Wiseman,2021-04-22 This book examines the discourses on nation building civic identity minorities and the formation of religious identities in school textbooks worldwide

It offers up to date practical and scholarly information on qualitative and mixed method textbook analysis as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social political and economic groups affect textbook production and the curricular aims in different educational systems worldwide Chapters address the role of school textbooks in developing nationhood the creation of citizenship through school textbooks the complexity of gender in normative discourses and the intersection of religion and culture in school textbooks *Nation of Nations* Linda Killen,2001-10 **The Industrial Revolution in United States History** Anita Louise McCormick,2014-09

Imagine listening as Alexander Graham Bell first demonstrates the telephone or watching Thomas Edison show off his new invention the automatic telegraph In less than two hundred years the United States changed from a rural agricultural society into an industrial world power Author Anita Louise McCormick explores the inventions ideas and innovators who helped bring the Industrial Revolution from its roots in Great Britain to America This book is developed from THE INDUSTRIAL REVOLUTION IN AMERICAN HISTORY to allow republication of the original text into ebook paperback and trade editions

Appalachians All Mark T. Banker,2011-02-01 A singular achievement Mark Banker reveals an almost paradoxical Appalachia that trumps all the stereotypes Interweaving his family history with the region s latest scholarship Banker uncovers deep psychological and economic interconnections between East Tennessee s three Appalachias its tourist laden Smokies its urbanized Valley and its strip mined Plateau Paul Salstrom author of Appalachia s Path to Dependency Banker weaves a story of Appalachia that is at once a national and regional history a family saga and a personal odyssey This book reads like a conversation with a good friend who is well read and well informed thoughtful wise and passionate about his subject He brings new insights to those who know the region well but more importantly he will introduce the region s complexities to a wider audience Jean Haskell coeditor Encyclopedia of Appalachia *Appalachians All* intertwines the histories of three communities Knoxville with its urban life Cades Cove with its farming logging and tourism legacies and the Clearfork Valley with its coal production to tell a larger story of East Tennessee and its inhabitants Combining a perceptive account of how industrialization shaped developments in these communities since the Civil War with a heartfelt reflection on Appalachian identity Mark Banker provides a significant new regional history with implications that extend well beyond East Tennessee s boundaries Writing with the keen eye of a native son who left the area only to return years later Banker uses elements of his own autobiography to underscore the ways in which East Tennesseans particularly successful urban dwellers often distance themselves from an Appalachian identity This understandable albeit regrettable response Banker suggests diminishes and demeans both the individual and region making stereotypically Appalachian conditions self perpetuating Whether exploring grassroots activism in the Clearfork Valley the agrarian traditions and subsequent displacement of Cades Cove residents or Knoxville efforts to promote trade tourism and industry Banker s detailed historical excursions reveal

not only a profound richness and complexity in the East Tennessee experience but also a profound interconnectedness. Synthesizing the extensive research and revisionist interpretations of Appalachia that have emerged over the last thirty years, Banker offers a new lens for constructively viewing East Tennessee and its past. He challenges readers to reconsider ideas that have long diminished the region and to re-imagine Appalachia. And ultimately, while *Appalachians All* speaks most directly to East Tennesseans and other Appalachian residents, it also carries important lessons for any reader seeking to understand the crucial connections between history, self, and place. Mark T. Banker, a history teacher at Webb School of Knoxville, resides on the farm where he was raised in nearby Roane County. He earned his PhD at the University of New Mexico and is the author of *Presbyterian Missions and Cultural Interaction in the Far Southwest, 1850-1950*. His articles have appeared in the *Journal of Presbyterian History*, *Journal of the West*, *OAH Magazine of History*, and *Appalachian Journal*.
