street financier James R Keene who would wager a fortune on the outcome of a single competition to the jockeys trainers and grooms most of whom were African American While their names are no longer known their work was essential to the sport Zacek also details the careers of remarkable though scarcely remembered horses whose achievements made them as famous in their day as more recent equine celebrities such as Seabiscuit or Secretariat Based upon exhaustive research in print and visual sources from libraries archives and museums across the United States *Thoroughbred Nation* will be of interest both to those who love the sport of horse racing for its own sake and to those who are fascinated by how this pastime reflects and influences American identities      *The Centennial Northwest* Charles Richard Tuttle, Ames Castle Pennock, 1876      **The Illustrated History of Odd Fellowship** Theodore A. Ross, 1916      *Occupied Women* LeeAnn Whites, Alecia P. Long, 2009-06-15 In the spring of 1861 tens of thousands of young men formed military companies and offered to fight for their country Near the end of the Civil War nearly half of the adult male population of the North and a staggering 90 percent of eligible white males in the South had joined the military With their husbands sons and fathers away legions of women took on additional duties formerly handled by males and many also faced the ordeal of having their homes occupied by enemy troops With occupation the home front and the battlefield merged to create an unanticipated second front where civilians mainly women resisted what they perceived as unjust domination In *Occupied Women* twelve distinguished historians consider how women's reactions to occupation affected both the strategies of military leaders and ultimately even the outcome of the Civil War Alecia P Long Lisa Tendrich Frank E Susan Barber and

Charles F Ritter explore occupation as an incubator of military policies that reflected occupied women s activism Margaret Creighton Kristen L Streater LeeAnn Whites and Cita Cook examine specific locations where citizens both enforced and evaded these military policies Leslie A Schwalm Victoria E Bynum and Joan E Cashin look at the occupation as part of complex and overlapping differences in race class and culture An epilogue by Judith Giesberg emphasizes these themes Some essays reinterpret legendary encounters between military men and occupied women such as those prompted by General Butler s infamous Woman Order and Sherman s March to the Sea Others explore new areas such as the development of military policy with regard to sexual justice Throughout the contributors examine the common experiences of occupied women and address the unique situations faced by women whether Union Confederate or freed Civil War historians have traditionally depicted Confederate women as rendered inert by occupying armies but these essays demonstrate that women came together to form a strong localized resistance to military invasion Guerrilla activity for example occurred with the support and active participation of women on the home front Women ran the domestic supply line of food shelter and information that proved critical to guerrilla tactics By broadening the discussion of the Civil War to include what LeeAnn Whites calls the relational field of battle this pioneering collection helps reconfigure the location of conflict and the chronology of the American Civil War

**Lost Mansions of Mississippi, Volume II** Mary Carol Miller,2010-09-14 As preservationist Mary Carol Miller talked with Mississippians about her books on lost mansions and landmarks enthusiasts brought her more stories of great architecture ravaged by time The twenty seven houses included in her new book are among the most memorable of Mississippi s vanished antebellum and Victorian mansions The list ranges from the oldest house in the Natchez region lost in a 1966 fire to a Reconstruction era home that found new life as a school for freed slaves From two Gulf Coast landmarks both lost to Hurricane Katrina to the mysteriously misplaced facades of Hernando s White House and Columbus s Flynnwood these homes mark high points in the broad sweep of Mississippi history and the state s architectural legacy Miller tells the stories of these homes through accounts from the families who built and maintained them These structures run the stylistic gamut from Greek revival to Second Empire and their owners include everyone from

Revolutionary era soldiers to governors and scoundrels *Settling the Mississippi Territory* Mike Bunn,Clay Williams,2025-03-04 The Territory That Built Two States The Mississippi Territory existed as a political entity for nearly two decades It stretched from the Tennessee border southward to the Gulf of Mexico and was bounded on the east by the state of Georgia and the west by the mighty Mississippi River This enormous swath of America s southwestern frontier in 1817 was divided into the state of Mississippi and the Alabama Territory Two years later Alabama entered the Union as a state Between 1798 and 1817 the territory transitioned from a sparsely inhabited backwoods frontier to a thriving and dynamic centerpiece in one of the fastest developing regions of the country Mike Bunn and Clay Williams chronicle that story in a richly illustrated introduction and guide to discovery of this pivotal era

**The Forgotten Expedition, 1804--1805** Trey

Berry, Pam Beasley, Jeanne Clements, 2014-08-11 The team of the Grand Expedition as it was optimistically named was the first to send its findings on the newly annexed territory to the president who received Dunbar and Hunter's detailed journals with pleasure. They include descriptions of flora and fauna, geology, weather, landscapes, and native peoples and European settlers, as well as astronomical and navigational records that allowed the first accurate English maps of the region and its waterways to be produced. Their scientific experiments conducted at the hot springs may be among the first to discover a microscopic phenomena still under research today. Jacket

**First Lady of Letters** Sheila L. Skemp, 2011-08-24 Judith Sargent Murray 1751-1820 poet, essayist, playwright, and one of the most thoroughgoing advocates of women's rights in early America was as well known in her own day as Abigail Adams or Martha Washington. Her name though has virtually disappeared from the public consciousness. Thanks to the recent discovery of Murray's papers, including some 2,500 personal letters, historian Sheila L. Skemp has documented the compelling story of this talented and most unusual eighteenth-century woman. Born in Gloucester, Massachusetts, Murray moved to Boston in 1793 with her second husband, Universalist minister John Murray. There she became part of the city's literary scene. Two of her plays were performed at Federal Street Theater, making her the first American woman to have a play produced in Boston. There, as well, she wrote and published her magnum opus, *The Gleaner*, a three-volume miscellany that included poems, essays, and the novel-like story *Margaretta*. After 1800, Murray's output diminished, and her hopes for literary renown faded. Suffering from the backlash against women's rights that had begun to permeate American society, struggling with economic difficulties, and concerned about providing the best possible education for her daughter, she devoted little time to writing. But while her efforts diminished, they never ceased. Murray was determined to transcend the boundaries that limited women of her era and worked tirelessly to have women granted the same right to the pursuit of happiness immortalized in the Declaration of Independence. She questioned the meaning of gender itself, emphasizing the human qualities men and women shared, arguing that the apparent distinctions were the consequence of nurture, not nature. Although she was disappointed in the results of her efforts, Murray nevertheless left a rich intellectual and literary legacy in which she challenged the new nation to fulfill its promise of equality to all citizens.

*On Floods and Photo Ops* Paul Martin Lester, 2010 A close study of the visual record left by political visits following disasters, Presidents Herbert Clark Hoover and George Walker Bush were challenged many times during their political careers. *On Floods and Photo Ops: How Herbert Hoover and George W. Bush Exploited Catastrophes* focuses on the visual record of two such tests: the relief efforts led by Commerce Secretary Hoover during the 1927 Mississippi River flood and the Bush team's response to Hurricane Katrina. By concentrating on these two historic events, Paul Martin Lester discusses political photography, particularly the use of photo ops during catastrophes. He illuminates the evolution of a genre and explores the differences and similarities between these two American politicians. Hoover and Bush reached the pinnacle of political achievement only to lose in the court of popular opinion. From two photo ops that occurred almost eighty years

apart Lester offers a model for close readings and comparisons of images in practicing visual history Under Lester s examination these otherwise unremarkable photographs speak volumes about political response to natural disasters He offers readers not just a deeper appreciation of these pictures but a methodology for seriously studying photographs and what they can reveal about a historical moment Paul Martin Lester is a professor of communications at California State University Fullerton He is the author of Visual Communication Images with Messages and Photojournalism An Ethical Approach and coeditor of Images That Injure Pictorial Stereotypes in the Media     Lost Mansions of Mississippi Mary Carol Miller,1996-01-01 Over seven decades from 1790 to 1865 an era of unparalleled prosperity and architectural opulence fostered the creation of magnificent houses in a variety of style Federal Greek Revival Italianate and Gothic that defined the architecture of Mississippi and the South     *The Journal of Mississippi History* ,1995 Includes section Book reviews
