**The Ethics and Economics of the Basic Income Guarantee** Karl Widerquist, Michael Anthony Lewis, 2017-05-15 Governments in the US the UK and other nations around the world routinely consider and in some cases experiment with reforms of their income support systems The basic income guarantee a universal unconditional income grant has received increasing attention from scholars as an alternative to the kinds of reforms that have been implemented This book explores the political sociological economic and philosophical issues of the basic income guarantee Tracing the history of the idea from its origins in the late eighteenth century through its political vogue in the 1970s when the Family Assistance Plan narrowly missed passage in the US Congress it also examines the philosophical debate over the issue The book is designed to foster a climate of ideas amongst those specifically interested in the income support policies and more widely for those concerned with public welfare and labour economics Its coverage will enable readers to obtain an in depth grounding in the topic regardless of their position in the debate

**Redesigning Distribution** Anne Alstott, Bruce Ackerman, Philippe Van Parijs, 2020-05-05 Volume V in the acclaimed Real Utopias Project series edited by Erik Olin Wright Are there ways that contemporary capitalism can be rendered a dramatically more egalitarian economic system without destroying its productivity and capacity for growth This book explores two proposals unconditional basic income and stakeholder grants that attempt just that In a system of basic income as elaborated by Philippe van Parijs all citizens are given a monthly stipend sufficient to provide them with a no frills but adequate standard of living This monthly income is universal rather than means tested and it is unconditional receiving the basic income does not depend upon performing any labor services or satisfying other conditions It affirms the idea that as a

matter of basic rights no one should live in poverty in an affluent society In a system of stakeholder grants as discussed by Bruce Ackerman and Anne Alstott all citizens upon reaching the age of early adulthood receive a substantial one time lump sum grant sufficiently large so that all young adults would be significant wealth holders Ackerman and Alstott propose that this grant be in the vicinity of 80 000 and be financed by an annual wealth tax of roughly 2 percent A system of stakeholder grants they argue expresses a fundamental responsibility every American has an obligation to contribute to a fair starting point for all

**The Welfare State in Post-Industrial Society** Jason L. Powell, Jon Hendricks, 2009-06-10 In recent years major social forces such as ageing populations social trends migration patterns and the globalization of economies have reshaped social welfare policies and practices across the globe Multinational corporations NGOs and other international organizations have begun to influence social policy at a national and local level Among the many ramifications of these changes is that globalizing influences may hinder the ability of individual nation states to effect policies that are beneficial to them on a local level With contributions from thirteen countries worldwide this collected work represents the first major comparative analysis on the effect of globalization on the international welfare state The Welfare State in Post Industrial Society is divided into two major sections the first draws from a number of leading social welfare researchers from diverse countries who point to the nation state as case studies highlighting how it goes about establishing and revising social welfare provisions The second portion of the volume then moves to a more global perspective in its analysis and questioning of the impact of globalization on citizenship ageing and marketization The Welfare State in Post Industrial Society seeks to encourage debate about the implications of the most pressing social welfare issues in nation states and integrate analyses of policy and practice in particular countries struggling to provide social welfare support for their needy populations

influence of work and family James Lee and Kam Wah Chan bring together authors from different social policy domains to provide an updated assessment of inadequacies and limitations in current social policies as well as the problematic theories guiding them The authors demystify the so called East Asian Welfare Model and reengage themselves in the identification of an appropriate welfare ideology which includes a selective integration of social policy and economic development The Crisis of Welfare in East Asia is a dynamic and enlightening read that will interest students of public policy and those interested in welfare capitalism
