## **Nato In The Balkans:**

NATO's Balkan Interventions Dana H. Allin, 2014-08-27 Examines NATO's Balkan interventions over the entire decade starting with the break up of Yugoslavia in 1992 Focusing on the wars in Bosnia and Kosovo it traces the record of early transatlantic failures and later successes as once bitterly divided allies were able finally to unite around some basic principles By the time of the Kosovo intervention in spring 1999 the allies agreed on the necessity of taking sides and using military force in conflicts that were complicated but far from morally opaque The book concludes with some lessons around which the transatlantic allies might reasonably hope despite other pressing concerns to stay engaged and stay united

Masters of the Universe? Tariq Ali, 2000 A number of distinguished dissidents voice their opinions on the intervention by NATO in the former Yugoslavia The collection also provides background historical information on the conflict in the Balkans

War in the Balkans Richard C. Hall, 2014-10-09 This authoritative reference follows the history of conflicts in the Balkan Peninsula from the 19th century through the present day The Balkan Peninsula which consists of Albania Bulgaria Romania Moldova and the former Yugoslavia resides in the southeastern part of the European continent Its strategic location as well as its long and bloody history of conflict have helped to define the Balkans role in global affairs This singular reference focuses on the events individuals organizations and ideas that have made this region an international player and shaped warfare there for hundreds of years Historian and author Richard C Hall traces the sociopolitical history of the area starting with the early internal conflicts as the Balkan states attempted to break away from the Ottoman Empire to the assassination of Archduke Franz Ferdinand that ignited World War I to the Yugoslav Wars that erupted in the 1990s and the subsequent war crimes still being investigated today Additional coverage focuses on how these countries continue to play an important role in global affairs and international politics

**Small-State Security in the Balkans** Aurel Braun, 1983-06-18

**International Intervention in the Balkans Since 1995** Peter Siani-Davies, 2004-03 This volume offers an analysis of the activities of the international community in the Balkans since the 1995 Dayton Agreement There has been substantial investment in the region but so far the gains have been limited and doubts remain as to the extent that sustainable security has been enhanced There is a need for serious reassessment of policies and priorities but this depends on a careful analysis of past successes and failures The contributors seek to provide this by examining intervention not just in terms of military action and the activities of major international agencies at state level but also the activities of outside NGOs within the local environment

*NATO's Democratic Retrenchment* Henrik B.L. Larsen, 2019-07-02 Exploring NATO's post Cold War determination to support democracy abroad this book addresses the alliance's adaptation to the new illiberal backlashes in Eastern Europe the Western Balkans and Afghanistan after the alleged return of history The book engages the question of what has driven NATO to pursue democratisation in face of the significant region specific challenges and what can explain policy expansion or retrenchment over time Explaining NATO's adaptation from the perspective of power dynamics that push

for international change and historical experience that informs grand strategy allows wider inferences not only about democratisation as a foreign policy strategy but also about the nature of the transatlantic alliance and its relations with a mostly illiberal environment Larsen offers a theoretical conception of NATO as a patchwork of one hegemonic and several great power interests that converge or diverge in the formulation of common policy as opposed to NATO as a community of universal values This volume will appeal to researchers of transatlantic relations NATO's functional and geographical expansion hegemony and great power politics democracy promotion lessons of the past Neoclassical Realism alliance theory and the crisis of the liberal world order      **NATO's First Enlargement** Evanthis Hatzivassiliou, Dimitrios

Triantaphyllou, 2017-10-02 This volume discusses the entry of Greece and Turkey to NATO in 1952 from the perspective of history and international relations The chapters were originally collected in 2012 to mark the occasion of the sixtieth anniversary of the accession of the two states to NATO The focus is not on the diplomatic political events that led to the accession a subject which has already been extensively discussed in the available bibliography but expands on a reassessment of this event for the two states as well as for the Balkans covering aspects of the wider post war period and providing perspectives for the policies of Turkey Greece and NATO until the present day This book was originally published as a special issue of Southeast European and Black Sea Studies      The Balkans in the New Millennium Tom

Gallagher, 2005-04-28 Can the Balkans ever become a peaceful peninsula like that of Scandinavia With enlightened backing can it ever make common cause with the rest of Europe rather than being an arena of periodic conflicts political misrule and economic misery In the last years of the twentieth century Western states watched with alarm as a wave of conflicts swept over much of the Balkans Ethno nationalist disputes often stoked by unprincipled leaders plunged Yugoslavia into bloody warfare Romania Bulgaria and Albania struggled to find stability as they reeled from the collapse of the communist social system and even Greece became embroiled in the Yugoslav tragedy This new book examines the politics and international relations of the Balkans during a decade of mounting external involvement in its affairs Tom Gallagher asks what evidence there is that key lessons have been learned and applied as trans Atlantic engagement with Balkan problems enters its second decade This book identifies new problems organized crime demographic crises of different kinds and the collapse of a strong employment base This is an excellent contribution to our understanding of the area      **NATO's Empty Victory** Ted Galen

Carpenter, 2000 The Clinton administration and the other NATO governments boast that the alliance won a great victory in its war against Yugoslavia      NATO's New Mission Rebecca R. Moore, 2007-02-28 Reports of NATO's death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford Decisions made at the 2004 Istanbul summit aimed

at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment ensures that NATO's survival depends upon its willingness to project security beyond Europe That mission will be as much political as it is military

**NATO and the Western Balkans**  
Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO's evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991 with a particular focus on Bosnia Kosovo and the former Yugoslav Republic of Macedonia in both the conflict and post conflict phases While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism less has been written on NATO's overall role in these conflicts This text therefore fills the gap offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day The levels of analysis introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession focusing on the role of key NATO member states and the role of different NATO Secretaries General along with the impact of inter institutional cooperation and conflict with other international organisations

*Exiting the Balkan Thicket* Gary Dempsey, 2002 Goklany argues that selective application of this principle distorts the policy debate

NATO in the Post-Cold War Era Massimo de Leonardis, 2022-11-29 This book analyses the evolution of the North Atlantic Treaty Organization NATO and its policies from the Cold War until today NATO's future cannot be fully understood without analysing its past the origins of its structure and goals and their transformation over time By exploring NATO's geopolitical and military role at crucial points throughout history this edited volume considers the challenges and threats which have faced the alliance as well as its strengths and weaknesses It covers highly debated and unresolved issues such as budgetary burden sharing and the military transatlantic gap the enlargement process and the role of Asia in influencing NATO's policies Combining a historical approach with international perspectives this book is an interdisciplinary read that will appeal to scholars of diplomatic history and international relations Chapters 1 and 2 are

available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com) *Iraq: Silent Death (Penerbit USM)* Christian P Scherrer, Silent Death documents mass murder by the use of banned Uranium weapons The spread of genetic disorders is among the most heinous and criminal forms of modern warfare Its ever lasting impact on humans is inherently genocidal Such weapons have since 1991 been used in Iraq Afghanistan the Balkans and Lebanon Universiti Sains Malaysia Penerbit Universiti Sains Malaysia *Going Global Or Going Nowhere?* Jennifer Medcalf, 2008 This book examines the changing nature and location of NATO's operations concentrating on the development of its extra European interventions The objectives of the book are twofold The first is to provide a historical overview of the importance of the out of area issue to NATO The book takes a chronological approach to this and maps the evolution of the debates that took place about NATO's appropriate response to threats beyond the North Atlantic area from NATO's founding in 1949 until the present day The second objective is to assess how successfully NATO has made the transition from being a security actor with regional responsibilities to one that responds to global security threats The author considers the argument that emerged post 9/11 that the key to ensuring NATO's future vitality was to expand its geographic area of responsibility to encompass threats occurring both within and beyond the Euro Atlantic area This book therefore provides the first detailed examination of the evolution of NATO's global role and the success with which NATO has adapted to its new responsibilities **Airman**, 2001-04 *Strategic Forum*, 1994 **British Foreign Policy Under New Labour, 1997-2005** P. Williams, 2005-11-22 This important new study provides a critical analysis of the foreign policies conducted during the first two terms of Tony Blair's government It focuses upon the government's key foreign policy commitments three of its most important international relationships with the US the European Union and Africa and how Blair's government dealt with five fundamental policy issues political economy defence international development intervention and Iraq It argues that throughout this period Labour's foreign policies attempted to paper over some important contradictions **The security dimensions of EU enlargement** David Brown, Alistair Shepherd, 2021-06-15 The changing nature of security the enlargement of European institutions and the evolving functions of the EU have been key developments in post Cold War Europe This book blends these three crucial developments in a sophisticated and illuminating manner It assesses the impact of EU enlargement on both pre-existing security arrangements and key relationships with the EU's new partners and neighbours It also investigates both hard and soft and internal and external security issues ranging from military intervention to terrorism and from organised crime to human rights From this it concludes that enlargement has both positive and negative implications for European security Completing the analysis this study examines the evolving security relationships with key states regions and international organisations in the EU's neighbourhood The examination of relations with Turkey Russia Ukraine the Greater Middle East and the Balkans provides a sense of the direction in which European security politics is moving *The Balkans and the West* Andrew Hammond, 2017-03-02 This collection of essays locates investigates and challenges the manner

in which the Balkans and the West have constructed each other since 1945 Scholars from the two sections of the continent explore a wide range of fiction film journalism travel writing and diplomatic records both to analyse Western European balkanism and to study Balkan representations of the West over the last fifty years The first section looks back to the Cold War examining the divergent often favourable images of the Balkans that existed in Western culture as well as the variety of responses that appeared in South East European writings on the West The second section analyses the transitions that took place in representation during the 1990s Here contributors explore both the harsh denigration of the Balkans which came to dominate western discourse after the initial euphoria of 1989 and the emerging tradition of contesting Western balkanism in South East European cultural production Through this dual emphasis the volume exposes the representational practices that help to maintain a deeply divided Europe and challenges the economic and political injustices that result Despite the rise to prominence of postcolonial theory with its awareness of global inequality the current crises in many parts of South East Europe have received scant attention in literary and cultural studies The Balkans and the West addresses this deficiency Ranging in focus from Serbian cinema to Romanian travel literature from Western economic writings to Yugoslav fiction and from public discourse in Albania to NATO's vast propaganda machine the essays offer wide insight into representation and power in the contemporary European context
