Bryan-Wilson, 2021-02 In 1974 women in a feminist consciousness raising group in Eugene Oregon formed a mock organization called the Ladies Sewing Circle and Terrorist Society Emblazoning its logo onto t shirts the group wryly envisioned female collective textile making as a practice that could upend conventions threaten state structures and wreak political havoc Elaborating on this example as a prehistory to the more recent phenomenon of craftivism the politics and social practices associated with handmaking Fray explores textiles and their role at the forefront of debates about process materiality gender and race in times of economic upheaval Closely examining how amateurs and fine artists in the United States and Chile turned to sewing braiding knotting and quilting amid the rise of global manufacturing Julia Bryan Wilson argues that textiles unravel the high low divide and urges us to think flexibly about what the politics of textiles might be Her case studies from the 1970s through the 1990s including the improvised costumes of the theater troupe the Cockettes the braided rag rugs of US artist Harmony Hammond the thread based sculptures of Chilean artist Cecilia Vicuña the small hand sewn tapestries depicting Pinochet's torture and the NAMES Project AIDS Memorial Quilt are often taken as evidence of the inherently progressive nature of handcrafted textiles Fray however shows that such methods are recruited to often ambivalent ends leaving textiles very much in the fray of debates about feminized labor protest cultures and queer identities the malleability of cloth and fiber means that textiles can be activated or stretched in many ideological directions The first contemporary art history book to discuss both fine art and amateur registers of handmaking at such an expansive scale Fray unveils crucial insights into how textiles inhabit the broad space between artistic and political poles high and low untrained and highly skilled conformist and disobedient craft and art **West of Center** Elissa Auther, Adam Lerner, 2012 Recovering the art and lifestyle of the counterculture in the American West in the 1960s and 70s *Craft* Glenn Adamson, 2021-01-19

New York Times Book Review Editors Choice A groundbreaking and endlessly surprising history of how artisans created America from the nation's origins to the present day At the center of the United States economic and social development according to conventional wisdom are industry and technology while craftspeople and handmade objects are relegated to a bygone past Renowned historian Glenn Adamson turns that narrative on its head in this innovative account revealing makers central role in shaping America's identity Examine any phase of the nation's struggle to define itself and artisans are there from the silversmith Paul Revere and the revolutionary carpenters and blacksmiths who hurled tea into Boston Harbor to today's maker movement From Mother Jones to Rosie the Riveter From Betsy Ross to Rosa Parks From suffrage banners to the AIDS Quilt Adamson shows that craft has long been implicated in debates around equality education and class Artisanhip has often been a site of resistance for oppressed people such as enslaved African Americans whose skilled labor might confer hard won agency under bondage or the Native American makers who adapted traditional arts into statements of modernity Theirs are among the array of memorable portraits of Americans both celebrated and unfamiliar in this richly peopled book As Adamson argues these artisans stories speak to our collective striving toward a more perfect union From the beginning America had to be and still remains to be crafted

The Kimono Inspiration Textile Museum (Washington, D.C.),1996 The book explores the use and meaning of the kimono in America and traces the transformation of the garment from its ethnic origins through its many appearances in fine art costume and high fashion to its role in the contemporary Art to Wear Movement It explores the American use of the kimono as a garment as a symbol and as an art form

Slant Steps Jacob Stewart-Halevy,2020-09-15 Slant Steps explores the vital role of the semi periphery artistic communities working between the provinces and the metropole Premised on the collective fascination with the found object Slant Step the book details a history of encounters among artists filmmakers critics and others operating in and out of the Bay Area during the long 1960s They revised the terms of the counterculture the appeal of consumer goods and the surfaces and materials of industrial design and contemporary sculpture Whether extending to international exchanges or shrinking to local coterie these circles helped develop process funk and conceptual art as they forged new directions for the art world and its members Yet when these groups degraded their own works alongside those of their rivals they made their political and aesthetic commitments difficult to decipher reorganizing the ties between the visual arts and the New Left Merging sociologies of art with the tradition of social art history Jacob Stewart Halevy uncovers the oblique perspectives and values of the semi periphery revealing its enduring impact upon contemporary art above all in the field of pedagogy

From Goodwill to Grunge Jennifer Le Zotte,2017-02-02 In this surprising new look at how clothing style and commerce came together to change American culture Jennifer Le Zotte examines how secondhand goods sold at thrift stores flea markets and garage sales came to be both profitable and culturally influential Initially selling used goods in the United States was seen as a questionable enterprise focused largely on the poor But as the twentieth century progressed multimillion dollar businesses like Goodwill Industries developed catering not only to the needy but increasingly to well off customers looking to make a statement Le Zotte traces the origins and meanings of secondhand style and explores how buying pre owned goods went from a signifier of poverty to a declaration of rebellion Considering buyers and sellers from across the political and economic spectrum Le Zotte shows how conservative and progressive social activists from religious and business leaders to anti Vietnam protesters and drag queens shrewdly used the exchange of secondhand goods for economic and political ends At the same time artists and performers from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain all helped make secondhand style a visual marker for youth in revolt
