*Nato Crimes in Yugoslavia*, 1999      **NATO Crimes in Yugoslavia**, 1999      *Yugoslavia Unraveled* Raju G. C. Thomas, 2003-10-13 Unlike many of the works on the Yugoslav wars written during and just after the crisis Yugoslavia Unraveled delves beyond who did what to whom to examine underlying issues regarding the sources of religious nationalism and inter ethnic conflict the territorial integrity and sovereignty of states and the principle of self determination and the right of secession from an existing state This volume raises essential questions pertaining to the legality and morality of military intervention by external powers without U N sanction and to nation building by outside powers in war devastated territories The book also explores the nature of media propaganda in times of war Editor Raju G C Thomas and the prominent contributors provide fresh views and alternative explanations for the unraveling of a sovereign independent state following the end of the Cold War and in a world without countervailing power      **Kosovo: the Politics of Delusion** Kyril Drezov, Bulent Gokay, Michael Waller, 2014-05-22 This collection examines the escalation of the Kosovo conflict to a full scale war It looks at its origins background and the implications of the conflict the myths history and perceptions of the post 1989 crisis and the situation after the start of NATO's 1999 bombing campaign      *Misfortunes of War* Eric Victor Larson, Bogdan Savych, 2007 This monograph part of a larger study of ways to reduce collateral damage undertaken for the U S Air Force analyzes press public and leadership reactions to civilian casualty incidents and how these incidents affect media reporting or public support for military operations It analyzes U S and foreign media and public responses to the 1991 Al Firdos bunker bombing the 1999 Djakovica convoy and Chinese embassy attacks the 2002 Afghan wedding party attack and the 2003 Baghdad marketplace explosion      *The Serbs* Tim Judah, 2000-01-01 Who are the Serbs Branded by some as Europe's new Nazis they are seen by others and by themselves as the innocent victims of nationalist aggression and of an implacably hostile world media In this challenging new book Timothy Judah who covered the war years in former Yugoslavia for the London Times and the Economist argues that neither is true Exploring the Serbian nation from the great epics of its past to the battlefields of Bosnia and the backstreets of Kosovo he sets the fate of the Serbs within the story of their past This wide ranging scholarly and highly readable account opens with the windswept fortresses of medieval kings and a battle lost more than six centuries ago that still profoundly influences the Serbs Judah describes the idea of Serbdom that sustained them during centuries of Ottoman rule the days of glory during the First World War and the genocide against them during the Second He examines the tenuous ethnic balance fashioned by Tito and its unraveling after his death And he reveals how Slobodan Milosevic later to become president used a version of history to drive his people to nationalist euphoria Judah details the way Milosevic prepared for war and provides gripping eyewitness accounts of wartime horrors the burning villages and ethnic cleansing the ignominy of the siege of Sarajevo and the columns of bedraggled Serb refugees cynically manipulated and then abandoned once the dream of a Greater Serbia was lost This first in depth account of life behind

Serbian lines is not an apologia but a scrupulous explanation of how the people of a modernizing European state could become among the most reviled of the century Rejecting the stereotypical image of a bloodthirsty nation Judah makes the Serbs comprehensible by placing them within the context of their history and their hopes

**BACK COVER**

**Kosovo** Tim Judah, 2002-01-01 Om det sp ndte forhold mellem albanere og serbere i Kosovo som har eksisteret siden middelalderen og som til sidst f rte til NATOs bombardement og Kosovos forvandling fra serbisk provins til internationalt protektorat

[UNESCO, Religious Cultural Heritage and Political Contestation](#) Clizia Franceschini, 2024-12-07 This book offers an innovative study of UNESCO s religious heritage and nomination mechanisms In particular it shows how these processes can easily become instruments of power politics undermining the neutrality and impartiality of the nomination processes This is particularly true where political contestation for the exercise of sovereign authority over the site is politically contested and the competing claims are primarily based on shared cultural and religious narratives which both sides in the dispute use to assert their claims In this respect religious heritage both in its tangible and intangible dimensions is the subject of national and global decisions that have political cultural and religious implications Starting from this premise the book aims to show that the global regulatory framework and institutional decisions in the field of religious heritage are not neutral but are determined by political discourses and agendas of governments and UNESCO

**Betrayal** Sophia Z Kovachevich, 2012-02-09 This book is a political documentary of what is happening in our world today It is going to upset a lot of people because it brings out into the open a lot of controversial issues It is called BETRAYAL because it deals with how we have all been betrayed and still being betrayed by the people at the helm in one way or another chosen by us to do the right thing by us But leaders for some hidden agenda that we know nothing about end by betraying us This book will make a difference perhaps by giving a voice to the voiceless hope to the hopeless and justify those who believe

we are taking a wrong route We all have a duty towards humanity to bring peace and amity to make the world a better place if we can for those who follow after us

**Violence Taking Place** Andrew Herscher, 2010-03-25 While the construction of architecture has a place in architectural discourse its destruction generally seen as incompatible with the very idea of culture has been neglected in theoretical and historical discussion Responding to this neglect Herscher examines the case of the former Yugoslavia and in particular Kosovo where targeting architecture has been a prominent dimension of political violence Rather than interpreting violence against architecture as a mere representation of deeper social political or ideological dynamics Herscher reveals it to be a form of cultural production irreducible to its contexts and formative of the identities and agencies that seemingly bear on it as causes Focusing on the particular sites where violence is inflicted and where its subjects and objects are articulated the book traces the intersection of violence and architecture from socialist modernization through ethnic and nationalist conflict to postwar reconstruction

Under Orders Fred Abrahams, 2001 Kosovo in the 1990s *Kosovo and the Collateral Effects of Humanitarian Intervention* Jaume Castan Pinos, 2018-10-03 Humanitarian intervention is rising ever higher in international relations discourse with many publications exploring the nature legality and success of these interventions However less attention is given to what happens after an intervention This book looks in particular at the implications for territorial and border relations exploring the case of Kosovo which in many ways can be seen as a turning point in post cold war international humanitarian intervention The 1999 intervention has had significant consequences for Kosovo in terms of political transformations territorial alterations and enclavisation none of which was officially intended or foreseen when NATO intervened Two decades after NATO s intervention and a decade after unilaterally declaring independence Kosovo continues to be confronted with daunting existential challenges that inevitably affect the stability of the region border relations and the credibility of the organisations operating within Kosovo namely the UN the EU and NATO The book claims that not only is the political and territorial conflict far from being settled but that the implications have gone beyond Kosovo creating shock waves which have galvanised conflicts elsewhere In effect Kosovo has been used as a pretext as a legitimisation and as an inspiration for those who aspire to challenge the border status quo The book is primarily aimed at undergraduate and postgraduate students of International Relations and Political Science and as well as Border Studies scholars but will also appeal to researchers focusing on state building peace building humanitarian studies nationalism secessionism and Balkan studies

**Failed States** Noam Chomsky, 2024-01-09 It s hard to imagine any American reading this book and not seeing his country in a new and deeply troubling light The New York Times Book Review The United States has repeatedly asserted its right to intervene militarily against failed states around the globe In this much anticipated follow up to his international bestseller *Hegemony or Survival*

Noam Chomsky turns the tables showing how the United States itself shares features with other failed states suffering from a severe democratic deficit eschewing domestic and international law and adopting policies that increasingly endanger its own citizens and the world Exploring the latest developments in U S foreign and domestic policy Chomsky reveals Washington s plans to further militarize the planet greatly increasing the risks of nuclear war He also assesses the dangerous consequences of the occupation of Iraq documents Washington s self exemption from international norms including the Geneva conventions and the Kyoto Protocol and examines how the U S electoral system is designed to eliminate genuine political alternatives impeding any meaningful democracy Forceful lucid and meticulously documented Failed States offers a comprehensive analysis of a global superpower that has long claimed the right to reshape other nations while its own democratic institutions are in severe crisis Systematically dismantling the United States pretense of being the world s arbiter of democracy Failed States is Chomsky s most focused and urgent critique to date **Wolves in Sheep's Clothing** Stephen

Marshall, 2007-01-01 Faced with the collapse of the American dream at home and the decline of their global empire abroad American liberals have dumped the 1960s era radicalism of their youth and become complicit in a complex game of bait and switch selling the world a vision of liberal democracy that is in reality a failed system on the verge of social and economic collapse In the tradition of Tom Wolfe and Hunter S Thompson Stephen Marshall a Sundance Award winning director and co founder of Guerrilla News Network hits the road and travels from the front lines of the Iraq war through the wasteland of the former Communist Eastern bloc into a coke dusted sex party of Britain s intellectual elite and into the minds of America s most influential liberal figures Marshall finds America s most powerful liberals all part of the same baby boomer generation that has dominated US political life since their voices broke in the 1960s pushing a new form of liberal interventionism that threatens to use force to bring political freedom to oppressed people But is the democracy they are exporting to the world really what they say it is Or have liberals buckled under the pressure of America s declining fortunes and taken on the role of good cop to the conservatives bad Featuring interviews with Christopher Hitchens Gore Vidal David Horowitz Lewis Lapham John Avlon The Economist s John Micklethwait Guardian Editor in Chief Alan Rusbridger and best selling authors Thomas Friedman Paul Berman and John Perkins Writing Architectural History Aggregate Architectural History

Collaborative, 2021-12-14 Over the past two decades scholarship in architectural history has transformed moving away from design studio pedagogy and postmodern historicism to draw instead from trends in critical theory focusing on gender race the environment and more recently global history connecting to revisionist trends in other fields With examples across space and time from medieval European coin trials and eighteenth century Haitian revolutionary buildings to Weimar German construction firms and present day African refugee camps Writing Architectural History considers the impact of these shifting institutional landscapes and disciplinary positionings for architectural history Contributors reveal how new methodological approaches have developed interdisciplinary research beyond the traditional boundaries of art history
