National Self Determination:

The Nation State and National Self-determination Alfred Cobban,1970 **National Self-Determination and Justice in Multinational States** Anna Moltchanova,2009-08-28 Substate nationalism especially in the past fifteen years has noticeably affected the political and territorial stability of many countries both democratic and democratizing Norms exist to limit the behavior of collective agents in relation to individuals the set of universally accepted human rights provides a basic framework There is a lacuna in international law however in the regulation of the behavior of groups toward other groups with the exception of relations among states The book offers a normative approach to moderate minority nationalism that treats minorities and majorities in multinational states justly and argues for the differentiation of group rights based on how group agents are constituted It argues that group agency requires a shared set of beliefs concerning membership and the social ontology it offers ensures that group rights can be aligned with individual rights It formulates a set of principles that if adopted would aid conflict resolution in multinational states The book pays special attention to national self determination in transitional societies The book is intended for everyone in political philosophy and political science interested in global justice and international law and legal practitioners interested in normative issues and group rights **National Self-Determination** Derek Heater,1994-09-22 This study critically examines Woodrow Wilson s acceptance of the principle of national self determination and his role in implementing it at the Paris Peace Conference of 1919 The assessment includes judgements by his contemporaries and historians of Wilson and the peace settlement A survey of the manner in which national self determination shaped the settlement leads to a discussion of the subsequent effects of the idea on the states and territories subject to the Versailles Treaty and related treaties *The Theory of Self-Determination* Fernando R. Tesón,2016-04-07 When can a group legitimately form its own state Under international law some groups can but others cannot But the standard is unclear and traditional legal analysis has failed to elucidate it In *The Theory of Self Determination* leading scholars chart new territory in our theoretical conception of self determination Drawing from diverse scholarship in international law philosophy and political science they attempt to move beyond the prevailing nationalist conceptions of group definition At issue are such universal questions as when does a group qualify as a people Does history matter Or is it a question of ethnic status Are these matters properly solved by popular vote Anchored in modern analytical political philosophy but with implications for a wide range of scholarship this volume will prove essential for scholars and practitioners of international law global justice and international relations **The Nation State** Alfred Cobban,1969 **The Communist (Bolshevik) Theory of National Self-determination** Samad Shaheen,1956 *Illusion of the Peoples* Omar Dahbour,2003-01-01 In this book Omar Dahbour examines all of the arguments that have been given for national self determination whether by international lawyers moral philosophers democratic theorists or political communitarians Past and Future of the Right of National Self-determination Ernő Wittmann,1919 *National*

Is Quebec Nationalism Just? Joseph H. Carens, 1995 In Is Quebec Nationalism Just contributors explore Quebec's relationship with the rest of Canada from a normative perspective The case of Quebec is interesting both politically and philosophically because it epitomizes the puzzle of liberal nationalism While nationalism is often assumed to be inherently illiberal and regressive the authors of these essays argue that Quebecers desire to control their own political destiny is not fuelled by hostility to liberalism On the contrary they conclude that Quebecers are at least as deeply committed to liberal values institutions and practices as people in the rest of Canada
