NATIVE CEMETERIES AND FORMS OF BURIAL EAST OF MISSISSIPPI DAVID I. BUSHNELL ,1920 Native Cemeteries and Forms of Burial East of the Mississippi David Ives Bushnell (Jr.),1920 Native Cemeteries and Forms of Burial East of the Mississippi (Classic Reprint) David I. Bushnell,2017-11-25 Excerpt from Native Cemeteries and Forms of Burial East of the Mississippi In the journals of many explorers and missionaries who traversed the great wilderness east of the Mississippi when it was yet the home of native tribes are references to the burial customs of the people with whom they came in contact Villages were widely dispersed throughout the land and often the places of burial were near by differing in distant parts of the country conforming with the man ners of the tribe by whom the particular region was occupied The native villages have now disappeared although many sites are indicated by bits of pottery and other objects scattered over the surface but frequently the cemeteries once belonging to the settle ments may be discovered The forms of burial varied Among some tribes a period of months or years would intervene between the death of the person and the final disposition of the remains and seldom were all the ceremonies attending death and burial recorded by a single writer therefore it is necessary when attempting to re count the entire procedure to quote from several narratives And in many instances the description of the last disposition of the dead will agree with the position of the remains now revealed in the ancient cemeteries thus tending to identify the former occupants of the sites and to verify the statements of early observers many of which are presented on the following pages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Native Cemeteries and Forms of Burial East of the Mississippi** David Ives Bushnell,Smithsonian Institution. Parno,2013-02-06 This collection of essays in Archaeologies of Mobility and Movement draws inspiration from current archaeological interest in the movement of individuals things and ideas in the recent past Movement is fundamentally concerned with the relationships among time object person and space The volume argues that understanding movement in the past requires a shift away from traditional fieldwork based archaeological ontologies towards fluid trajectory based studies Archaeology by its very nature locates objects frozen in space literally in their three dimensional matrices at sites that are often stripped of people An archaeology of movement must break away from this stasis and cut new pathways that trace the boundary crossing contextuality inherent in object person mobility Essays in this volume build on these new approaches confronting issues of movement from a variety of perspectives They are divided into four sections based on how the act of moving is framed The groups into which these

chapters are placed are not meant to be unyielding or definitive The first section Objects in Motion includes case studies that follow the paths of material culture and its interactions with groups of people The second section of this volume People in Motion features chapters that explore the shifting material traces of human mobility Chapters in the third section of this book Movement through Spaces illustrate the effects that particular spaces have on the people and objects who pass through them Finally there is an afterward that cohesively addresses the issue of studying movement in the recent past At the heart of Archaeologies of Mobility and Movement is a concern with the hybridity of people and things affordances of objects and spaces contemporary heritage issues and the effects of movement on archaeological subjects in the recent and contemporary past
