Resources in Education ,1998 **Why We Lie About Aid** Pablo Yanguas,2018-02-15 Foreign aid is about charity International development is about technical fixes At least that is what we as donor publics are constantly told The result is a highly dysfunctional aid system which mistakes short term results for long term transformation and gets attacked across the political spectrum with the right claiming we spend too much and the left that we don t spend enough The reality as Yanguas argues in this highly provocative book is that aid isn t or at least shouldn t be about levels of spending nor interventions shackled to vague notions of accountability and ownership Instead a different approach is possible one that acknowledges aid as being about struggle about taking sides about politics It is an approach that has been quietly applied by innovative development practitioners around the world providing political coverage for local reformers to open up spaces for change Drawing on a variety of convention defying stories from a variety of countries from Britain to the US Sierra Leone to Honduras Yanguas provides an eye opening account of what we really mean when we talk about aid *(Re)Constructing Memory: Textbooks, Identity, Nation, and State* James H. Williams,Wendy D. Bokhorst-Heng,2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation Authors voices come from a variety of contexts some historical some contemporary some providing analyses over time But they all consider the changing portrayal of diversity belonging and exclusion in multiethnic and diverse societies where silenced invisible marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative The authors discuss portrayals of past exclusions around religion ethnicity sexual orientation as they look at the shifting boundaries of insider and outsider This book is thus about who we are not only demographically but also in terms of the past especially how and whether we teach discredited pasts through textbooks The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive critical and positively bonding in increasingly larger and more inclusive contexts

entries an alphabetical list **International Trade and Developing Countries** Amrita Narlikar,2005 This book analyzes the much needed and vastly under studied subject of bargaining coalitions of developing countries in the GATT and WTO This is an extremely important contribution to the field **The Palgrave Handbook of History and Social Studies Education** Christopher W. Berg,Theodore M. Christou,2020-04-03 This Handbook presents an international collection of essays examining history education past and present Framing recent curriculum reforms in Canada and in the United States in light of a century long debate between the relationship between theory and practice this collection contextualizes the debate by exploring the evolution of history and social studies education within their state or national contexts With contributions ranging from Canada Finland New Zealand Sweden the Netherlands the Republic of South Africa the United Kingdom and the United States chapters illuminate the ways in which curriculum theorists and academic researchers are working with curriculum developers and educators to translate and refine notions of historical thinking or inquiry as well as pedagogical practice Industrial Structure and Policy in Less Developed Countries Colin Kirkpatrick,N. Lee,Fred Nixon,2012-08-06 First published in 1984 this textbook analyses at both aggregate and micro economic levels the contemporary industrial conditions in Third World countries and relates this to the process of economic growth and structural transformation Drawing upon both industrial and development economics the authors offer a comprehensive and integrated treatment of the different levels of industrial analysis in less developed countries alongside a wealth of comparative data on industrial structure business concentration and behaviour and industrial policies in a cross section of countries in Africa Asia the Far East and Latin America **The Language Police** Diane Ravitch,2007-12-18 If you re an actress or a coed just trying to do a man size job a yes man who turns a deaf ear to some sob sister an heiress aboard her yacht or a bookworm enjoying a boy s night out Diane Ravitch s internationally acclaimed The Language Police has bad news for you Erase those words from your vocabulary Textbook publishers and state education agencies have sought to root out racist sexist and elitist language in classroom and library materials But according to Diane Ravitch a leading historian of education what began with the best of intentions has veered toward bizarre extremes At a time when we celebrate and encourage diversity young readers are fed bowdlerized texts devoid of the references that give these works their meaning and vitality With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring The Language Police offers a powerful corrective to a cultural scandal **Educational Materials Laboratory Report** ,1961 **Beyond the Americas** Paul Robert Hanna,1964 Catalog of Copyright Entries.
