EDITED BY CLAIRE NORTON

Nationalism And Historiography

Sylvie Guichard

Nationalism And Historiography:

Nationalism, Historiography, and the (re)construction of the Past Claire Norton, 2007 The essays in this collection explore both how the employment of nation state dominated discourses have caused a re imagination of the past and how the past has been re constructed to accord with nationalist agendas Although other works have considered in general terms how nations are imagined this collection takes a different stance and specifically focuses on how the past is used in such imaginations This collection was conceived in an interdisciplinary spirit drawing insights from art history intellectual history literature archaeology heritage studies political science and film studies The authors combine a sophisticated theoretical approach with illuminative case studies from all across the globe including the Balkans South Africa Rwanda the Yemen Italy Turkey Greece and Uzbekistan

Writing the History of Nationalism Stefan Berger, Eric Storm, 2019-09-19 What is nationalism and how can we study it from a historical perspective Writing the History of Nationalism answers this question by examining eleven historical approaches to nationalism studies in theory and practice An impressive cast of contributors cover the history of nationalism from a wide range of thematic approaches from traditional modernist and Marxist perspectives to more recent debates around gender postcolonialism and the global turn in history writing This book is essential reading for undergraduate students of history politics and sociology wanting to understand the complex yet fascinating history of nationalism

Nationalism Paul Lawrence, 2016-09-17 Massive changes have taken place in the way nations and nationalism are thought about From being viewed enthusiastically by historians as a force for beneficial change before the First World War today appeals to national sentiment are viewed as far more complex and problematic This book looks at how historians and others such as sociologists and political theorists have explained the development and enduring importance of national identities from c 1850 to the present day It compares and contrasts a wide range of different theories and will be useful for anyone wanting to equip themselves with a theoretical understanding of why we live in nations and why we invest them with such significance

National History and New Nationalism in the Twenty-First Century Niels F. May, Thomas Maissen, 2021-06-17 National history has once again become a battlefield In internal political conflicts which are fought on the terrain of popular culture museums schoolbooks and memorial politics it has taken on a newly important and contested role Irrespective of national specifics the narratives of new nationalism are quite similar everywhere National history is said to stretch back many centuries expressing the historical continuity of a homogeneous people and its timeless character This people struggles for independence guided by towering leaders and inspired by the sacrifice of martyrs Unlike earlier forms of nationalism the main enemies are no longer neighbouring states but international and supranational institutions To use national history as an integrative tool new nationalists claim that the media and school history curricula should not contest or question the nation and its great historical deeds as doubts threaten to weaken and dishonour the nation This book offers a broad international overview of the rhetoric contents and contexts of the rise of these renewed

national historical narratives and of how professional historians have reacted to these phenomena The contributions focus on a wide range of representative nations from around all over the globe **The Nation in History** Anthony D.

Smith,2014-01-23 In this thought provoking new book Anthony Smith analyses key debates between historians and social scientists on the role of nations and nationalism in history In a wide ranging analysis of the work of historians sociologists political scientists and others he argues that there are three key issues which have shaped debates in this field first the nature and origin of nations and nationalism second the antiquity or modernity of nations and nationalism and third the role of nations and nationalism in historical and especially recent social change Anthony Smith provides an incisive critique of the debate between modernists perennialists and primordialists over the origins development and contemporary significance of nations and nationalism Drawing on a wide range of examples from antiquity and the medieval epoch as well as the modern world he develops a distinctive ethnosymbolic account of nations and nationalism This important book by one of the world s leading authorities on nationalism and ethnicity will be of particular interest to students and scholars in history sociology and politics

Modern Nationalism and the Making of a Professional Historian Shih-chieh Su,2014 This new study re examines the relationship between the beginnings of the modern historical profession and the emergence of the nation state in the nineteenth century The monograph analyses the founding father of modern historiography Leopold von Ranke and his evolution as an historian his self perception and his increasingly dominant perceptions of the historian s craft and role in society and politics Su particularly focuses on the tension between a commitment to an objective representation of the past and the allegiance to a nation The approach suggests an original and important revision of the conventional view of Ranke as an historian and perhaps more importantly of the origins of the modern historical profession This revision also suggests that some of the conventional attacks on the alleged fixation on objectivity of the Rankean school were misplaced on the one hand and that other hand the historical profession has been from its very beginnings locked in battle with itself over its relationship with a specific nation culture and race its claim of universal meaning and implication and its assertion of truthfully telling the story of the past Su demonstrates that many if not in one way or the other all of the dilemmas and conundrums that confront historians today were already present in the making of the profession and more or less clearly in the minds of such major figures as von Ranke *The Plain and Noble Garb of Truth* Eileen K. Cheng,2008 American

historians of the early national period argues Eileen Ka May Cheng grappled with objectivity professionalism and other modern issues to a greater degree than their successors in later generations acknowledge Her extensive readings of antebellum historians show that by the 1820s a small but influential group of practitioners had begun to develop many of the doctrines and concerns that undergird contemporary historical practice The Plain and Noble Garb of Truth challenges the entrenched notion that America's first generations of historians were romantics or propagandists for a struggling young nation Cheng engages with the works of well known early national historians like George Bancroft William Prescott and David Ramsay such lesser known figures as Jared Sparks and Lorenzo Sabine and leading political and intellectual elites of the day including Francis Bowen and Charles Francis Adams She shows that their work which focused on the American Revolution was often nuanced and surprisingly sympathetic in its treatment of American Indians and loyalists She also demonstrates how the rise of the novel contributed to the emergence of history as an autonomous discipline arguing that paradoxically early national historians at once described truth in opposition to the novel and were influenced by the novel in their understanding of truth Modern historians should recognize that the discipline of history is itself a product of history says Cheng By taking seriously a group of too often dismissed historians she challenges contemporary historians to examine some ahistorical aspects of the way they understand their own discipline

A Textbook of Historiography, 500 B.C. to A.D. 2000 E. Sreedharan, 2004 This book traces the development of historiography from the days of Herodotus to those of postmodernism It covers the ancient medieval and the modern aspects of the subject and offers easy comprehension clear and precise guidance and immediate utility The author provides a balanced view of competing ideas and leads the reader into the vast arena of the subject Two thousand five hundred years of historiography including Indian historiography and the poststructuralist critique of history constitutes this clear analytical work

The Construction of History and Nationalism in India Sylvie Guichard, 2010-06-25 Most studies on nations and nationalism argue that history or more precisely a common past is crucial for the process of national identity building This book focuses on the construction elaboration and negotiation of the narratives that have become official history in India

Nigeria, Nationalism, and Writing History Toyin Falola, Saheed Aderinto, 2010 The second half of the 20th century saw the publication of massive amounts of literature on Nigeria by Nigerian and non Nigerian historians This volume reflects on that literature focusing on those works by Nigerians in the context of the rise and the decline of African nationalist historiography

Nationality and History Henry Morse Stephens, 1916

A Global History of Modern Historiography Georg G Iggers, Q. Edward Wang, Supriya Mukherjee, 2016-09-01 The first book on historiography to adopt a global and comparative perspective on the topic A Global History of Modern Historiography looks not just at developments in the West but also at the other great historiographical traditions in Asia the Middle East and elsewhere around the world over the course of the past two and a half centuries This second edition contains fully updated sections on Latin American and African historiography discussion of the development of

global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography *The Oxford Handbook of the History of Nationalism* John Breuilly, 2013-03-07 The Oxford Handbook of the History of Nationalism comprises thirty six essays by an international team of leading scholars providing a global coverage of the history of nationalism in its different aspects ideas sentiments and politics Every chapter takes the form of an interpretative essay which by a combination of thematic focus comparison and regional perspective enables the reader to understand nationalism as a distinct and global historical subject The book covers the emergence of nationalist ideas sentiments and cultural movements before the formation of a world of nation states as well as nationalist politics before and after the era of the nation state with chapters covering Europe the Middle East North East Asia South Asia Southeast Asia sub Saharan Africa and the Americas Essays on everyday national sentiment and race ideas in fascism are accompanied by chapters on nationalist movements opposed to existing nation states nationalism and international relations and the role of external intervention into nationalist disputes within states In addition the book looks at the major challenges to nationalism international socialism religion pan nationalism and globalization before a final section considering how historians have approached the subject of nationalism Taken separately the chapters in this Handbook will deepen understanding of nationalism in particular times and places taken together they will enable the reader to see nationalism as a distinct subject in modern world history **Salman Rushdie and Indian Historiography** Nicole Weickgenannt Thiara, 2009-06-25 Paying particular attention to the representation of women and to gendered notions of the nation this book examines for the first time the marked parallels between Rushdie s critique of the Nehruvian legacy and the most significant recent trends in Indian historiography especially the feminist and subalternist movements *The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction* Cathie Carmichael, Matthew D'Auria, Aviel Roshwald, 2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present It considers both continuities and discontinuities engaging critically and analytically with the scholarly literature in the field In volume II leading scholars in their fields explore the dynamics of nationhood and nationalism s interactions with a wide variety of cultural practices and social institutions in addition to the phenomenon s crucial political dimensions The relationships between imperialism and nationhood nationalism and between major world religions and ethno national identities are among the key themes explained and explored The wide range of case

studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions **The Routledge Companion to Postcolonial African Historiography** Thula

Simpson, Immanuel R. Harisch, 2025-05-09 The Routledge Companion to Postcolonial African Historiography explores history's fortunes in Modern Africa south of the Sahara from the discipline's Golden Age as a handmaiden in struggles against colonialism to difficult decades when its survival has been threatened by capricious political and economic conditions and the uncertain present where the continent's historians struggle to justify their value to frequently sceptical publics In exploring the discipline's practical role in past struggles for African emancipation the volume speaks directly to these challenging but changing circumstances The chapters feature contributions from leading experts on historiographical traditions of different regions of the continent They collectively demonstrate how the process of instrumentalizing the past to advance lay struggles has influenced the choices historians have made regarding sources methodology interpretation audiences and platforms This practical application has strongly shaped the diverse forms that African historiography has assumed as reflected in this book The themes discussed offer a platform for inserting Africa into comparative studies of global historiographical traditions whilst also contributing to contemporary debates on decolonization In offering accessible insights from leading historians this is an essential handbook for students and scholars of African history and historiography as well as all those interested in postcolonial studies Historiography: Politics Robert M. Burns, 2006 This collection aims to enable the reader to

disentangle some of the ambiguities and confusions which have characterized the use of the term historiography

Handbook of Historical Sociology Gerard Delanty, Engin F Isin, 2003-06-23 This Handbook consists of 26 chapters on historical sociology Part One is devoted to Foundations Part Two moves on to consider major approaches and Part Three is devoted to the major themes in historical sociology Systematic and informative it offers readers the most complete and authoritative guide to historical sociology Nationalism and African Intellectuals Toyin Falola, 2004 An examination of the attempt by Western educated African intellectuals to create a better Africa through connecting nationalism to knowledge from the anti colonial movement to the present day This book is about how African intellectuals influenced primarily by nationalism have addressed the inter related issues of power identity politics self assertion and autonomy for themselves and their continent from the mid nineteenth century onward Their major goal was to create a better Africa by connecting nationalism to knowledge The results have been mixed from the glorious euphoria of the success of anti colonial movements to the depressing circumstances of the African condition as we enter a new millennium As the intellectual elite is a creation of the Western formal school system the ideas it generated are also connected to the larger world of scholarship This world is in turn shaped by European contacts with Africa from the fifteenth century onward the politics of the Cold War and the subsequent collapse of the Soviet Union In essence Africa and its elite cannot be fully understood without also considering the West and changing global politics Neither can the academic and media contributions by non Africans be ignored as these

also affect the ways that Africans think about themselves and their continent Nationalism and African Intellectuals examines intellectuals ambivalent relationships with the colonial apparatus and subsequent nation state formations the contradictions manifested within pan Africanism and nationalism and the relation of academic institutions and intellectual production to the state during the nationalism period and beyond Toyin Falola is the Jacob and Frances Sanger Mossiker Chair in the Humanities and University Distinguished Teaching Professor at the University of Texas at Austin
