Masters Theses in the Pure and Applied Sciences was first conceived published and disseminated by the Center for Information and Numerical Data Analysis and Synthesis CINDAS at Purdue University in 1957 starting its coverage of theses with the academic year 1955 Beginning with Volume 13 the printing and dissemination phases of the activity were transferred to University Microfilms Xerox of Ann Arbor Michigan with the thought that such an arrangement would be more beneficial to the academic and general scientific and technical community After five years of this joint undertaking we had concluded that it was in the interest of all concerned if the printing and distribution of the volumes were handled by an international publishing house to assure improved service and broader dissemination Hence starting with Volume 18 Masters Theses in the Pure and Applied Sciences has been disseminated on a worldwide basis by Plenum Publishing Corporation of New York and in the same year the coverage was broadened to include Canadian universities All back issues can also be ordered from Plenum We have reported in Volume 32 thesis year 1987 a total of 12 483 theses titles from 22 Canadian and 176 United States universities We are sure that this broader base for these titles reported will greatly enhance the value of this important annual reference work While Volume 32 reports theses submitted in 1987 on occasion certain universities do report theses submitted in previous years but not reported at the time      **A New Architecture for the U.S. National Accounts** Dale W. Jorgenson, J. Steven Landefeld, William D. Nordhaus, 2007-11-01 A New Architecture for the U S National Accounts brings together a distinguished group of contributors to initiate the development of a comprehensive and fully integrated set of United States national accounts The purpose of the new architecture is not only to integrate the existing systems of accounts but also to identify gaps and inconsistencies and expand and incorporate systems of nonmarket accounts

with the core system Since the United States economy accounts for almost thirty percent of the world economy it is not surprising that accounting for this huge and diverse set of economic activities requires a decentralized statistical system This volume outlines the major assignments among institutions that include the Bureau of Economic Analysis the Bureau of Labor Statistics the Department of Labor the Census Bureau and the Governors of the Federal Reserve System An important part of the motivation for the new architecture is to integrate the different components and make them consistent This volume is the first step toward achieving that goal
