analytical questions **Social Construction of National Reality** Fu-Lai Tony Yu, Diana S. Kwan, 2020-10-14 Social Construction of National Reality Taiwan Tibet and Hong Kong applies Peter Berger's theory of social construction of reality to explain the origins of national identity and the process of nation building Professor Fu Lai Tony Yu and Diana S Kwan examine how everyday life experiences as a result of socialization germinate ingroup and outgroup which differentiate nationals and foreigners Using this theory to advance an understanding of conflicts between national groups Yu and Kwan analyze how national consciousnesses have precipitated the Taiwan Strait Crisis upheavals in Tibet and Hong Kong s Umbrella Movement Culture and Citizenship Nick Stevenson, 2001-01-26 Culture and citizenship are two of the most hotly contested concepts in the social sciences What are the relationships between them This book explores the issues of inclusion and exclusion the market and policy rights and responsibilities and the definitions of citizens and non citizens Substantive topics investigated in the various chapters include cultural democracy intersubjectivity and the unconscious globalization and the nation state European citizenship and the discourses on cultural policy **Interpreting Islam** Hastings Donnan, 2002-02-15 Islam is one of the most misunderstood concepts in the West Myths and stereotypes surround it This clear and penetrating volume helps readers to make sense of Islam It offers a penetrating guide to the diversity and richness of contemporary knowledge about Islam and Muslim society Throughout the emphasis is upon the value of pluralistic approaches to Islam rather than condensing complexity with unifying concepts such as Orientalism Interdisciplinary in scope and organization the book cuts through the bewildering and seemingly anarchic diversity of contemporary knowledge about Islam and Muslim society The methodological difficulties and advantages of Western researchers focusing on Islam are fully documented The book demonstrates how gender age status and insider outsider status impacts upon research and inflects research findings **Communities in European History** Juan Pan-Montojo, Frederik Pedersen, 2007 **Crisis, Rupture and Anxiety** Will Jackson, Bob Jeffrey, Mattia Mariano, 2011-12-14 Crisis Rupture and Anxiety An Interdisciplinary Examination of Contemporary and Historical Human Challenges brings together a range of original contributions that seek to critically interrogate the concept of crisis a seemingly omnipresent and defining metonym of our times Both international and interdisciplinary in perspective the leading doctoral scholars and early career researchers represented in this volume unsettle hegemonic notions of crisis and possible remedies by exploring *The Globalizations of Organized Labour* G. Myconos, 2005-09-06 Myconos explores the ways in which organized labour has globalized since 1945 Using two touchstone indicators the extent of cross border integration and the autonomy vis vis the state the book reveals a counterintuitive process network globalization involves a continuing orientation towards the state The book not only seeks to identify organized labour's trajectory on the macro plane but also to provide a more precise meaning of the term globalization as it relates to agency **Classical Sociology Beyond Methodological Nationalism**, 2014-04-17 Classical Sociology Beyond Methodological Nationalism defends classical sociology from the accusation of

methodological nationalism To reject such accusation the volume presents three arguments The first contends that classical sociology has not failed to deal with the global world Part I The second that classical sociology has more frequently dealt with the transnational category of the social rather than with the national Part II The third that where classical sociology has analysed national society the latter has never been envisaged as a rigidly confined entity within its political boundaries Part III The outcome is a re evaluation of classical sociological thought as a more functional tool for analysing the political forms of modernity in the era of globalisation Contributors include Vittorio Cotesta David Inglis Austin Harrington Massimo Pendenza Michael Schillmeier Emanuela Susca Dario Verderame and Federico Trocini

Stability and the Lebanese State in the 20th Century Tarek Abou Jaoude, 2022-08-25 Explaining state building failures in Lebanon during the 20th century this book looks at the relationship between legitimacy and stability in the country since the creation of the state in 1920 The presence of legitimacy is considered necessary to any successful state building endeavour This book argues that the Lebanese state failed to achieve any meaningful form of legitimacy from its inception in 1920 to its near collapse during the civil war However by analysing different eras of Lebanese history throughout the different presidential terms the author challenges the general understanding of stability and governance to show that the absence of legitimacy and society support actually contributed to the persistence of the Lebanese state More than this the evidence shows that Lebanese state was at its most stable when it was regarded as illegitimate The wider implicit question thus asked in the book revolves around a case where illegitimacy within the state is what ensures its stability and survival Based on primary sources including national archives and collections institutional documents personal memoirs newspapers and journals this book provides a rich survey on the development and functioning of Lebanese political institutions

Local Government in England Colin Copus, Mark Roberts, Rachel Wall, 2017-03-15 The book explores the claim that English local government exists in one of the most centralised relationships with national government Such a position fundamentally undermines any notion of local self government and makes the term government in local government a misnomer The book will examine how

the erosion of the autonomy powers roles functions and responsibilities of English local government came about the arguments of centralisers and localisers to support their view of the constitutional status of local government and its overall role in the government of England The book offers an antidote to the onward march of centralisation by offering a new vision of local government which emphasises both local and government
