Dynamics of Memory and Identity in Contemporary Europe Eric Langenbacher, Bill Niven, Ruth Wittlinger, 2013-03-01 The collapse of the Iron Curtain the renationalization of eastern Europe and the simultaneous eastward expansion of the European Union have all impacted the way the past is remembered in today's eastern Europe At

the same time in recent years the Europeanization of Holocaust memory and a growing sense of the need to stage a more self critical memory has significantly changed the way in which western Europe commemorates and memorializes the past The increasing dissatisfaction among scholars with the blanket undifferentiated use of the term collective memory is evolving in new directions This volume brings the tension into focus while addressing the state of memory theory itself Language, Culture and Communication in Contemporary Europe Charlotte Hoffmann,1996 This book offers a multidisciplinary approach to the consideration of aspects of Europe s linguistic and cultural heritage The ten contributions explore the relationship between language culture and modern communication either taking Europe as a whole or looking at specific countries The authors backgrounds and expertise span a number of disciplines from linguistics sociolinguistics and translation studies to information technology and cultural studies BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Norms, Institutions and National Identity in Contemporary Europe* Jeffrey T. Checkel,Advanced Research on the Europeanisation of the Nation-State,1998 Why Europe? Problems of Culture and Identity J. Andrew,M. Crook,M. Waller,2000-02-24 This volume addresses a range of issues which underlie the notions of European identity Among them what does it mean to be a European What place will minorities find in the Europe of the twenty first century What roles will women play in the future communities Will Europe become more open to diversity or become increasingly introspective

Immigrants and National Identity in Europe Anna Triandafyllidou,2003-08-29 The author reviews main theories of nationalism and criticises their lack of elaboration on the role of Others in nation formation Drawing upon anthropological sociological and social psychological perspectives she develops a dynamic relational perspective for the study of national theory **Nation and Gender in Contemporary Europe** Vera Tolz,Stephenie Booth,2005 Building on the growing body of theoretical literature on the gendered nature of nationalism this book offers a systematic examination of similarities and differences in the construction of gender and national identities in post communist societies of Eastern and East Central Europe as well as established and the more stable democracies of Western Europe It points to some of the key sources of inevitable tensions in the future united Europe which stem from different perceptions of national and gender roles in different parts of the continent Britain, Europe and National Identity J. Gibbins,2014-10-05 This study patterns national identity over a number of important historical milestones and brings the debates over Europe up to date with an analysis of recent happenings including the referendum on Scottish independence the global economic crisis and the current crisis in Syria *British national identity and opposition to membership of Europe, 1961-63* Robert Dewey,2013-07-19 This book provides a comprehensive analysis of the opponents of Britain s first attempt to join the European Economic Community EEC between the announcement of Harold Macmillan s new policy initiative in July 1961 and General de Gaulle s veto of Britain s application for membership in January 1963 In particular this study examines the role of national identity in shaping both the formulation and articulation of arguments put forward by these opponents of Britain s policy To date studies of Britain s

unsuccessful bid for entry have focused on high political analysis of diplomacy and policy formulation In most accounts only passing reference is made to domestic opposition This book redresses the balance by providing a more complete depiction of the opposition movement and a distinctive approach that proceeds from a low political viewpoint As such the book emphasises protest and populism of the kind exercised by among others Fleet Street crusaders at the Daily Express pressure groups such as the Anti Common Market League and Forward Britain Movement expert pundits like A J P Taylor Sir Arthur Bryant and William Pickles as well as constituency activists independent parliamentary candidates pamphleteers letter writers and maverick MPs In its consideration of a group largely overlooked in previous accounts the book provides essential insights into the intellectual structural populist and nationalist dimensions of early Euroscepticism The book will be of significant interest to both scholars and students of national identity Britain s relationship with Europe and the Commonwealth pressure groups and party politics and the trajectory of the Eurosceptic phenomenon

Language and National Identity Leigh Oakes, 2001-01-01 This book re examines the relationship between language and national identity Unlike many previous studies it employs a comparative approach France and Sweden have been chosen as case studies both for their similarities e g both are member states of the European Union as well as their important differences e g France subscribes in principle to a civic model of national identity whereas the basis of Swedish identity is undeniably ethnic It is precisely differences such as these which allow for a more comprehensive understanding of the ethnolinguistic implications of some of the major challenges currently facing France Sweden and other European countries regionalism immigration European integration and globalization The present volume benefits from the use of a multidisciplinary approach and differs from others on the market because of the variety of methods of inquiry used A series of societal analyses is complemented by an empirical component bringing a more grounded understanding to the issue of language and national identity

The Religious Roots of Contemporary European Identity Lucia Faltin, Melanie J. Wright, 2007-11-01 This volume provides a coherent critical examination of current issues related to the religious roots of contemporary i e post 1990 European identity This book has taken a multi and interdisciplinary approach analysing the religious roots of Europe s identity today with a focus on the secular context of religious communities This will serve the readers to perceive their own identity in a wider context of shared values reaching beyond a particular faith or non religious framework

Radical Left Parties and National Identity in Spain, Italy and Portugal Jacopo Custodi, 2024-01-19 This book investigates how the radical left navigates the terrain of nationalism Traversing Spain Italy and Portugal this in depth study examines how radical left parties either embrace rebuff or reshape nationalistic sentiments From Spain s Podemos grappling with Franco s legacy Italy s radical left switching from anti fascist patriotism to cosmopolitanism to Portugal s revolutionary echoes in left leaning banal nationalism the book offers comprehensive insight into the often overlooked relationship between radical left politics and national identity Through discourse analysis interviews and participant observation it delves into the reasons behind certain political

positions and how they manifest discursively A must read for those eager to decipher the crossroads of national identity and left wing politics in contemporary Europe **Church and State in Contemporary Europe** Zsolt Enyedi, John T.S.

Madeley, 2004-08-02 This volume represents an attempt in integrating a wide range of theoretically relevant issues into the identification and analysis of church state patterns Each chapter focuses on the analysis of a particular theme and its role in shaping and or being shaped by church state relations The Figure of the Migrant in Contemporary European Cinema

Temenuga Trifonova, 2020-07-09 The Figure of the Migrant in Contemporary European Cinema explores contemporary debates around the concepts of Europe and European identity through an examination of recent European films dealing with various aspects of globalization the refugee crisis labour migration the resurgence of nationalism and ethnic violence neoliberalism post colonialism with a particular attention to the figure of the migrant and the ways in which this figure challenges us to rethink Europe and its core Enlightenment values citizenship justice ethics liberty tolerance and hospitality in a post national context of ephemerality volatility and contingency that finds people desperately looking for firmer markers of identity The book argues that a compelling case can be made for re orienting the study of contemporary European cinema around the figure of the migrant viewed both as a symbolic figure representing post national citizenship urbanization the gap between ethics and justice and as a figure occupying an increasingly central place in European cinema in general rather than only in what is usually called migrant and diasporic cinema By drawing attention to the structural and affective affinities between the experience of migrants and non migrants Europeans and non Europeans Trifonova shows that it is becoming increasingly difficult to separate stories about migration from stories about life under neoliberalism in general

Multiplicity of Nationalism in Contemporary Europe Ireneusz Paweł Karolewski, Andrzej Marcin Suszycki, 2010-01-01 Nationalism remains one of the key political societal and socio psychological phenomena in contemporary Europe The international scholars assembled in this edited collection suggest that the use of three perspectives supranationalism boundary making nationalism and regional nationalism may be promising as an explanatory framework for the analysis of nationalism in Europe The volume distances itself from older dichotomies such as civic and ethnic nationalism and questions the one sided normativity of nationalism in particular regarding the concept of liberal nationalism It argues that a promising approach to contemporary nationalism should reflect the multiplicity of nationalism

Contemporary Europe William Outhwaite, 2016-10-04 Europe is one of the most dynamic and interesting areas of the world pioneering in the European Union a new form of governance for half a billion people represented in the world's first directly elected transnational parliament This book situates the European Union in a broader European global historical and geographical context providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades The European Union is still on the road to what has been called an unknown destination and this book presents its economic political legal and social

trajectory from the middle of the last century to the present Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan European and global processes Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe's institutional reality does not have to be boring The book counter this misperception conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself *Media and Identity in Contemporary Europe* Richard Collins, 2002 Chapters focus on technological change and its impact on cultural and political identities the role of the cultural industries in the New Economy and the impact of European integration on national institutions public service broadcasting in particular Because technological change in broadcasting has enabled us to open up media markets the shape of media and of society has become more internationally oriented Indeed modern international media has brought into question the very legitimacy of national communities and ideologies And this is a phenomenon whose greatest impact has been in Europe These studies address the future of public service broadcasting and the power of national regulators to shape trans national media relationships The author takes an empirical approach to analysis of these issues exploring media and communication studies very much as a social science
