## **Native Speech:**

*Non-native Speech* Ulrike Gut, 2009 Based on an innovative corpus based approach this book offers a comprehensive survey of the phonological and phonetic properties of L2 speech in English and German The first part of the book critically examines current theoretical models and research methodologies in the field of second language acquisition of phonology and describes the advances that have been made in corpus linguistics over the past few years in particular the development of phonological learner corpora It furthermore presents the first learner corpus of L2 English and L2 German that is fully aligned and has extensive phonological annotations the LeaP corpus The second part of the book describes the results of the quantitative and qualitative corpus analyses in the following areas of non native speech fluency final consonant cluster realisation vowel reduction and speech rhythm intonation and general foreign accent In addition the influence of many non linguistic factors including instruction and a stay abroad on the phonological properties of non native speech is explored

Statistical Pronunciation Modeling for Non-Native Speech Processing Rainer E. Gruhn, Wolfgang Minker, Satoshi Nakamura, 2011-05-08 In this work the authors present a fully statistical approach to model non native speakers pronunciation Second language speakers pronounce words in multiple different ways compared to the native speakers Those deviations may it be phoneme substitutions deletions or insertions can be modelled automatically with the new method presented here The method is based on a discrete hidden Markov model as a word pronunciation model initialized on a standard pronunciation dictionary The implementation and functionality of the methodology has been proven and verified with a test set of non native English in the regarding accent The book is written for researchers with a professional interest in phonetics and automatic speech and speaker recognition

**Non-native Speech in English Literature** Maria Sutor, 2015-04-17 Foreign accents in fiction are a common stylistic instrument of marking a character as the Other and conveying national stereotypes in literature This study investigates in a qualitative analysis the linguistic characteristics of non native fictional speech with a specific focus on the English Renaissance the Victorian Age and the 20th century war decades After examining the concept of national identity and the image of the foreigner in these eras the study undertakes an in depth linguistic analysis of a literary corpus of drama and prose Recurring patterns in non native fictional speech are uncovered and set into relation with the socio cultural background of the respective work which leads to intriguing findings about the changing image of the foreigner and the phenomenon of linguistic stereotyping in English literature

**Advances in Speech Recognition** Noam Shabtai, 2010-08-16 In the last decade further applications of speech processing were developed such as speaker recognition human machine interaction non English speech recognition and non native English speech recognition This book addresses a few of these applications Furthermore major challenges that were typically ignored in previous speech recognition research such as noise and reverberation appear repeatedly in recent papers I would like to sincerely thank the contributing authors for their effort to bring their insights and perspectives on current open questions in

speech recognition research      *Robust Adaptation to Non-Native Accents in Automatic Speech Recognition* Silke Goronzy, 2003-07-01 Speech recognition technology is being increasingly employed in human machine interfaces A remaining problem however is the robustness of this technology to non native accents which still cause considerable difficulties for current systems In this book methods to overcome this problem are described A speaker adaptation algorithm that is capable of adapting to the current speaker with just a few words of speaker specific data based on the MLLR principle is developed and combined with confidence measures that focus on phone durations as well as on acoustic features Furthermore a specific pronunciation modelling technique that allows the automatic derivation of non native pronunciations without using non native data is described and combined with the previous techniques to produce a robust adaptation to non native accents in an automatic speech recognition system      **Natural Interaction with Robots, Knowbots and Smartphones** Joseph Mariani, Sophie Rosset, Martine Garnier-Rizet, Laurence Devillers, 2014-07-08 These proceedings presents the state of the art in spoken dialog systems with applications in robotics knowledge access and communication It addresses specifically 1 Dialog for interacting with smartphones 2 Dialog for Open Domain knowledge access 3 Dialog for robot interaction 4 Mediated dialog including crosslingual dialog involving Speech Translation and 5 Dialog quality evaluation These articles were presented at the IWSDS 2012 workshop      **Text, Speech and Dialogue** Petr Sojka, Aleš Horak, Ivan Kopecek, 2008-09-09 The annual Text Speech and Dialogue Conference TSD which originated in 1998 is now starting its second decade So far almost 900 authors from 45 countries have contributed to the proceedings TSD constitutes a recognized platform for the presentation and discussion of state of the art technology and recent achievements in the field of natural language processing It has become an interdisciplinary forum interweaving the themes of speech technology and language processing The conference attracts searchers not only from Central and Eastern Europe but also from other parts of the world Indeed one of its goals has always been to bring together NLP researchers with different interests from different parts of the world and to promote their mutual cooperation One of the ambitions of the conference is as its title says not only to deal with dialogue systems as such but also to contribute to improving dialogue between researchers in the two areas of NLP i e between text and speech people In our view the TSD conference was successful in this respect in 2008 as well This volume contains the proceedings of the 11th TSD conference held in Brno Czech Republic in September 2008 Following the review process 79 papers were accepted out of 173 submitted an acceptance rate of 45.7%      **Speaker Classification I** Christian Müller, 2007-08-14 This volume and its companion volume LNAI 4441 constitute a state of the art survey in the field of speaker classification Together they address such intriguing issues as how speaker characteristics are manifested in voice and speaking behavior The nineteen contributions in this volume are organized into topical sections covering fundamentals characteristics applications methods and evaluation      **Current Topics in Language**, 2018-10-19 Language Volume 68 the latest release in the Psychology of Learning and Motivation features empirical and theoretical contributions in cognitive and

The Notion of the Native Speaker Put to the Test: Recent Research Advances Pedro Guijarro-Fuentes, Cristina Suarez-Gomez, Mila Vulchanova, Antonella Sorace, Valentin Vulchanov, 2022-04-21      **Language beyond Words: The Neuroscience of Accent** Ignacio Moreno-Torres, Peter Mariën, Guadalupe Dávila, Marcelo L. Berthier, 2017-03-23 Language learning also implies the acquisition of a set of phonetic rules and prosodic contours which define the accent in that language While often considered as merely accessory accent is an essential component of psychological identity as it embodies information on origin culture and social class Speaking with a non standard foreign accent is not inconsequential because it may negatively impact communication and social adjustment Nevertheless the lack of a formal definition of accent may explain that as compared with other aspects of language it has received relatively little attention until recently During the past decade there has been increasing interest in the analysis of accent from a neuroscientific perspective This e book integrates data from different scientific frameworks The reader will find fruitful research on new models of accent processing how learning a new accent proceeds and the role of feedback on accent learning in healthy subjects In addition information on accent changes in pathological conditions including developmental and psychogenic foreign accent syndromes as well as the description of a new variant of foreign accent syndrome is also included It is anticipated that the articles in this e book will enhance the understanding of accent as a linguistic phenomenon the neural networks supporting it and potential interventions to accelerate acquisition or relearning of native accents      **Machine Learning for Multimodal Interaction** Steve Renals, Samy Bengio, 2006-02-13 This book constitutes the thoroughly refereed post proceedings of the Second International Workshop on Machine Learning for Multimodal Interaction held in July 2005 The 38 revised full papers presented together with two invited papers were carefully selected during two rounds of reviewing and revision The papers are organized in topical sections on multimodal processing HCI and applications discourse and dialogue emotion visual
