Southern Religion, Southern Culture Darren E. Grem, Ted Ownby, James G. Thomas Jr., 2018-12-18 Contributions by Ryan L. Fletcher, Darren E. Grem, Paul Harvey, Alicia Jackson, Ted Ownby, Otis W. Pickett, Arthur Remillard, Chad Seales and Randall J. Stephens Over more than three decades of teaching at the University of Mississippi, Charles Reagan Wilson's research and writing transformed southern studies in key ways This volume pays tribute to and extends Wilson's seminal work on southern religion and culture Using certain episodes and moments in southern religious history the essays examine the place and power of religion in southern communities and society It emulates Wilson's model featuring both majority and minority voices from archives and applying a variety of methods to explain the South's religious diversity and how religion mattered in many arenas of private and public life often with life or death stakes The volume first concentrates on churches and ministers and then considers religious and cultural constructions outside formal religious bodies and institutions It examines the faiths expressed via the region's fields, streets, homes, public squares, recreational venues, roadsides and stages In doing so this book shows that Wilson's groundbreaking work on religion is an essential part of southern studies and crucial for fostering deeper understanding of the South's complicated history and culture American Mobbing, 1828-1861 David

Grimsted, 1998 *American Mobbing 1828-1861: Toward Civil War* is a comprehensive history of mob violence related to sectional issues in antebellum America. David Grimsted argues that though the issue of slavery provoked riots in both the North and the South, the riots produced two different reactions from authorities. In the South, riots against suspected abolitionists and slave insurrectionists were widely tolerated as a means of quelling anti-slavery sentiment. In the North, both pro-slavery riots attacking abolitionists and anti-slavery riots in support of fugitive slaves provoked reluctant but often effective riot suppression. Hundreds died in riots in both regions, but in the North most deaths were caused by authorities, while in the South more than 90 percent of deaths were caused by the mobs themselves. These two divergent systems of violence led to two distinct public responses. In the South, widespread rioting quelled public and private questioning of slavery. In the North, the milder, more controlled riots generally encouraged sympathy for the anti-slavery movement. Grimsted demonstrates that in these two distinct reactions to mob violence, we can see major origins of the social split that infiltrated politics and political rioting and that ultimately led to the Civil War.

Essays on the Real Church Dirk J. Smit, 2024-08-15 The spirit of the Reformation is often expressed in the well-known slogan that Reformed churches are always being reformed according to God's Word: *ecclesia reformata semper reformanda secundum verbum Dei*. Over the last century, the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church. Already in his doctoral dissertation called *Sanctorum Communio*, the communion of the saints, the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of

the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways

Critical Moments in Religious History Kenneth Keulman, 1993 These critical essays examine ways in which political culture interacts with the world's religions and within the context of religious pluralism The authors raise the issue regarding the way religion affects political modernization and conversely how social and political realities may define and determine the boundaries of religion's *Critical Moments in Religious History* addresses issues of vital concern religious and political theological and social issues that indeed remain critical
