Nathaniel Hawthorne And The Truth Of Dreams:

Nathaniel Hawthorne and the Truth of Dreams Rita K. Gollin, 1979 *History, Ideology and Myth in American Fiction, 1823-52* Robert Clarke, 1984-12-06 Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics Kumiko Mukai, 2008 Among Hawthorne's primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne's own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne's aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist's dilemma of being fettered by New England Puritanism while at the same time being attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself **The Style of Hawthorne's Gaze** John Dolis, 2014-07-14 An exploration of Nathaniel Hawthorne's narrative technique and unique vision of the world The Style of Hawthorne's Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world Dolis studies Hawthorne's anti-technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis shows how the work of Heidegger Merleau-Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality Spectres of the Self Shane McCorristine, 2010-07-22 Examines the culture of ghost seeing arguing that the ghost represents a symbol of the psychological hauntedness of modern experience **A Companion to the American Short Story** Alfred Bendixen, James Nagel, 2020-08-24 A COMPANION TO THE AMERICAN SHORT STORY A Companion to the American Short Story traces the development of this versatile literary genre over the past two centuries Written by leading critics in the field and edited by two major scholars it explores a wide range of writers from Edgar Allan Poe and Edith Wharton at the end of the nineteenth century to important modern writers

such as Ernest Hemingway William Faulkner F Scott Fitzgerald and Richard Wright Contributions with a broader focus address groups of multiethnic Asian and Jewish writers Each chapter places the short story into context focusing on the interaction of cultural forces and aesthetic principles The Companion takes account of cutting edge approaches to literary studies and contributes to the ongoing redefinition of the American canon embracing genres such as ghost and detective fiction cycles of interrelated short fiction and comic social and political stories The volume also reflects the diverse communities that have adopted this literary form and made it their own featuring entries on a variety of feminist and multicultural traditions This volume presents an important new consideration of the role of the short story in the literary history of American literature

Struve, 2021-05-31 From the mid sixteenth through the end of the seventeenth century Chinese intellectuals attended more to dreams and dreaming and in a wider array of genres than in any other period of Chinese history Taking the approach of cultural history this ambitious yet accessible work aims both to describe the most salient aspects of this dream arc and to explain its trajectory in time through the writings arts and practices of well known thinkers religionists litterateurs memoirists painters doctors and political figures of late Ming and early Qing times The volume's encompassing thesis asserts that certain associations of dreaming grounded in the neurophysiology of the human brain at sleep such as subjectivity irrationality the unbidden lack of control emotionality spontaneity the imaginal and memory when especially heightened by historical and cultural developments are likely to pique interest in dreaming and generate florescences of dream expression among intellectuals The work thus makes a contribution to the history of how people have understood human consciousness in various times and cultures The Dreaming Mind and the End of the Ming World is the most substantial work in any language on the historicity of Chinese dream culture Within Chinese studies it will appeal to those with backgrounds in literature religion philosophy political history and the visual arts It will also be welcomed by readers interested in comparative dream cultures the history of consciousness and neurohistory

Social Criticism and Nineteenth-Century American Fictions Robert Shulman, 1989 The changing market society of the nineteenth century had a deep impact on American writers and their works The writers responded with important insights into the alienation brought on by the country's capitalist development Shulman uses theorists from Tocqueville to Gramsci and the New Left historians as well as drawing on other recent historical and critical studies to examine major nineteenth

century American works as they illuminate and are illuminated by their society Using works by Benjamin Franklin Mark Twain Herman Melville Nathaniel Hawthorne Charles Chesnutt Walt Whitman Edith Wharton and Theodore Dreiser he shows the urgency energy and variety of response that capitalism elicited from a range of writers *Value and Vision in American Literature* Joseph Candido, 1999 Friends and colleagues honor the 30 year career of Appalachian born literature scholar White with 15 essays Their goal is to call attention to ideas or connections that demand a reappraisal of conventional attitudes or ingrained responses Spanning from the middle 19th century to the present they consider such well known authors as Hawthorne Cather and Welty but also some less known ones such as Wallace Stegner Dunstan Thomas and neglected Civil War poets Annotation copyrighted by Book News Inc Portland OR

In Hawthorne's Shadow Samuel Chase Coale, 2021-10-21 The world is so sad and solemn wrote Nathaniel Hawthorne that things meant in jest are liable by an overwhelming influence to become dreadful earnest gaily dressed fantasies turning to ghostly and black clad images of themselves From the radical dualism of Hawthorne's vision Samuel Coale argues springs a continuing tradition in the American novel In Hawthorne's Shadow is the first critical study to describe precisely the formal shape of Hawthorne's psychological romance and to explore his themes and images in relation to such contemporary writers as John Cheever Norman Mailer Joan Didion John Gardner Joyce Carol Oates William Styron and John Updike When viewed from this perspective certain writers particularly Cheever Mailer Oates and Gardner appear in a new and very different light leading to a considerable reevaluation of their achievement and their place in American fiction Mr Coale's long interviews and conversations with John Cheever John Gardner William Styron and others have provided insights and perspectives that make this book particularly valuable to students of contemporary American literature Coale links contemporary writers to an ongoing American romantic tradition represented by such earlier authors as Melville Harold Frederic Faulkner Flannery O'Connor and Carson McCullers He explores the distinctly Manichean matter of much American romance linking it to America's Puritan past and to the almost schizophrenic dynamics of American culture in general Finally he reexamines the post-modernist writers in light of Hawthorne's shadow and shows that however similar they may be in some ways they differ remarkably from the previous American romantic tradition

The Art of Authorial Presence Gary Richard Thompson, 1993 The critical literary world has spent a wealth of thought and words on the question of Hawthorne himself Where does he stand in his works In history In literary tradition In this major new study G R Thompson recasts the Hawthorne question to show how authorial presence in the writer's works is as much a matter of art as the writing itself The Hawthorne who emerges from this masterful analysis is not as has been supposed identical to the provincial narrator of his early tales instead he is revealed to be the skillful manipulator of that narrative voice an author at an ironic distance from the tales he tells By focusing on the provincial tales as they were originally conceived as a narrative cycle Thompson is able to recover intertextual references that reveal Hawthorne's preoccupation with framing strategies and variations on authorial

presence The author shows how Hawthorne deliberately constructs sentimental narratives only to deconstruct them Thompson's analysis provides a new aesthetic context for understanding the whole shape of Hawthorne's career as well as the narrative ethical and historical issues within individual works Revisionary in its view of one of America's greatest authors The Art of Authorial Presence also offers invaluable insight into the problems of narratology and historiography ethics and psychology romanticism and idealism and the cultural myths of America

Haynes, 2017-08-31 A study of the scientist in Western culture from medieval images of alchemists to present-day depictions of cyberpunks and genetic engineers They were mad of course Or evil Or godless amoral arrogant impersonal and inhuman At best they were well intentioned but blind to the dangers of forces they barely controlled They were Faust Frankenstein Jekyll Moreau Caligari Strangelove the scientists of film and fiction cultural archetypes that reflected ancient fears of tampering with the unknown or unleashing the little understood powers of nature In *From Madman to Crime Fighter* Roslynn D Haynes analyzes stereotypical characters including the mad scientist the cold-blooded pursuer of knowledge the intrepid pathbreaker and the bumbling fool that from medieval times to the present day have been used to depict the scientist in Western literature and film She also describes more realistically drawn scientists characters who are conscious of their public responsibility to expose dangers from pollution and climate change yet fearful of being accused of lacking evidence Drawing on examples from Britain America Germany France Russia and elsewhere Haynes explores the persistent folklore of mad doctors of science and its relation to popular fears of a depersonalized male dominated and socially

irresponsible pursuit of knowledge for its own sake She concludes that today's public response to science and scientists much of it negative is best understood by recognizing the importance of such cultural archetypes and their significance as myth From *Madman to Crime Fighter* is the most comprehensive study of the image of the scientist in Western literature and film
