The State Park Movement in America Ney C. Landrum, 2013-08-11. Essentially a phenomenon of the twentieth century, America's pioneering state park

movement has grown rapidly and innovatively to become one of the most important forces in the preservation of open spaces and the provision of public outdoor recreation in the country During this time the movement has been influenced and shaped by many factors social cultural and economic resulting in a wide variety of expressions While everyone agrees that the state park movement has been a positive and beneficial force on the whole there seems to be an increasing divergence of thought as to exactly what direction the movement should take in the future In *The State Park Movement in America* Ney Landrum recipient of almost two dozen honors and awards for his service to state and national parks places the movement for state parks in the context of the movements for urban and local parks on one side and for national parks on the other He traces the evolution of the state park movement from its imprecise and largely unconnected origins to its present status as an essential and firmly established state government responsibility nationwide in scope Because the movement has taken a number of separate but roughly parallel paths and produced differing schools of thought concerning its purpose and direction Landrum also analyzes the circumstances and events that have contributed to these disparate results and offers critical commentary based on his long tenure in the system As the first study of its kind *The State Park Movement in America* will fill a tremendous void in the literature on parks Given that there are more than five thousand state parks in the United States compared with fewer than five hundred national parks and historic sites this history is long overdue It will be of great interest to anyone concerned with federal state or local parks as well as to land resource managers generally

Tennessee State Parks Lori Jill Smith and Jane Banks Campbell, 2017-02-20 The story of Tennessee s state parks began more than 80 years ago when New Deal agencies worked to rebuild portions of Tennessee s eroded landscape Along with these conservation measures the state s early parks were created through the development of recreational areas The Tennessee Valley Authority built dams that contributed to recreational attractions and the Division of State Parks was started in 1937 All of these efforts in addition to Tennessee s natural beauty have resulted in 56 state parks Through their postcard collections the authors invite readers to discover each park s special place in Tennessee s history and landscape
