*Conscious History* Natalia Aleksiu, 2021-07-08 Thoroughly researched this study highlights the historical scholarship that is one of the lasting legacies of interwar Polish Jewry and analyses its political and social context As Jewish citizens struggled to assert their place in a newly independent Poland a dedicated group of Jewish scholars fascinated by history devoted themselves to creating a sense of Polish Jewish belonging while also fighting for their rights as an ethnic minority The political climate made it hard for these men and women to pursue an academic career instead they had to continue their efforts to create and disseminate Polish Jewish history by teaching outside the university and publishing in scholarly and popular journals By

introducing the Jewish public to a pantheon of historical heroes to celebrate and anniversaries to commemorate they sought to forge a community aware of its past its cultural heritage and its achievements though no less important were their efforts to counter the increased hostility towards Jews in the public discourse of the day In highlighting the role of public intellectuals and the social role of scholars and historical scholarship this study adds a new dimension to the understanding of the Polish Jewish world in the interwar period      *Mapping Europe's Borderlands* Steven Seegel,2012-05-14 The simplest purpose of a map is a rational one to educate to solve a problem to point someone in the right direction Maps shape and communicate information for the sake of improved orientation But maps exist for states as well as individuals and they need to be interpreted as expressions of power and knowledge as Steven Seegel makes clear in his impressive and important new book *Mapping Europe's Borderlands* takes the familiar problems of state and nation building in eastern Europe and presents them through an entirely new prism that of cartography and cartographers Drawing from sources in eleven languages including military historical pedagogical and ethnographic maps as well as geographic texts and related cartographic literature Seegel explores the role of maps and mapmakers in the East Central European borderlands from the Enlightenment to the Treaty of Versailles For example Seegel explains how Russia used cartography in the aftermath of the Napoleonic Wars and later formed its geography society as a cover for gathering intelligence He also explains the importance of maps to the formation of identities and institutions in Poland Ukraine and Lithuania as well as in Russia Seegel concludes with a consideration of the impact of cartographers regional and socioeconomic backgrounds educations families career options and available language choices      **The Text and the World** Piotr Górecki,2015 A study of an exceptionally interesting primary source the Henrykow Book and of the local and regional world which that source reflected and helped shape This volume mines the Henrykow Book for the information it provides about the social political religious and literary contexts of medieval Europe      **The Prague Spring and the Warsaw Pact Invasion of Czechoslovakia, 1968** M. Europe      **Unintended Affinities** Adam Kozuchowski, 2019-06-29 Unintended Affinities examines the ways in which German and Polish historians of the nineteenth century regarded the Holy Roman Empire and the Polish Lithuanian Commonwealth The book parallels how historians approached the old Reich and the Commonwealth within the framework of their national history Ko uchwowski analyzes how German and Polish nationalistic historians who played central roles in propagandizing a glorious past that justified a centralized modern state struggled with how to portray the very decentralized and multi ethnic empires that preceded their time      **Domains and Divisions of European History** Johann P. Arnason, Jóhann Páll Árnason, Natalie Doyle, 2010-01-01 The patterns of unity and division that define Europe as a historical region have been discussed in many seminal works but the complex set of questions behind its domains and divisions merits a more sustained debate The disappearance of the cold war the enlargement of the European Union and core issues of historical sociology all require an exploration of the structures and boundaries of historical formations as well as the question of European unity This volume tackles the topic of the divisions that have shaped European history head on as leading scholars in the field negotiate such issues as regional identity geographical boundaries divisional labeling and post cold war European unity      2006 Massimo Mastrogregori, 2010-12-23 Die IBOHS verzeichnet j hrlich die bedeutendsten Neuerscheinungen geschichtswissenschaftlicher Monographien und Zeitschriftenartikel weltweit die inhaltlich von der Vor und Fr hgeschichte bis zur j ngsten Vergangenheit reichen Sie ist damit die derzeit einzige laufende Bibliographie dieser Art die thematisch zeitlich und geographisch ein derart breites Spektrum abdeckt Innerhalb der systematischen Gliederung nach Zeitalter Region oder historischer Disziplin sind die Werke nach Autorennamen oder charakteristischem Titelhauptwort aufgelistet      *International Bibliography of Historical Sciences, Band 75, International Bibliography of Historical Sciences (2006)* Massimo Mastrogregori, 2010 Die International Bibliography of Historical Sciences IBOHS die seit 1930 j hrlich erscheint verzeichnet die bedeutendsten Neuerscheinungen geschichtswissenschaftlicher Monographien und Zeitschriftenartikel weltweit von der Vor und Fr hgeschichte bis zur j ngsten Vergangenheit einschlie lich der historischen Hilfswissenschaften Die Werke sind innerhalb der systematischen Gliederung nach Zeitalter Region oder historischer Disziplin alphabetisch aufgelistet Es folgen ein Autoren und ein Personenverzeichnis sowie ein geographisches Register

The Idea of Galicia Larry Wolff, 2012-01-09 Galicia was created at the first partition of Poland in 1772 and disappeared in 1918 Yet in slightly over a century the idea of Galicia came to have meaning for both the peoples who lived there and the Habsburg government that ruled it Indeed its memory continues to exercise a powerful fascination for those who live in its former territories and for the descendants of those who emigrated out of Galicia The idea of Galicia was largely produced by the cultures of two cities Lviv and Cracow Making use of travelers accounts newspaper reports and literary works Wolff engages such figures as Emperor Joseph II Metternich Leopold von Sacher Masoch Ivan Franko Stanis aw Wyspia ski Tadeusz Boy ele ski Isaac Babel Martin Buber and Bruno Schulz He shows the exceptional importance of provincial space as

a site for the evolution of cultural meanings and identities and analyzes the province as the framework for non national and multi national understandings of empire in European history

**Fragmentation in East Central Europe** Klaus Richter, 2020-04-02 The First World War led to a radical reshaping of Europe's political borders. Nowhere was this transformation more profound than in East Central Europe where the collapse of imperial rule led to the emergence of a series of new states. New borders intersected centuries old networks of commercial, cultural and social exchange. The new states had to face the challenges posed by territorial fragmentation and at the same time establish durable state structures within an international order that viewed them as at best weak and at worst as merely provisional entities that would sooner or later be reintegrated into their larger neighbours territory. Fragmentation in East Central Europe challenges the traditional view that the emergence of these states was the product of a radical rupture that naturally led from defunct empires to nation states. Using the example of Poland and the Baltic States it retraces the roots of the interwar states of East Central Europe of their policies, economic developments and of their conflicts back to the First World War. At the same time it shows that these states learned to harness the dynamics caused by territorial fragmentation thus forever changing our understanding of what modern states can do.

**Universities in Imperial Austria 1848-1918** Jan Surman, 2018-12-15 Combining history of science and a history of universities with the new imperial history. Universities in Imperial Austria 1848-1918. A Social History of a Multilingual Space by Jan Surman analyzes the practice of scholarly migration and its lasting influence on the intellectual output in the Austrian part of the Habsburg Empire. The Habsburg Empire and its successor states were home to developments that shaped Central Europe's scholarship well into the twentieth century. Universities became centers of both state and nation building as well as of confessional resistance, placing scholars if not in conflict then certainly at odds with the neutral international orientation of academe. By going beyond national narratives, Surman reveals the Empire as a state with institutions divided by language but united by legislation, practices and other influences. Such an approach allows readers a better view to how scholars turned gradually away from state centric discourse to form distinct language communities. After 1867 these influences affected scholarship and by examining the scholarly record, Surman tracks the turn. Drawing on archives in Austria, the Czech Republic, Poland and Ukraine, Surman analyzes the careers of several thousand scholars from the faculties of philosophy and medicine of a number of Habsburg universities thus covering various moments in the history of the Empire. For the widest view, Universities in Imperial Austria 1848-1918 focuses on the tension between the political and linguistic spaces scholars occupied and shows that this tension did not lead to a gradual dissolution of the monarchy's academia but rather to an ongoing development of new strategies to cope with the cultural and linguistic multitude.

**The Polish Underground and the Jews, 1939-1945** Joshua D. Zimmerman, 2015-06-05 The Polish Underground and the Jews, 1939-1945 examines one of the central problems in the history of Polish Jewish relations: the attitude and the behavior of the Polish Underground, the resistance organization loyal to the Polish government in exile.

toward the Jews during World War II Using a variety of archival documents testimonies and memoirs Zimmerman offers a careful dispassionate narrative arguing that the reaction of the Polish Underground to the catastrophe that befell European Jewry was immensely varied ranging from aggressive aid to acts of murder By analyzing the military civilian and political wings of the Polish Underground and offering portraits of the organization s main leaders this book is the first full length scholarly monograph in any language to provide a thorough examination of the Polish Underground s attitude and behavior towards the Jews during the entire period of World War II
