[The Oxford Handbook of Victorian Medievalism](#) Joanne Parker, Corinna Wagner, 2020-09-15 In 1859 the historian Lord John Acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages The influence on Victorian culture of the Middle Ages broadly understood then as the centuries between the Roman Empire and the Renaissance was both pervasive and multi faceted This medievalism led for instance to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism It led to the Saxon Witan being celebrated as a prototypical representative parliament It resulted in Viking raiders being acclaimed as the forefathers of the British navy And it encouraged innumerable nineteenth century men to cultivate the superlative beards we now think of as typically Victorian in an attempt to emulate their Anglo Saxon forefathers Different facets of medieval life and different periods before the Renaissance were utilized in nineteenth century Britain for divergent political and cultural agendas Medievalism also became a dominant mode in Victorian art and architecture with 75 per cent of churches in England built on a Gothic rather than a classical model And it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels Medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by Morris and Co decorated many affluent drawing rooms The Oxford Handbook of Victorian Medievalism is the first work to examine in full the fascinating phenomenon of medievalism in Victorian Britain Covering art architecture religion literature

politics music and social reform the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements In addition this collection addresses the international context by mapping the spread of medievalism across Europe South America and India amongst other places

**The Transformation of the Irish Church in the Twelfth and Thirteenth Centuries** Marie Therese Flanagan, 2010 The twelfth century saw a wide ranging transformation of the Irish church a regional manifestation of a wider pan European reform movement This book the first to offer a full account of this change moves away from the previous concentration on the restructuring of Irish dioceses and episcopal authority and the introduction of Continental monastic observances to widen the discussion It charts changes in the religious culture experienced by the laity as well as the clergy and takes account of the particular Irish experience within the wider European context The universal ideals that were defined with increasing clarity by Continental advocates of reform generated a series of initiatives from Irish churchmen aimed at disseminating reform ideology within clerical circles and transmitting it also to lay society even if as elsewhere it often proved difficult to implement in practice Whatever the obstacles faced by reformist clergy their genuine concern to transform the Irish church and society cannot be doubted and is attested in a range of hitherto unexploited sources this volume draws upon Marie Therese Flanagan is Professor of Medieval History at the Queen s University of Belfast

**The Penguin History of Britain: The Struggle for Mastery** David Carpenter, 2004-08-26 The two and a half centuries after 1066 were momentous ones in the history of Britain In 1066 England was conquered for the last time The Anglo Saxon ruling class was destroyed and the English became a subject race dominated by a Norman French dynasty and aristocracy This book shows how the English domination of the kingdom was by no means a foregone conclusion The struggle for mastery in the book s title is in reality the struggle for different masteries within Great Britain The book weaves together the histories of England Scotland and Wales in a new way and argues that all three in their different fashions were competing for domination

and Warriors in Medieval Britain and Ireland David R. Wyatt, 2009 Modern sensibilities have clouded historical views of slavery perhaps more so than any other medieval social institution Anachronistic economic rationales and notions about the progression of European civilisation have immeasurably distorted our view of slavery in the medieval context As a result historians have focussed their efforts upon explaining the disappearance of this medieval institution rather than seeking to understand it This book highlights the extreme cultural social significance of slavery for the societies of medieval Britain and Ireland c 800 1200 Concentrating upon the lifestyle attitudes and motivations of the slave holders and slave raiders it explores the violent activities and behavioural codes of Britain and Ireland s warrior centred societies illustrating the extreme significance of the institution of slavery for constructions of power ethnic identity and gender **Textual Cultures, Cultural Texts** Orietta Da Rold, Elaine M. Treharne, 2010 New essays reappraising the history of the book manuscripts and texts The dynamic fields of the history of the book and the sociology of the text are the areas this volume investigates bringing together ten specially commissioned essays that between them demonstrate a range of critical and material approaches to medieval early modern and digital books and texts They scrutinize individual medieval manuscripts to illustrate how careful re reading of evidence permits a more nuanced apprehension of production and reception across time analyse metaphor for our understanding of the Byzantine book examine the materiality of textuality from Beowulf to Pepys and the digital work in the twenty first century place manuscripts back into specific historical context and re appraise scholarly interpretation of significant periods of manuscript and print production in the later medieval and early modern periods All of these essays call for a new assessment of the ways in which we read books and texts making a major contribution to book history and illustrating how detailed focus on individual cases can yield important new findings Contributors Elaine Treharne Erika Corradini Julia Crick Orietta Da Rold A S G Edwards Martin K Foys Whitney Anne Trettien David L Gants Ralph Hanna Robert Romanchuk Margaret M Smith Liberty Stanavage *Uniting the Kingdom?* Alexander Grant, Keith Stringer, 2002-11-01 In *Uniting the Kingdom* a group of the most distinguished historians from Britain and Ireland assemble to consider the question of British identity spanning the period from the Middle Ages to the present Traditional chronological and regional frontiers are broken down as medievalists early modernists and modernists debate the key issues of the British state the conflicting historiographies the nature of political tensions and the themes of expansion and contraction This outstanding collection of essays forms an illuminating introduction to the most up to date thinking about the problems of British histories and identities
