Nation In Retreat Britains Defence Commitment:

British Military Planning for the Defence of Germany 1945-50 Paul Cornish,1996-03-14 Using recently released archive material British Military Planning for the Defence of Germany 1945 50 reassesses Britain s strategy for the defence of Germany up to the outbreak of the Korean War Convinced of the capabilities of strategic air power with atomic weapons and convinced that the defence of the Middle East should be the first call on British planning Britain s military chiefs made a series of token gestures designed to boost French morale and consistently refused to make a genuine continental commitment of operational troops

Understanding UK Military Capability Andrew R. Curtis,2024-05-21 Concentrating on decisions taken below the political level this book uncovers the factors that underpin the translation of strategic direction into military capability

Security in British Politics 1945-99 D. Keohane,2000-08-21 Keohane examines the main British political parties attitude to Britain s policy on three key security issues namely the use of force nuclear weapons and security in Northern Ireland He analyses how each of the parties viewed conflicts at Suez the Falklands and the Gulf elucidates their perspective on nuclear weapons and concludes with a review of their attitude towards security in Northern Ireland The book finds the parties policies reflect their distinctive views on security while international conditions often severely affect the policy pursued

Research Handbook on the Arms Trade Andrew T.H. Tan,2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail

The Future of Sea Power Eric Grove,2021-05-30 This book first published in 1990 presents a fundamental reassessment of maritime strategy It analyses the lessons of twentieth century naval warfare and examines in detail the changing face of naval warfare both in terms of the weapons used and the platforms from which they are launched and controlled It looks at the evolving uses of the seas both economic and military and sets sea power against the developing world environment political legal and economic discussing those factors that stimulate nations to exert power at sea and those that limit their naval capabilities It also develops a theoretical framework for future thinking about maritime strategy and forces revises and updates Mahan s classical analysis of the foundations of sea power and discusses thinking about naval tasks

Jackson,2003-09-02 This comprehensive and versatile reference source will be a most important tool for anyone wishing to seek out information on virtually any aspect of British affairs life and culture The resources of a detailed bibliography directory and journals listing are combined in this single volume forming a unique guide to a multitude of diverse topics British politics government society literature thought arts economics history and geography Academic subjects as taught in British colleges and universities are covered with extensive reading lists of books and journals and sources of information for each discipline making this an invaluable manual

Britain's Retreat from East of Suez Saki Dockrill,2002-07-09 This book based on recently declassified documents in

Britain and the USA is the first detailed account of Britain's East of Suez decision which was taken by the Harold Wilson Government in 1967-68. Contrary to received opinion the author argues that the decision was not taken hastily as a result of the November 1967 devaluation. Nor is there any hard evidence to support the notion that there existed a Pound Defence deal with the USA. Despite Washington's pressure to maintain Britain's East of Suez role the decision was taken by the Labour Government on the basis of a long term effort to re-examine Britain's world role since 1959 and it marked the end of an era for postwar Britain.

The New Europe Frances Scott, 1991 *The Evolution of Strategy* Beatrice Heuser, 2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory? Is warfare on a path to ever greater destructive force? This magisterial account answers these questions by tracing the history of Western thinking about strategy, the employment of military force as a political instrument from antiquity to the present day. Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars, Beatrice Heuser explores the evolution of strategic thought, the social institutions, norms and patterns of behaviour within which it operates, the policies that guide it and the cultures that influence it. Ranging across technology and warfare, total warfare and small wars as well as land, sea, air and nuclear warfare, she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims, intensity, limitations and excesses over the past two millennia.

Foreign Policy and Discourse Analysis Henrik Larsen, 2005-11-30 Henrik Larsen presents discourse analysis as an alternative approach to foreign policy analysis. Through an extensive empirical study of British and French policies towards Europe in the 1980s he demonstrates the importance of political discourse in shaping foreign policy. The author discusses key theoretical problems within traditional belief system approaches and proposes an alternative one: political discourse analysis. The theory is illustrated through detailed analyses of British and French discourses on Europe, nation state security and the nature of international relations.

The Falklands War Daniel K. Gibrán, 2015-08-01 The Falklands War is an ideal showcase for how British policy evolved in the 1970s and 1980s. The background of the dispute over the island group in the remote South Atlantic called Las Malvinas by the Argentines is given first, then the events that precipitated the 1982 conflict and extensive examination of the military aspects of the war are provided. An overview follows of the many hypotheses offered for the British motivation to recapture the Falklands, showing that only those theories pertaining to the British perception of their national honor and the defense of democratic principles are significant. The Falklands War did not result in a dramatic shift in British defense policy but did show the importance of external developments and political realism in policy formation and these considerations are fully detailed here.

Victory in Europe? Sabine Lee, 2014-07-15 With the debate about Europe constantly in the headlines, this examination of the important and tricky post-war relationship between Germany and Britain compares their different roles, outlook and development. In the wake of a devastated continent, this relationship has been one of the central axes of the development of post-war Europe and crucial in terms of recent British history. Sabine Lee considers broad issues such as the

comparative senses of national identity destiny and direction and the respective roles of Germany and Britain in Europe and in the world community at large With Germany now reunited and at the head of the new Europe and Britain in the process of devolution and struggling to retain the special relationship with the United States this is an important and topical book

Current Military Literature ,1985 Comment and abstracts citations of important articles from international military and defence periodicals *The new Europe : challenges for U.S. policy* ,1991 Strategic Review ,1988 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States Special Bibliography Series United States Air Force Academy. Library,1991 **Special Bibliography Series** ,1957 *International Affairs* ,1987 Constraints and Adjustments in British Foreign Policy (Routledge Revivals) Michael Leifer,2013-10-31 This book first published in 1972 offers a detailed analysis of the post war formulation of foreign policy as Britain sought to detach itself from its imperialist past and moved towards a European future The contributors all experts in their fields together provide a comprehensive commentary on the complexities of the external pressures that moulded British foreign policy during these years The subjects covered highlight the dichotomy of and interaction between residual obligations and new goals and national aspirations These include the examination of past policies regarding the Commonwealth South East Asia NATO and the special relationship with the U S A as well as multi national companies and Britain s place in the changing global society This reissue will of particular interest to students and academics researching the history of British foreign policy international diplomacy and development and post colonialism

Fear and Uncertainty in Europe Roberto Belloni,Vincent Della Sala,Paul Viotti,2018-08-02 Russia s intervention in the Ukraine Donald Trump s presidency and instability in the Middle East are just a few of the factors that have brought an end to the immediate post Cold War belief that a new international order was emerging one where fear and uncertainty gave way to a thick normative and institutional architecture that diminished the importance of material power This has raised questions about the instruments we use to understand order in Europe and in international relations The chapters in this book aim to assess whether foreign policy actors in Europe understand the international system and behave as realists They ask what drives their behaviour how they construct material capabilities and to what extent they see material power as the means to ensure survival They contribute to a critical assessment of realism as a way to understand both Europe s current predicament and the contemporary international system
