Progress And Poetry Of The Movies A Second Of Film Criticism:

The Complete History of American Film Criticism Jerry Roberts, 2010-02-01 The Complete History of American Film Criticism is a chronicle of the lives and work of the most influential film critics of the past 100 years From the first movie review in the New York Times in 1896 through the Silent Era the pre and postwar years the Film Generation of the 1960s the Golden Age of the 1970s and into the 21st century critics have educated generations of discriminating moviegoers on the differences between good films and bad They call attention to great directors cinematographers production designers screenwriters and actors and shed light on their artistic visions and storytelling sensibilities People interested in what the great film critics had to say have usually been shortchanged as to their backgrounds and just why they are qualified to sit in judgment Using mini biographies placed within a chronological framework The Complete History of American Film Criticism is the biography of a profession whose cultural impact has left an indelible mark on the 20th century's most significant art form

Cinematic Fictions David Seed, 2012-01-01 The phrase cinematic fiction has now been generally accepted into critical discourse but is usually applied to post war novels This book asks a simple question given their fascination with the new medium of film did American novelists attempt to apply cinematic methods in their own writings From its very beginnings the cinema has played a special role in defining American culture Covering the period from the 1910s up to the Second World War Cinematic Fictions offers new insights into classics like The Great Gatsby and The Grapes of Wrath discussing major writers critical writings on film and active participation in film making Cinematic Fictions is also careful not to portray cinema as a single or stable entity Some novelists drew on silent film others looked to the Russian theorists for inspiration and yet others turned to continental film makers rather than to Hollywood Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium selectively pursuing strategies of montage limited point of view and scenic composition towards their different ends Contrasting a diverse range of cinematic and literary movements this will be compulsory reading for scholars of American literature and film

Poetry Unbound Mike Chasar, 2020-04-28 It's become commonplace in contemporary culture for critics to proclaim the death of poetry Poetry they say is no longer relevant to the modern world mortally wounded by the emergence of new media technologies In Poetry Unbound Mike Chasar rebuts claims that poetry has become a marginal art form exploring how it has played a vibrant and culturally significant role by adapting to and shaping new media technologies in complex unexpected and powerful ways Beginning with the magic lantern and continuing through the dominance of the internet Chasar follows poetry's travels off the page into new media formats including silent film sound film and television Mass and nonprint media have not stolen poetry's audience he contends but have instead given people even more ways to experience poetry Examining the use of canonical as well as religious and popular verse forms in a variety of genres Chasar also traces how poetry has helped negotiate and legitimize the cultural status of emergent media Ranging from Citizen Kane

to Leave It to Beaver to best selling Instapoet Rupi Kaur this book reveals poetry's ability to find new audiences and meanings in media forms with which it has often been thought to be incompatible Illuminating poetry's surprising multimedia history Poetry Unbound offers a new paradigm for understanding poetry's still evolving place in American culture It's Only a Movie! Raymond J. Haberski, Once derided as senseless entertainment movies have gradually assumed a place among the arts Raymond Haberski's provocative and insightful book traces the trajectory of this evolution throughout the twentieth century from nickelodeon amusements to the age of the financial blockbuster Haberski begins by looking at the barriers to film's acceptance as an art form including the Chicago Motion Picture Commission hearings of 1918 1920 one of the most revealing confrontations over the use of censorship in the motion picture industry He then examines how movies overcame the stigma attached to popular entertainment through such watershed events as the creation of the Museum of Modern Art's Film Library in the 1920s The arguments between Pauline Kael and Andrew Sarris's heralded a golden age of criticism and Haberski focuses on the roles of Kael Sarris James Agee Roger Ebert and others in the creation of cinephilia Described by Susan Sontag as born of the conviction that cinema was an art unlike any other this love of cinema centered on coffee houses universities art theaters film festivals and of course foreign films The lively debates over the place of movies in American culture began to wane in the 1970s Haberski places the blame on the loss of cultural authority and on the increasing irrelevance of the meaning of art He concludes with a persuasive call for the re emergence of a middle ground between art and entertainment something more complex ambiguous and vexing something worth thought Dreams of Modernity Laura Marcus, 2014-11-17 Laura Marcus is one of the leading literary critics of modernist literature and culture Dreams of Modernity Psychoanalysis Literature Cinema covers the period from around 1880 to 1930 when modernity as a form of social and cultural life fed into the beginnings of modernism as a cultural form Railways cinema psychoanalysis and the literature of detection and their impact on modern sensibility are four of the chief subjects explored Marcus also stresses the creativity of modernist women writers including H D Dorothy Richardson and Virginia Woolf The overriding themes of this work bear on the understanding of the early twentieth century as a transitional age thus raising the question of how the moderns understood the conditions of their own modernity It's Only a Movie! Raymond J. Haberski Jr., 2021-10-21 Once derided as senseless entertainment movies have gradually assumed a place among the arts Raymond Haberski's provocative and insightful book traces the trajectory of this evolution throughout the twentieth century from nickelodeon amusements to the age of the financial blockbuster Haberski begins by looking at the barriers to film's acceptance as an art form including the Chicago Motion Picture Commission hearings of 1918 1920 one of the most revealing confrontations over the use of censorship in the motion picture industry He then examines how movies overcame the stigma attached to popular entertainment through such watershed events as the creation of the Museum of Modern Art's Film Library in the 1920s The arguments between Pauline Kael and Andrew Sarris's heralded a golden age of criticism and Haberski focuses on the roles of

Kael Sarris James Agee Roger Ebert and others in the creation of cinephilia Described by Susan Sontag as born of the conviction that cinema was an art unlike any other this love of cinema centered on coffee houses universities art theaters film festivals and of course foreign films The lively debates over the place of movies in American culture began to wane in the 1970s Haberski places the blame on the loss of cultural authority and on the increasing irrelevance of the meaning of art He concludes with a persuasive call for the re emergence of a middle ground between art and entertainment something more complex ambiguous and vexing something worth thought

The Tenth Muse Laura Marcus, 2010-08-12 The Tenth Muse explores writings on the cinema in the first decades of the twentieth century Laura Marcus examines the impact of cinema on early twentieth century literary and more broadly aesthetic and cultural consciousness by bringing together the study of the terms and strategies of early writings about film with literary engagement with cinema in the same period She gives a new understanding of the ways in which early writers about film reviewers critics theorists developed aesthetic categories to define and accommodate what was called the seventh art or the tenth muse and found discursive strategies adequate to the representation of the new art and technology of cinema with its unprecedented powers of movement In examining the writings of early film critics and commentators in tandem with those of more specifically literary figures including H G Wells and Virginia Woolf and in bringing literary texts into this field Laura Marcus provides a new account of relationships between cinema and literature Intertwining two major strands of research the exploration of early film criticism and theory and cinema's presence in literary texts The Tenth Muse shows how issues central to an understanding of cinema including questions of time repetition movement vision sound and silence are threaded through both kinds of writing and the ways in which discursive and fictional writings overlapped The movement that defined cinema was also perceived as a more fragile and unstable ephemerality that inhered at every level from the fleeting nature of the projected images to the vagaries of cinematic exhibition It was the anxiety over the mutability of the medium and its exhibition which from the 1920s onwards led to the establishment of such institutional spaces for cinema as the London based Film Society the new film journals and in the 1930s the first film archives The Tenth Muse explores the continuities

between these sites of cinematic culture and the conceptual literary and philosophical understandings of the filmic medium

The Ancient World in Silent Cinema Pantelis Michelakis, Maria Wyke, 2013-08-15 In the first four decades of cinema hundreds of films were made that drew their inspiration from ancient Greece Rome Egypt and the Bible Few of these films have been studied and even fewer have

received the critical attention they deserve The films in question ranging from historical and mythological epics to adaptations of ancient drama burlesques cartoons and documentaries suggest a fascination with the ancient world that competes in intensity and breadth with that of Hollywood's classical era What contribution did antiquity make to the development of early cinema How did early cinema's representations affect modern understanding of antiquity Existing prints as well as ephemera scattered in film archives and libraries around the world constitute an enormous field of research This extensively illustrated edited collection is a first systematic attempt to focus on the instrumental role of silent cinema in twentieth century conceptions of the ancient Mediterranean and Middle East **American Racist** Anthony

Slide,2004-09-10 Thomas Dixon has a notorious reputation as the writer of the source material for D W Griffith's groundbreaking and controversial 1915 feature film The Birth of a Nation Perhaps unfairly Dixon has been branded an arch conservative and a racist obsessed with what he viewed as the Negro problem As American Racist makes clear however Dixon was a complex multitalented individual who as well as writing some of the most popular novels of the early twentieth century was involved in the production of some eighteen films Dixon used the motion picture as a propaganda tool for his often outrageous opinions on race communism socialism and feminism His most spectacular production The Fall of a Nation 1916 argues for American preparedness in the face of war and boasts a musical score by Victor Herbert making it the first American feature film to have an original score by a major composer Like the majority of Dixon's films The Fall of a Nation has been lost but had it survived it might well have taken its place alongside The Birth of a Nation as a masterwork of silent film Anthony Slide examines each of Dixon's films and discusses the novels from which they were adapted Slide chronicles Dixon's transformation from a major supporter of the original Ku Klux Klan in his early novels to an ardent critic of the modern Klan in his last film Nation Aflame American Racist is the first book to discuss Dixon's work outside of literature and provide a wide overview of the life and career of this highly controversial twentieth century southern populist Anthony Slide is the author of numerous books including Silent Players A Biographical and Autobiographical Study of 100 Silent Film Actors and Actresses **The Progress and Poetry of the Movies** Vachel Lindsay,1995-08-22 In 1925 Vachel Lindsay wrote The Progress and Poetry of the Movies as a sequel to his pioneering Art of the Moving Picture 1915 The present edition of The Progress and Poetry of the Movies never published in Lindsay's lifetime contributes to our understanding of the genealogy of contemporary film studies **Creative Composites** Lauren Kroiz,2012-09-06 Creative Composites provides an intelligent rigorous account of several under examined figures who gathered around the photographer Alfred Stieglitz and played important roles in the first American avant garde Drawing on rich archival sources Lauren Kroiz revisits the cultural debates of the period and constructs an intricate and convincing comparative analysis of the role that gender race and ethnicity and cultural nationalism played in the construction of American modernism This important historical and interpretive text represents a much needed contribution not only to the history of American art but also to American social and cultural

[Allan Dwan and the Rise and Decline of the Hollywood Studios](#) Frederic Lombardi, 2013-03-05 It could be said that the career of Canadian born film director Allan Dwan 1885 1981 began at the dawn of the American motion picture industry Originally a scriptwriter Dwan became a director purely by accident Even so his creativity and problem solving skills propelled him to the top of his profession He achieved success with numerous silent film performers most spectacularly with Douglas Fairbanks Sr and Gloria Swanson and later with such legendary stars as Shirley Temple and John Wayne Though his star waned in the sound era Dwan managed to survive through pluck and ingenuity Considering himself better off without the fame he enjoyed during the silent era he went on to do some of his best work for second echelon studios notably Republic

Pictures Sands of Iwo Jima and such independent producers as Edward Small Along the way Dwan also found personal happiness in an unconventional manner Rich in detail with two columns of text in each of its nearly 400 pages and with more than 150 photographs this book presents a thorough examination of Allan Dwan and separates myth from truth in his life and films
