Nationalism And Empire The Habsburg Monarchy And The Soviet Union:

Empire to Nation Joseph W. Esherick, Hasan Kayali, Eric Van Young, 2006-04-27 The fall of empires and the rise of nation states was a defining political transition in the making of the modern world Here ten prominent specialists discuss the empire to nation transition in comparative perspective Chapters on Latin America the Middle East Eastern Euro

Nationalism and Empire Richard L. Rudolph, David F. Good, 1992-01-01 This volume studies the problems of domination and nationalism in the two great multi ethnic land empires the Soviet Union and the Habsburg monarchy The Habsburg Monarchy dissolved in 1918 in part because of conflict among its nationalities while the Soviet Union managed to stabilize its multinational empire on the heels of the Russian Revolution *The Soviet Union - Federation or Empire?* Tania Raffass, 2012-06-14 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

Nationalism and War John A. Hall, Siniša Malešević, 2013-04-25 Leading social scientists and historians examine the complex relationship between warfare and the emergence of nationalism **The End of Empire?** Karen Dawisha, Bruce Parrott, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an Informa company **Nations Abroad** Charles King, 2018-02-19 This book discusses trans border ethnic populations in the former Soviet Union in a broader conceptual context highlighting the importance of diaspora issues both for post Sovietologists and for scholars of comparative politics and international relations in general Shatterzone of Empires Larry Wolfe, Gregor Thum, Dan Diner, Theodore R. Weeks, Gary B. Cohen, Pieter M. Judson, Frithjof Benjamin Schenk, Elke Hartmann, Patrice M. Dabrowski, Robert Nemes, Yaroslav Hrytsak, Tomas Balkelis, Taner Akçam, Eyal Ginio, Keith Brown, David Gaunt, Peter Holquist, Alexander V. Prusin, John-Paul Himka, Pamela Ballinger, Myroslav Shkandrij, Paul Robert Magocsi, Kai Struve, Philipp Ther, 2013-02-15 Anyone who studies nationalism genocide mass violence or war in these regions from the Enlightenment through the mid 20th century needs to read this Central European History Shatterzone of Empires is a comprehensive analysis of interethnic relations coexistence and violence in Europe s eastern borderlands over the past two centuries In this vast territory extending from the Baltic to the Black Sea four major empires with ethnically and religiously diverse

populations encountered each other along often changing and contested borders Examining this geographically widespread multicultural region at several levels local national transnational and empire and through multiple approaches social cultural political and economic this volume offers informed and dispassionate analyses of how the many populations of these borderlands managed to coexist in a previous era and how and why the areas eventually descended into violence An understanding of this specific region will help readers grasp the preconditions of interethnic coexistence and the causes of ethnic violence and war in many of the world's other borderlands both past and present

The Limits of Loyalty Laurence Cole, Daniel Unowsky, 2007-11-01 The overwhelming majority of historical work on the late Habsburg Monarchy has focused primarily on national movements and ethnic conflicts with the result that too little attention has been devoted to the state and ruling dynasty This volume is the first of its kind to concentrate on attempts by the imperial government to generate a dynastic oriented state patriotism in the multinational Habsburg Monarchy It examines those forces in state and society which tended toward the promotion of state unity and loyalty towards the ruling house These essays all original contributions and written by an international group of historians provide a critical examination of the phenomenon of dynastic patriotism and offer a richly nuanced treatment of the multinational empire in its final phase

Canadian Review of Studies in Nationalism, 1994

The Experience of Democratization in Eastern Europe Richard Sakwa, 1999-05-17 Drawing on a selection of papers presented to the Fifth World Congress of Central and East European Studies held in Warsaw in August 1995 the book presents a broad cross section of thinking about postcommunist developments in Eastern Europe and the former Soviet Union Specialists from the region and the West apply their unique insights to challenge some conventional views on the transition The book is both diverse and focused suggesting that the experience of democratisation is an open ended process in which those involved learn both from their own experience and from comparative transitions elsewhere It provides a rich source for the comparative analysis of democratisation

Austrian Information, 1994

[A History of Eastern Europe 1918 to the Present](#) Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe's tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged

more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe *Historical Sociology and Eastern European Development* Arne Kommisrud, 2009-06-16 An innovator in theoretical approaches in the social sciences Stein Rokkan developed general models developmental models and conceptual maps that specified the main variables and important relationships in European political history In *Historical Sociology* Arne Kommisrud tests these general hypotheses against specific historical and regional contexts He uses the case of Eastern Europe after the downfall of the Berlin Wall to extend the geography of the model's range and introduces possibilities for theoretical modification through an analysis of sequential interactions Covering a period from the Middle Ages through the 1990s and addressing phenomena overlooked by Rokkan such as statebuilding and nationalism this book demonstrates that Rokkan's models continue to be relevant to modern political science and sociology Kommisrud's study is a valuable contribution to Rokkanian approaches and the understanding of Eastern European development within the historical and geographic context of Europe as a whole

Liberal and Illiberal Nationalisms R. Taras, 2002-07-05 How people construct their idea of home influences the types of nationalisms that emerge in various parts of the world These nationalisms can be inclusive or exclusionary tolerant or intolerant peaceful or violent In this important new book Ray Taras provides a comprehensive analysis of the history and study of nationalism He describes what happens when home is defined as empire Russia and India secessionist state KwaZulu and Quebec uninational Volkstaat Germany and Israel or transnational community Islam and anti Americanism Finally he explores the idea that the mantra of multiculturalism has fuelled conflicts over what home is and generates divisions within and between communities Revisiting Nationalism NA NA, 2016-05-24 This book gathers together French language authors who in the last decade have played a part in the renewal of interest in the question of nationalism This volume organized along thematic lines and with a genuine transversal approach seeks to give audiences a glimpse of some of that research whether related to theoretical normative or analytical questions **The East European Gypsies** Zoltan D. Barany, 2002 Includes statistics **The Revolutionary City** Mark R. Beissinger, 2022-04-12 How and why cities have become the predominant sites for revolutionary upheavals in the contemporary world Examining the changing character of revolution around the world *The Revolutionary City* focuses on the impact that the concentration of people power and wealth in cities exercises on revolutionary processes and outcomes Once predominantly an urban and armed affair revolutions in the twentieth century migrated to the countryside as revolutionaries searched for safety from government repression and discovered the peasantry as a revolutionary force But at the end of the twentieth century as urban centers grew revolution returned to the city accompanied by a new urban civic repertoire espousing the containment of predatory government and relying on visibility and the power of numbers rather than arms Using original data on revolutionary episodes since 1900 public opinion surveys and engaging examples from around the world Mark Beissinger explores the causes and consequences of the urbanization of revolution in the late twentieth and early twenty first centuries Beissinger examines the compact

nature of urban revolutions as well as their rampant information problems and heightened uncertainty He investigates the struggle for control over public space why revolutionary contention has grown more pacified over time and how revolutions involving the rapid assembly of hundreds of thousands in central urban spaces lead to diverse ad hoc coalitions that have difficulty producing substantive change The Revolutionary City provides a new understanding of how revolutions happen and what they might look like in the future

Building Civil Society and Democracy in New Europe

Sven Eliaeson, 2009-03-26 The European enlargement process culminating in 2004 was as a follow up to die Wende and the implosion of the Russian empire an event of the same magnitude as 1815 and 1919 Like 1918 19 it was an exit into history a momentous event in post Westphalian Europe Even if acceptance of ten new countries was premature it was appropriate to the moment history provided The presence of the New kids on the block meant both problems and prospects The end of the cold war meant the fall of the iron curtain but a mental remnant of the curtain remains in terms of attitudes regarding civility corruption and transparency and expectations for democratic politics Several of the new countries are late children of 1848 For them entering NATO was more important than joining the EU and also preceded EU membership Poland is bigger than the other 2004 countries together and has a heavy historical legacy It is as Germany used to be imprinted by its special path between East and West and fear of being encircled by enemies Although the Building of Civil Society and Democracy in countries in transformation can draw on experiences from the countries already within the EU there is no primrose path for EU integration It is moreover an irony that the new member states as a result of the expectations for post Communist politics build institutions of a kind that are no longer sufficiently efficient for old Europe The new countries became a full scale experiment in rule by experts now by neo liberals instead of Communists A common European public sphere and civil society might emerge but its form remains visible only at the horizon

Democracy, Ethnic Diversity, and Security in

Post-Communist Europe Anita I. Singh, 2001-06-30 Inder Singh examines why international organizations including the UN OSCE and Council of Europe advocated democratic governance based on the rule of law and respect for human and minority rights as the method by which states should try to accommodate their ethnically mixed populations She discusses how realistic this advice has been given the tension between the principle of the sovereignty of states and their international obligations and the extent to which democratization had made for ethnic and political stability in post communist Europe Inder Singh demonstrates that this advocacy of democracy to handle ethnic diversity questions the perception of nationalism as a cause of war and disorder This pathbreaking study will be of appeal to academics and policy makers interested in how the management of ethnic diversity through democracy can enhance domestic and international security

Understanding

Ethnic Conflict Raymond Taras, 2015-08-07 Understanding Ethnic Conflict provides all the key concepts needed to understand conflict among ethnic groups Including approaches from both comparative politics and international relations this text offers a model of ethnic conflict s internationalization by showing how domestic and international actors influence a

country's ethnic and sectarian divisions. Illustrating this model in five original case studies, the unique combination of theory and application in *Understanding Ethnic Conflict* facilitates more critical analysis of contemporary ethnic conflicts and the world's response to them.
