Translating Religion Michael DeJonge, Christiane Tietz, 2015-06-26 Translating Religion advances thinking about translation as a critical category in religious studies combining theoretical reflection about processes of translation in religion with focused case studies that are international interdisciplinary and interreligious By operating with broad conceptions of both religion and translation this volume makes clear that processes of translation broadly construed are everywhere in both religious life and the study of religion at the same time the theory and practice of translation and the advancement of translation studies as a field has developed in the context of concerns about the possibility and propriety of translating religious texts The nature of religions as living historical traditions depends on the translation of religion from the past into the present Interreligious dialogue and the comparative study of religion require the translation of religion from one tradition to another Understanding the historical diffusion of the world's religions requires coming to terms with the success and failure of translating a religion from one cultural context into another Contributors ask what it means to translate religion both textually and conceptually and how the translation of religious content might differ from the translation of other aspects of human culture This volume proposes that questions on the nature of translation find particularly acute expression in the domains of religion and argues that theoretical approaches from translation studies can be fruitfully brought to bear on contemporary religious studies

The Chinese Gazette in European Sources Nicolas Standaert, 2022-01-31 The Chinese gazette as a publicly available government publication was distributed in a variety of formats since the twelfth century Little is known however about its form and content before 1800 By looking at China from the periphery this study shows how European sources offer a unique way of expanding the knowledge about the gazette of the seventeenth and eighteenth centuries Its interconnected history illustrates how the Chinese gazette as translated by European missionaries became a major source for reflections on state and society by Enlightenment thinkers It thus joined a global public much earlier than so far assumed

The Jesuits John W. O'Malley, Gavin Alexander Bailey, Steven J. Harris, T. Frank Kennedy, 2016-01-28 In recent years scholars in a range of disciplines have begun to re-evaluate the history of the Society of Jesus Approaching the subject with new questions and methods they have reconsidered the importance of the Society in many sectors including those related to the sciences and the arts They have also looked at the Jesuits as emblematic of certain traits of early modern Europeans especially as those Europeans interacted with the Other in Asia and the Americas Originating in an international conference held at Boston College in 1997 the thirty-five essays here reflect this new historiographical trend Focusing on the Old Society the Society before its suppression in 1773 by papal edict they examine the worldwide Jesuit undertaking in such fields as music art architecture devotional writing mathematics physics

astronomy natural history public performance and education and they give special attention to the Jesuits interaction with non European cultures in North and South America China India and the Philippines A picture emerges not only of the individual Jesuit who might be missionary diplomat architect and playwright over the course of his life in the Society but also of the immense and many faceted Jesuit enterprise as forming a kind of cultural ecosystem The Jesuits of the Old Society liked to think they had a way of proceeding special to themselves The question Was there a Jesuit style a Jesuit corporate culture is the thread that runs through this interdisciplinary collection of studies

The Mandate of Heaven Adam Parr,2019-10-07 The Mandate of Heaven examines the first European version of Sunzi s Art of War which was translated from Chinese by Joseph Amiot a French missionary in Beijing and published in Paris in 1772 His work is presented in English for the first time Amiot undertook this project following the suppression of the Society of Jesus in France with the aim of demonstrating the value of the China mission to the French government He addressed his work to Henri Bertin minister of state beginning a thirty year correspondence between the two men Amiot framed his translation in order to promote a radical agenda using the Chinese doctrine of the mandate of heaven This was picked up within the sinophile and radical circle of the physiocrats who promoted China as a model for revolution in Europe The work also arrived just as the concept of strategy was emerging in France Thus Amiot s Sunzi can be placed among seminal developments in European political and strategic thought on the eve of the revolutionary era

Henri Bertin and the Representation of China in Eighteenth-Century France John Finlay,2020-07-09 This is an in depth study of the intellectual technical and artistic encounters between Europe and China in the late eighteenth century focusing on the purposeful acquisition of information and images that characterized a direct engagement with the idea of China The central figure in this story is Henri L onard Bertin 1720 1792 who served as a minister of state under Louis XV and briefly Louis XVI Both his official position and personal passion for all things Chinese placed him at the center of intersecting networks of like minded individuals who shared his ideal vision of China as a nation from which France had much to learn John Finlay examines a fascinating episode in the rich history of cross cultural exchange between China and Europe in the early modern period and this book will be an important and timely contribution to a very current discussion about Sino French cultural relations This book will be of interest to scholars in art history visual culture European and Chinese history

Lightning from the East Emily Dunn,2015-09-01 The Church of Almighty God also known as Eastern Lightning teaches that Jesus Christ has returned to earth as a Chinese woman to judge humankind The Chinese government has banned it and similar groups and targeted them in its campaign against cults such as Falun Gong Based on the Church s own texts and exogenous reports Emily Dunn offers the first comprehensive account of what the Church of Almighty God teaches how Chinese Christians and the government have responded to new religious movements related to Protestantism and how it all fits with global Christianity and the history of Chinese religion

The Afterlife of Images Ari Larissa Heinrich, 2008-02-20 An investigation of the creation and circulation of Western medical discourses linking ideas about disease to Chinese identity beginning in the eighteenth century

La chair et le verbe Edith Flamarion, 2008 Contributions interdisciplinaires sur la question de l image chez les j suites dans la France du XVIIIe si cle Elles tudient aussi bien les images muettes que les relations entre les images et les mots ou les images ph m res travers l tude des spectacles Les auteurs analysent ainsi le th tre de C Por e les fables latines du P re Desbillons ou encore la peinture de Wang Zhicheng

Empire of Emptiness Patricia Ann Berger, 2003-01-01 It examines some of the Buddhist underpinning of the Qing view of rulership and shows just how central images were in the carefully reasoned rhetoric the court directed toward its Buddhist allies in inner Asia The multi lingual culturally fluid Qing emperors put an extraordinary range of visual styles into practice Chinese Tibetan Nepalese and even the European Baroque brought to the court by Jesuit artists

Qing Encounters Petra ten-Doesschate Chu, Ning Ding, 2015-10-01 Qing Encounters Artistic Exchanges between China and the West examines how the contact between China and Europe in the eighteenth and early nineteenth centuries transformed the arts on both sides of the East West divide The essays in the volume reveal the extent to which images artifacts and natural specimens were traded and copied and how these materials inflected both cultures visions of novelty and pleasure battle and power and ways of seeing and representing Artists and craftspeople on both continents borrowed and adapted forms techniques and modes of representation producing deliberate meaningful and complex new creations By considering this reciprocity from both Eastern and Western perspectives Qing Encounters offers a new and nuanced understanding of this critical period

Portuguese Oceanic Expansion, 1400-1800 Francisco Bethencourt, Diogo Ramada Curto, 2007-04-30 A unique overview of Portuguese oceanic expansion between 1400 and 1800 the essays in this volume treat a wide range of subjects economy and society politics and institutions cultural configurations and comparative dimensions and radically update data and interpretations on the economic and financial trends of the Portuguese Empire

Interregional networks are analysed in a substantial way Patterns of settlement political configurations ecclesiastical structures and local powers are put in global context Language and literature the arts and science and technology are revisited with refreshing and innovative approaches The interaction between Portuguese and local people is studied in different contexts while the entire imperial and colonial culture of the Portuguese world is looked at synthetically for the first time In short this book provides a broad understanding of the Portuguese Empire in its first four centuries as a factor in world history and as a major component of European expansion *From White to Yellow* Rotem Kowner,2014-12-01 When Europeans first landed in Japan they encountered people they perceived as white skinned and highly civilized but these impressions did not endure Gradually the Europeans positive impressions faded away and Japanese were seen as yellow skinned and relatively inferior Accounting for this dramatic transformation *From White to Yellow* is a groundbreaking study of the evolution of European interpretations of the Japanese and the emergence of discourses about race in early modern Europe Transcending the conventional focus on Africans and Jews within the rise of modern racism Rotem Kowner demonstrates that the invention of race did not emerge in a vacuum in eighteenth century Europe but rather was a direct product of earlier discourses of the Other This compelling study indicates that the racial discourse on the Japanese alongside the Chinese played a major role in the rise of the modern concept of race While challenging Europe s self possession and sense of centrality the discourse delayed the eventual consolidation of a hierarchical worldview in which Europeans stood immutably at the apex Drawing from a vast array of primary sources *From White to Yellow* traces the racial roots of the modern clash between Japan and the West *The Routledge Handbook on the Reception of Classical Architecture* Nicholas Temple,Andrzej Piotrowski,Juan Manuel Heredia,2019-11-01 This is the first comprehensive study of the reception of classical architecture in different regions of the world Exploring the impact of colonialism trade slavery religious missions political ideology and intellectual artistic exchange the authors demonstrate how classical principles and ideas were disseminated and received across the globe By addressing a number of contentious or unresolved issues highlighted in some historical surveys of architecture the chapters presented in this volume question long held assumptions about the notion of a universally accepted classical tradition and its broadly Euro centric perspective Featuring thirty two chapters written by international scholars from China Europe Turkey North America Mexico Australia and New Zealand the book is divided into four sections 1 Transmission and re conceptualisation of classical architecture 2 Classical influence through colonialism political ideology and religious conversion 3 Historiographical surveys of geographical regions and 4 Visual and textual discourses This fourfold arrangement of chapters provides a coherent structure to accommodate different perspectives of classical reception across the world and their geographical ethnographic ideological symbolic social and cultural contexts Essays cover a wide geography and include studies in Italy France England Scotland the Nordic countries Greece Austria Portugal Romania Germany Poland India Singapore China the USA Mexico Brazil New Zealand and Australia Other essays in

the volume focus on thematic issues or topics pertaining to classical architecture such as ornament spolia humanism nature moderation decorum heresy and taste An essential reference guide The Routledge Handbook on the Reception of Classical Architecture makes a major contribution to the study of architectural history in a new global context I Like Hong Kong Frank Vigneron, 2010-06-15 Contemporary Chinese art is nowadays a subject area widely taught and researched in academic and nonacademic publications but it has not yet been studied by localizing the research in specific cultural areas within the Chinese world Selecting Hong Kong for a first such study was an obvious choice since Hong Kong culture has had for already quite a long time very specific features which have put it apart from the generally accepted definition of Chinese national culture Although it is not a survey of Hong Kong art as such a study would demand many more books the works of about eighty artists working in Hong Kong and sometimes outside have been analyzed and contextualized in these pages *From Rome to Beijing*, 2024-08-05 From Rome to Beijing Sacred Spaces in Dialogue edited by Daniel M Greenberg and Mari Yoko Hara explores the relationship between Jesuit enterprise and Ming Qing China in the seventeenth and eighteenth centuries The Jesuit order's global corporation grew increasingly influential within the Chinese court after 1582 in no small part due to the two institutions shared interests in artistic and scientific matters The paintings astronomical instruments spiritual texts and sacred buildings engendered through this encounter tell fascinating stories of cross cultural communication and miscommunication This volume approaches early modern East West exchange as a site of cultural rather than commercial negotiations where two sets of traditions and values intersected and diverged *Transferts artistiques* Paul Servais, Françoise Mirguet, 2015-01-08 Les différentes contributions ce volume visent dans leurs domaines spécifiques permettre de mieux cerner les mécanismes sous jacents par lesquels les différentes cultures impliquées digèrent les influences artistiques et mieux comprendre le fonctionnement des cultures elles-mêmes *The Oxford Handbook of the Jesuits* Ines G. Zupanov, 2019-05-15 Through its missionary pedagogical and scientific accomplishments the Society of Jesus known as the Jesuits became one of the first institutions with a truly global reach in practice and intention The Oxford Handbook of the Jesuits offers a critical assessment of the Order helping to chart new directions for research at a time when there is renewed interest in Jesuit studies In particular the Handbook examines their resilient dynamism and innovative spirit grounded in Catholic theology and Christian spirituality but also profoundly rooted in society and cultural institutions It also explores Jesuit contributions to education the arts politics and theology among others The volume is organized in seven major sections totaling forty articles on the Order's foundation and administration the theological underpinnings of its activities the Jesuit involvement with secular culture missiology the Order's contributions to the arts and sciences the suppression the Order endured in the 18th century and finally the restoration The volume also looks at the way the Jesuit Order is changing including becoming more non European and ethnically diverse with its members increasingly interested in engaging society in addition to traditional pastoral duties
