Nationalist China During The Sino Japanese War 1937 1945:

Nationalist China During the Sino-Japanese War, 1937-1945 Paul Kwang Tsien Sih, 1977-01-01 *China in the Anti-Japanese War, 1937-1945* David P. Barrett, Lawrence N. Shyu, 2001 This book is a collection of eleven articles written by scholars of international repute that specializes in the history of China during her long war against Japan from 1937 to 1945. The topics addressed include political, economic, social, and diplomatic issues related to wartime China based on materials newly opened for research. They give strong evidence that the Sino Japanese War was of a complexity and magnitude that must be understood in terms that go far beyond those solely of its military dimensions. *China and Japan at War, 1937-1945* Philip Jowett, 2016-03-30 This pictorial history of the Sino Japanese War offers a rare look at one of the most important yet neglected aspects of WWII. The 1937-1945 war between China and Japan was one of the most bitter conflicts of the twentieth century. It was a struggle between the two dominant peoples of Asia. Millions of soldiers fought on each side and millions of soldiers and civilians died. Philip Jowett's book is one of the first photographic histories of this devastating confrontation. Using a selection of almost 200 historic photographs, he traces the course of the entire war from the Japanese invasion and the retreat of the Chinese armies and their refusal to surrender to the involvement of the Americans and the eventual Japanese defeat in 1945. Jowett's graphic account is an absorbing introduction to this often overlooked theatre of the Second World War. The images show the armies on all sides and the weaponry and equipment they used. But they also record the experience of the troops, Chinese and Japanese, and of the Chinese civilians who suffered terribly through eight years of war. **China's Bitter Victory** James C. Hsiung, 1992-06-10 *China's Bitter Victory* is a comprehensive analysis of China's epochal war with Japan. Striving for a holistic understanding of China's wartime experience, the contributors examine developments in the Nationalist, communist, and Japanese occupied areas of the country. More than just a history of battles and conferences, the book portrays the significant impact of the war on every dimension of Chinese life, including politics, the economy, culture, legal affairs, and science. For within the overriding struggle for national survival, the competition for political goals continued. China ultimately triumphed, but at a price of between 15 and 20 million lives and vast destruction of property and resources. And China's bitter victory brought new trials for the Chinese people in the form of civil war and revolution. This book tells the story of China during a crucial period pregnant with consequences not only for China but also for Asia and the world as well. Addressed to students, scholars, and general readers, the book aims to fill a gap in the existing literature on modern Chinese history and on World War II. *The Nationalist Era in China, 1927-1949* Lloyd E. Eastman, 1991-08-30 In recent years, historians of China have focused increased attention on the critical decades of Nationalist rule on the mainland. This recent scholarship has substantially modified our understanding of the political events of this momentous period, shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949. Yet no existing textbook on modern China presents the events of the period according to these new findings. The five essays in this volume

were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of The Cambridge History of China they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949 *History of the Sino-Japanese War (1937-1945)* Long-hsuen Hsu,1972

Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this text presents a nation's story of trauma and growth during the early twentieth century It explains how China's defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China's transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades **China At The Crossroads** F. Gilbert Chan, 2019-03-08 Concentrating on a

transitional epoch 1927-1949 when China was at the crossroads of revolution this book analyzes the Kuomintang's inherent weaknesses as a revolutionary force and the Communists success in the quest for new formulas to guide the modernization movement Making China Strong R. Weatherley, 2014-02-18 Robert Weatherley argues that Chinese perceptions of democracy and human rights have been heavily influenced by the pressing issue of how to make China strong in the face of a perceived threat posed by foreign imperialism be it military imperialism during the previous two centuries and cultural

imperialism in more recent decades The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan s peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century

Nanking Masahiro Yamamoto, 2000-08-30 The December 1937 incident that has come to be known as the Rape of Nanking is without doubt a tragedy that will not soon be forgotten While acknowledging that a tremendous loss of life occurred this study challenges the current prevailing notion that the incident was a deliberate planned effort on the part of the Japanese military and analyzes events to produce an accurate estimate of the scale of the atrocities Drawing on Chinese Japanese and English sources Yamamoto determines that what happened at Nanking were unfortunate atrocities of conventional war with precedents in both Eastern and Western military history He concludes that post war events such as the war crimes trials and the impact of the Holocaust in Europe affected public opinion regarding Nanking and led to a dramatic reinterpretation of events The Rape of Nanking consisted of two distinct phases the mass execution of prisoners of war as well as conscription age men who appeared to be combatants and the delinquent acts of individual soldiers The first phase which occurred immediately after Nanking s fall and which claimed most of the atrocity victims was the result of the Japanese military s attempt to clear the city of Chinese soldiers thought to be in plain clothes The second phase which lasted approximately six weeks was horrible but resulted in a much smaller number of fatalities It was characterized by numerous criminal acts ranging from rape and murder to arson and theft committed by unrestrained Japanese soldiers The root cause for both phases was the Japanese military s bureaucratic inefficiency and command irresponsibility While both Chinese and American contemporary sources initially attributed the incident to these causes subsequent Japanese atrocities against both military and civilian Allied personnel during World War II and evidence presented at war crimes trials would come to reshape

perceptions of the Nanking events as an Asian counterpart to the Nazi Holocaust *American Goddess at the Rape of Nanking* Hualing Hu,2000-10 The Japanese army's brutal occupation of the city of Nanking during the 1937 Sino Japanese War is known for good reason as the rape of Nanking As they slaughtered an estimated 300 000 people the invading soldiers raped more than 20 000 women some estimates run as high as 80 000 Hua ling Hu presents here the amazing untold story of the American missionary Minnie Vautrin whose unswerving defiance of the Japanese protected the lives of 10 000 Chinese women and children at the eventual cost of her own and made her a legend among the Chinese people she served **The Capitalist Dilemma in China's Cultural Revolution** Sherman Cochran,2014-12-31 How can capitalists motivations during a Communist revolution be reliably documented and fully understood Up to now the answer to this question has generally eluded scholars who for lack of nonofficial sources have fallen back on Communist governments official explanations But the essays in this volume confirm that at least in the case of the Communist revolution in China it is finally possible to make new and fresh interpretations By focusing closely on individuals and probing deeply into their thinking and experience the authors of these essays have discovered a wide range of reasons for why Chinese capitalists did or did not choose to live and work under communism The contributors to this volume have all concentrated on the dilemma for capitalists in China's Communist revolution But their approach to their subject through archival research and rigorous analysis may also serve as a guide for future thinking about a variety of other historical figures This approach is well worth adopting to explain how any members of society not only capitalists have resolved comparable dilemmas in all revolutions the ones in China Russia Vietnam Cuba or anywhere else **Carbon Technocracy** Victor Seow,2023-05-10 A forceful reckoning with the relationship between energy and power through the history of what was once East Asia's largest coal mine The coal mining town of Fushun in China's Northeast is home to a monstrous open pit First excavated in the early twentieth century this pit grew like a widening maw over the ensuing decades as various Chinese and Japanese states endeavored to unearth Fushun's purportedly inexhaustible carbon resources Today the depleted mine that remains is a wondrous and terrifying monument to fantasies of a fossil fueled future and the technologies mobilized in attempts to turn those developmentalist dreams into reality In *Carbon Technocracy* Victor Seow uses the remarkable story of the Fushun colliery to chart how the fossil fuel economy emerged in tandem with the rise of the modern technocratic state Taking coal as an essential feedstock of national wealth and power Chinese and Japanese bureaucrats engineers and industrialists deployed new technologies like open pit mining and hydraulic stowage in pursuit of intensive energy extraction But as much as these mine operators idealized the might of fossil fuel driven machines their extractive efforts nevertheless relied heavily on the human labor that those devices were expected to displace Under the carbon energy regime countless workers here and elsewhere would be subjected to invasive techniques of labor control ever escalating output targets and the dangers of an increasingly exploited earth Although Fushun is no longer the coal capital it once was the pattern of aggressive fossil fueled development that led to its ascent endures As we confront

a planetary crisis precipitated by our extravagant consumption of carbon it holds urgent lessons This is a groundbreaking exploration of how the mutual production of energy and power came to define industrial modernity and the wider world that carbon made

Age of Exploration Elisabeth Kaske,Elisabeth Köll,2024-08-19 In the early twentieth century Chinese intellectuals came to realize that Westerners surpassed them not only in knowledge of the world but also in knowledge of China itself A rising generation of Chinese scientists engineers and administrators was eager to

address this state of affairs and began to retrace the footsteps of Western explorers who had crisscrossed China during the preceding century. The nine case studies assembled in this book show how a new cohort of professional Chinese explorers traveled, studied, appropriated, and reshaped national space from the 1920s to the 1950s. In some instances, the explorers drew directly from the fieldwork practices of their Western predecessors. In others, they trained compilers to collect and systematize local knowledge that could be passed up the administrative hierarchy to government and national institutions. Their projects helped to claim natural resources, prepare for infrastructural development, and create new institutionalized knowledge and public engagement with textual representations of China's geobody. This book elucidates the ways in which knowledge production in early twentieth-century China centered on space and contributed to China's transformation into a modern nation state.
