National Security Case Studies In Policy Making And Implementation Vol I:

National Security Case Studies in Policy Making & Implementation, Volume I, U.S. Department of Defense, 1994 Naval War College (U.S.), **U.S. Army War College Guide to National Security Policy and Strategy** J. Boone Bartholomees, 2001 National Security: U.S. contingency operations, 1994 **Georgia's Journey towards Democracy** Ronald Scott Mangum, 2024-12-15 Georgia's Journey Towards Democracy Civil Military Relations and National Security Decision Making in a Former Soviet Republic examines Georgia's path toward democracy from its independence in 1991 to the present time emphasizing the role of civil military relations in that journey The research offers a historical review of the political events that impacted the country's uneven movement to democracy and the personalities who steered the country forward Using Samuel P Huntington's concept of an authoritarian transition that is unique to modernizing states and especially with the former Soviet republics the research concludes that Georgia remains in its authoritarian transition but also raises the issue that this transition may have been further derailed by state capture This study is important for donor states to understand the historical and cultural traditions that affect the effectiveness of their assistance to Georgia Georgia's Journey Towards Democracy concludes with several recommendations to assist Georgia to advance toward becoming a united liberal democracy and the necessity to free its civil military relations from partisan politics and state capture

National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigeria's population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians don't write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law

University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria **Project on National Security Reform Case Studies** ,2012 On November 26 2008 the Project on National Security Reform submitted its 2 year study of the national security system Forging a new shield to the President President elect and Congress The study found that the national security system was at risk of failure and needed serious reform Before the Project finalized the report s recommendations its Vision Working Group tested the findings against a diverse set of scenarios to determine if the recommendations were robust and effective This testing revealed that each of the five major findings improved the performance of the current national security system Volume 1 documents the scenario testing process used by the Vision Working Group It includes the actual pre reform and post reform scenarios and details many other scenario techniques used in the overall study The studies featured in Volume 2 span from the Eisenhower administration to the present day offering diverse lessons and covering a range of issues from public diplomacy to nonproliferation to biodefense to peacekeeping and alliance management among others **Subject Guide to Books in Print** ,2001 **National Security, Democracy, & Good Governance in Post-Military Rule Nigeria, Volume One** Dr. Dan Mou,2016-12-30 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the seventy one percent 71% of Nigerias population still living below poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness the worst civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use *Compendium of HHS Evaluations and Relevant Other Studies* ,1990 *Energy Abstracts for Policy Analysis* ,1986 *Compendium of Research Reports* ,1979 **The Politics of Migration in Indonesia and Beyond** Riwanto Tirtosudarmo,2019-01-22 This book examines the social and political dimensions of migration from a perspective between the realms of demography and politics It approaches the issue of migration by highlighting the important power relations that have previously been neglected in studies in the area The book

starts by investigating Indonesian migration to provide an understanding of internal migration It then looks beyond its national borders for a wider understanding of Asia and showcases several case studies both in Indonesia and beyond to illustrate the intricate politics of migration Further it considers the politics of migration from the sending country perspective and unravels the link between migration and security The book provides reviews of the wider literature relating to population mobility and distribution and shows readers how to adopt a new perspective in the study of movement of people an issue that is becoming increasingly important as movement of people unfolds globally in terms of both volume and direction This book is a valuable resource for students academics and researchers in the area of demography and social politics especially those interested in migration and refugees It also offers insights for those interested in understanding decentralization in greater depth

Resources in Education, 1997 *Smart and Sustainable Planning for Cities and Regions* Adriano Bisello, Daniele Vettorato, Håvard Haarstad, Judith Borsboom-van Beurden, 2021-03-22 This book offers a selection of research papers and case studies presented at the 3rd international conference Smart and Sustainable Planning for Cities and Regions held in December 2019 in Bolzano Italy and explores the concept of smart and sustainable planning including top contributions from academics policy makers consultants and other professionals Innovation processes such as co design and co creation help establish collaborations that engage with stakeholders in a trustworthy and transparent environment while answering the need for new value propositions The importance of an integrated holistic approach is widely recognized to break down silos in local government in particular when aimed at achieving a better integration of climate energy planning Despite the ongoing urbanization and polarization processes new synergies between urban and rural areas emerge linking development opportunities to intrinsic cultural natural and man made landscape values The increasing availability of big real time urban data and advanced ICT facilitates frequent assessment and continuous monitoring of performances while allowing fine tuning as needed This is valid not only for individual projects but also on a wider scale In addition and circling back to the first point big urban data and ICT can be of enormous help in facilitating engagement and co creation by raising awareness and by providing insight into the local consequences of specific plans However this potential is not yet fully exploited in standard processes and procedures which can therefore lack the agility and flexibility to keep up with the pulse of the city and dynamics of society The book provides a multi disciplinary outlook based on experience to orient the reader in the giant galaxy of smart and sustainable planning support the transposition of research into practice scale up visionary approaches and design groundbreaking planning policies and tools
