River Nile In The Age Of The British:

The River Nile in the Age of the British Terje Tvedt, 2004 Introduction The River Nile and the Politics of Water Part I A River Conquered Chapter 1 River Imperialism Chapter 2 A British Nile Part II A River Empire Chapter 3 The Nile as Stick and Carrot Chapter 4 Nile Diplomacy Bog Barons and War Part III Collapse of a River Empire Chapter 5 The Nile and Imperial Collapse Chapter 6 Nasser's Aswan High Dam Hydropolitics as World History Chapter 7 A Last Roar Turning the Nile Against Nasser Part IV The Legacy Epilogue The British Nile Legacy and the Pedagogy of the Atlas Notes on the Text Bibliography Index River Nile in the Age of the British Terje Tvedt, 2004 **The Nile River Basin** Seleshi Bekele Awulachew, Vladimir Smahktin, David Molden, Don Peden, 2013-03-05 The Nile provides freshwater not only for domestic and industrial use but also for irrigated agriculture hydropower dams and the vast fisheries resource of the lakes of Central Africa The Nile River Basin covers the whole Nile Basin and is based on the results of three major research projects supported by the Challenge Program on Water and Food CPWF It provides unique and up to date insights on agriculture water resources governance poverty productivity upstream downstream linkages innovations future plans and their implications Specifically the book elaborates the history and the major current and future challenges and opportunities of the Nile river basin It analyzes the basin characteristics using statistical data and modern tools such as remote sensing and geographic information systems Population distribution poverty and vulnerability linked to production system and water access are assessed at the international basin scale and the hydrology of the region is also analysed This text provides in depth scientific model adaptation results for hydrology sediments benefit sharing and payment for environmental services based on detailed scientific and experimental work of the Blue Nile Basin Production systems as they relate to crops livestock fisheries and wetlands are analyzed for the whole Blue and White Nile basin including their constraints Policy institutional and technological interventions that increase productivity of agriculture and use of water are also assessed Water demand modeling scenario analysis and tradeoffs that inform future plans and opportunities are included to provide a unique comprehensive coverage of the subject *Historical Dictionary of the British Empire* Kenneth J. Panton, 2015-05-07 For much of the nineteenth and early twentieth centuries Britain was the dominant world power its strength based in large part on its command of an Empire that in the years immediately after World War I encompassed almost one quarter of the earth's land surface and one fifth of its population Writers boasted that the sun never set on British possessions which provided raw materials that processed in British factories could be re-exported as manufactured products to expanding colonial markets The commercial and political might was not based on any grand strategic plan of territorial acquisition however The Empire grew piecemeal shaped by the diplomatic economic and military circumstances of the times and its speedy dismemberment in the mid twentieth century was similarly a reaction to the realities of geopolitics in post World War II conditions Today the Empire has gone but it has left a legacy that remains of great significance in the modern world The Historical Dictionary of

the British Empire covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Britain **The River Nile and Its Economic, Political, Social and Cultural Role** Terje Tvedt,2000 **The British Abroad Since the Eighteenth Century, Volume 1** Xavier Guégan,2013-11-19 This book considers the British travelling beyond their isles over the last three hundred years and through a range of interdisciplinary perspectives reflects on their taste for discovery and self discovery both through the exploration and exploitation of other lands and peoples The Nile in Legal and Political Perspective Mahemud E. Tekuya,2023-10-20 Competition over the Nile watercourse is becoming a global crisis As population growth economic development and urbanization increase the demand for water in the Nile Basin while climate change threatens its supply the region faces a looming water crisis An effective resolution of this multifaceted issue which impacts 11 African countries requires detailed multidisciplinary research Until now the academic discourse regarding the Nile watercourse has been primarily dominated by monodisciplinary studies This book fills that gap providing a retrospective and prospective look at the Nile through multidisciplinary lenses commingling history hydro politics climate change and law It scrutinizes the legal and hydro political trajectories of the Nile Basin from the 4th century A D to 2022

The Oxford Handbook of Modern Egyptian History Beth Baron,Jeffrey Culang,2024 Until relatively recently scholars of Egyptian history understood the modern period to begin with the movement of European people and ideas to Egypt s northern shores precipitated by Napoleon s invasion in 1798 From this perspective modern Egyptian history was animated by the diverse and sometimes contradictory ways in which Egyptians responded over time to colonial power and modern forms of knowledge This handbook featuring 26 originally commissioned essays by top scholars in the field adds to a growing literature that complicates the facile colonizer colonized and modern tradition binaries undergirding this view Modern Egyptian history is a continuous process of translation and adaptation invention and reinvention Bringing together a dynamic and accomplished group of historians of Egypt the book maps the present state of modern Egyptian history highlighting the most promising avenues of research and laying new ground upon which future generations of scholars may build The contributors address both long persisting themes in the field though in new ways as well as new themes reshaping how we understand modern Egyptian history and thus Middle Eastern and global history These include environment family infrastructure intellectuals labor law literature medicine politics popular culture and slavery Within these categories they explore issues of gender race and class The questions these scholars consider reflect pressing contemporary concerns and debates including medical sovereignty and bodily autonomy the management of the environment the rights and movements of workers courts and legal struggles cultural expression production and reception and the relationship between the army state and society **Land and Hydropolitics in the Nile River Basin** Emil Sandstrom,Anders Jagerskog,Terje

Oestigaard,2016-08-05 The Nile River Basin supports the livelihoods of millions of people in Egypt Ethiopia Sudan and Uganda principally as water for agriculture and hydropower The resource is the focus of much contested development not only between upstream and downstream neighbours but also from countries outside the region This book investigates the water land and energy nexus in the Nile Basin It explains how the current surge in land and energy investments both by foreign actors as well as domestic investors affects already strained transboundary relations in the region and how investments are intertwined within wider contexts of Nile Basin history politics and economy Overall the book presents a range of perspectives drawing on political science international relations theory sociology history and political ecology

The Heat and the Fury Peter Schwartzstein,2024-09-24 Schwartzstein s vignettes of each troubled region are vibrantly narrated as he encounters indignant locals and has run ins with menacing state security officials attempting to block his investigations into what they invariably consider a sensitive subject It s a riveting journey through a world running hot Publishers Weekly starred As a journalist on the climate security beat Peter Schwartzstein has been chased by kidnappers badly beaten detained by police and told in no uncertain terms that he was no longer welcome in certain countries Yet these personal brushes with violence are simply a hint of the conflict simmering in our warming world Schwartzstein has visited ravaged Iraqi towns where ISIS used drought as a recruiting tool and weapon of terror In Bangladesh he has interviewed farmers turned pirates who can no longer make a living off the land and instead make it off bloody ransoms Security forces have blocked him from a dam being constructed along the Nile that has brought Egypt and Ethiopia to the brink of war And he has heard the fear in the voices of women from around the world who say their husbands tempers flare when the temperature ticks up In *The Heat and the Fury* he not only puts readers on the frontlines of climate violence but gives us the context to make sense of seemingly senseless acts As Schwartzstein deftly shows climate change is often the spark that ignites long smoldering fires the extra shove that pushes individuals communities and even nations over the line between frustration and lethal fury What he asks can ratchet down the aggression Can cooperation on climate actually become a salve to heal old wounds There are no easy answers on a planet that is fast becoming a powder keg But Schwartzstein s incisive analysis of geopolitics unparalleled on the ground reporting and keen sense of human nature offer the clearest picture to date of the violence that threatens us all
