examines the political content of the unionist and nationalist ideologies which have emerged in the late 19th and early 20th centuries in Ireland. The focus of the book is also to examine and assess the impact of unionist and nationalist thinking and commitment on political and economic life in the twentieth century. *Ulster Unionism and British National Identity Since 1885* James Loughlin, 1995. Much has been written on the Irish problem and on the political manifestations of Ulster Unionism but the history of Unionist ideology has been relatively neglected. James Loughlin aims to correct this and to discuss the relationship of Unionism to the idea of Britishness demonstrating that the central element of Unionism was its rejection of Irish nationalism and its firm embracing of British national identity particularly with regard to the monarchy and membership of the wider British nation. The author pays close attention to primary sources especially local newspapers and thus reveals the regional variations in the character of Unionism. *Conflict in 19th Century Ireland* Russell Rees, 2010. An updated and extended version of Dr Rees popular A level text *Nationalism and Unionism in 19th Century Ireland* this book has been substantially revised to reflect the extension of the module for the revised CCEA specification. *Athlone 1900-1923* Dr John Burke, 2015-03-02. *Athlone 1900-1923* is perhaps the most detailed analysis ever completed of an Irish provincial town during this defining period in the country's history. Using a wide variety of local national and international sources this meticulously researched study provides the reader with a comprehensive history of the evolution of Irish nationalism in Athlone drawing together all of the events personalities and political philosophies that influenced not only the course of local politics but also the fate of the Irish nation itself. *Territorial politics in Catalonia and Scotland* Paul Anderson, 2024-05-28. *Nations in flux* explores the evolution of territorial politics in Catalonia and Scotland since 2010 offering an in depth comparative analysis of developments in both cases and drawing on interviews with political elites whilst providing a compelling snapshot of the growing relevance of nationalism in contemporary society and politics. Empirically this book analyses the experiences and effects of referendums on independence Brexit and the COVID 19 pandemic and examines some of the most pressing tensions within the existing territorial models. It highlights the need for further reform in both cases and identifies necessary changes to ensure the institutionalisation of more accommodative territorial models and thus the continuation of political partnership between Catalonia and Spain and Scotland and the UK. Overall the book raises important questions about the accommodation of diversity in plurinational states in the twenty first century. **Ireland** Joseph Coohill, 2014-03-06. From the first prehistoric inhabitants of the island to the St Andrews Agreement and decommissioning of IRA weapons this uniquely concise account of Ireland and its people reveals how differing interpretations of history ancient and modern have influenced modern Irish society. Combining factual information with a critical approach Coohill covers all the key events including the Great Famine Home Rule and the Good Friday Agreement. Updated with two new chapters expanding the discussion of pre modern Ireland as well as developments in the 21st century this highly accessible and balanced account will continue to provide a valuable resource to all those wishing to acquaint themselves further with the complex identity of the
