Continuity, Commitment, and Survival Sol Encel, Leslie Stein, 2003-11-30 Issues of continuity survival and identity have generated apparently unending debates throughout the Jewish world for centuries While similar issues arise in all Jewish communities there are significant differences between them This collection was designed to highlight differences as well as similarities by devoting a chapter to each of seven countries Argentina Australia Canada France South Africa the United Kingdom and the United States In four communities those in Australia Canada the United Kingdom and the United States debates about continuity are mainly concerned with the loss of Jewish identity through assimilation In Argentina and South Africa the main issue is with physical survival in the face of chaotic social conditions In France although the situation is less dire the community feels threatened by the rise of xenophobic political movements and the hostility of Arab groups Apart from external factors all the contributors review debates over the relative importance of religion and ethnic identity and the contrasting positions taken by religious leaders and secularists While the study offers no clear cut answers it does aim to broaden the debate by exposing national differences
