Road Warriors Dreams And Nightmares Along The Information Highway:

Road Warriors Daniel Burstein, David Kline, 1996 Like an epic saga of corporate rivalry scientific discovery and social commentary Road Warriors offers a vivid human scale narrative of the warring personalities and strategies driving the digital technology revolution The authors analyze the strategies necessary to navigate this ever evolving competitive environment

Governance in "Cyberspace": Access and Public Interest in Global Communications Klaus Grewlich, 1999-11-09 Cyberspace is the emerging invisible intangible world of electronic information and processes stored at multiple interconnected sites The digital revolution leads to convergence of telecommunications computer Internet and broadcasting and to dynamic multimedia value chains Deregulation and competition are major driving forces in the new interactive electronic environment This volume contains normative proposals for cyber regulation including self regulation grounded on developments in the EU US and the Far East in international organisations WTO OECD WIPO ITU in business fora in NGOs in the Internet community and in academic research The multi actor government business civil society and multi level analysis subsidiarity pertains e g to ex ante and ex post access regulation competition network economics external effects essential facilities public interest principles human dignity free speech privacy security development and culture consumer protection cryptography domain names and copyright Lawyers regulators business executives investment bankers diplomats and civil society representatives need shared essentials of plurilateral governance to safeguard both competition and public interest objectives at a scale congruent to cyberspace in the transition to an international law of cooperation

Media Mergers Nancy Woodhull, 2020-03-24 The recent surge in media mergers has set off a wave of stories that all hit very close to home In some cases the news organizations themselves become news The formation of communication conglomerates raises profound questions for reporters lives and work such as What is the best way to cover stories of high profile and complexity Will the new giants broaden both the definition of journalism and the opportunities for journalists to practice their craft What are the prospects for the new partnership of big news new media and big business The consequences of consolidation vary by media industry The evolution of communication technology is so fast that today's truisms can be undone tomorrow Media Mergers provides a healthy dose of skepticism a search for illuminating facts and a willingness to consider all sides of the discussion This book approaches the emergence of media giants from a variety of angles The contributors offer many ways of understanding their scale and their significance Media Mergers is divided into six parts Point Counterpoint The Imperial Moment Captains of Communication States of Media The Consequences of Media Empires in the United States and The Consequences of Media Empires Around the World Authors include Todd Gitlin Steven Rattner Ken Auletta Madeline Rogers Danny Schechter Barbara Maltby and Mac Margolis Included in this volume is a roundtable introduced by Walter Cronkite and moderated by Alex Jones Participants are Frank A Bennack Jr Neil S Braun P Anthony Ridder and Arthur Ochs Sulzberger Jr A review essay by Anne Wells Branscomb concludes book She discusses various books on the subjects of media

moguls multimedia conglomerates and media takeovers Media Mergers is especially pertinent today an age in which the communications industry is constantly changing progressing and being affected by business upheavals It will be of interest to publishers media specialists and all those in communications policy and research Disorder and the Disinformation Society Jonathan Paul Marshall,James Goodman,Didar Zowghi,Francesca da Rimini,2015-04-17 This book is the first general social analysis that seriously considers the daily experience of information disruption and software failure within contemporary Western society Through an investigation of informationalism defined as a contemporary form of capitalism it describes the social processes producing informational disorder While most social theory sees disorder as secondary pathological or uninteresting this book takes disordering processes as central to social life The book engages with theories of information society which privilege information order offering a strong counterpoint centred on disinformation Disorder and the Disinformation Society offers a practical agenda arguing that difficulties in producing software are both inherent to the process of developing software and in the social dynamics of informationalism It outlines the dynamics of software failure as they impinge on of information workers and on daily life explores why computerized finance has become inherently self disruptive asks how digital enclosure and intellectual property create conflicts over cultural creativity and disrupt informational accuracy and scholarship and reveals how social media can extend but also distort the development of social movements **Pitfalls and Triumphs of Information Technology Management** Mehdi Khosrowpour,2001-01-01 Pitfalls and Triumphs of Information Technology Management uses case studies of actual organization to demonstrate both successful and unsuccessful use of Information technology resources in organizations The wide variety of types of organizations covered large and small businesses government agencies and educational institutions makes this a valuable resource for IT professionals **Making a Difference** Diana Owen,Richard Davis,David Taras,Stephen Ward,2008-03-13 This book is a cross national analysis of the role of the internet in national electoral campaigns It covers an array of electoral and party systems throughout the globe from parliamentary to presidential party based to candidate oriented multi party to two party and stable party system to dynamic party system It takes a look at three groups of nations with varying levels of Internet access those where internet usage is common across demographic groups those where usage has reached significant levels but not widespread penetration and those where internet access is still limited to a small elite Each chapter is a study of a particular nation focusing on its electoral and party systems the accessibility of the Internet to the population the nature of candidate party usage and the effects of the internet on the conduct of campaigns By reviewing the findings from these studies Making a Difference draws conclusions about exactly how the internet influences electoral politics Burning the Ships Marshall Phelps,David Kline,2009-05-13 Now in paperback the inside story of the greatest transformation of Microsoft since it became a multinational company Marshall Phelps s remarkable eyewitness story offers lessons for any executive struggling with today s innovation and intellectual property challenges Burning the Ships offers

Phelps's dramatic behind the scenes account of how he overcame internal resistance and got Microsoft to open up channels of collaboration with other firms. Discover the never before told details of Microsoft's secret two year negotiations with Red Hat and Novell that led to the world's first intellectual property peace treaty and technical collaboration with the open source community. Witness the sometimes nervous support Bill Gates and CEO Steve Ballmer gave to Phelps in turning their company around 180 degrees from market bully to collaborative industry partner. Offers an extraordinary behind the scenes view of the high level deliberations of the company's senior most executives, the internal debates and conflicts among executives and rank and file employees alike over the company's new collaborative direction. There are lessons in this book for executives in every industry, most especially on the role that intellectual property can play in liberating previously untapped value in a company and opening up powerful new business opportunities in today's era of open innovation. Here is a powerful inside account of the dawn of a new era at what is arguably the most powerful technology company on earth.

The Unheavenly Chorus Kay Lehman Schlozman, Sidney Verba, Henry E. Brady, 2012-04-09. Why American democracy favors the affluent and educated. Politically active individuals and organizations make huge investments of time, energy, and money to influence everything from election outcomes to congressional subcommittee hearings to local school politics, while other groups and individual citizens seem woefully underrepresented in our political system. *The Unheavenly Chorus* is the most comprehensive and systematic examination of political voice in America ever undertaken, and its findings are sobering. *The Unheavenly Chorus* is the first book to look at the political participation of individual citizens alongside the political advocacy of thousands of organized interests, membership associations such as unions, professional associations, trade associations, and citizens groups, as well as organizations like corporations, hospitals, and universities. Drawing on numerous in-depth surveys of members of the public as well as the largest database of interest organizations ever created, representing more than thirty-five thousand organizations over a twenty-five year period, this book conclusively demonstrates that American democracy is marred by deeply ingrained and persistent class-based political inequality. The well-educated and affluent are active in many ways to make their voices heard, while the less advantaged are not. This book reveals how the political voices of organized interests are even less representative than those of individuals, how political advantage is handed down across generations, how recruitment to political activity perpetuates and exaggerates existing biases, how political voice on the Internet replicates these inequalities, and more. In a true democracy, the preferences and needs of all citizens deserve equal consideration. Yet equal consideration is only possible with equal citizen voice. *The Unheavenly Chorus* reveals how far we really are from the democratic ideal and how hard it would be to attain it. [From Anarchy to Power](#) Wendy Grossman, 2001-04-01. Yesterday's battles over Internet turf were fought on the net itself; today's battles are fought in government committees in Congress, on the stock exchange, and in the marketplace. What was once an experimental ground for electronic commerce is now the hottest part of our economic infrastructure. In *From Anarchy to Power*, Wendy Grossman

explores the new dispensation on the net and tackles the questions that trouble every online user How vulnerable are the internet and world wide web to malicious cyber hackers What are the limits of privacy online How real is internet addiction and to what extent is the news media responsible for this phenomenon Are women and minorities at a disadvantage in cyberspace How is the increasing power of big business changing internet culture We learn about the political economy of the internet including issues of copyright law corporate control and cryptography legislation Throughout the book the emphasis is on the international dimensions of the net focusing on privacy and censorship in the United States Europe and Canada and the hitherto ignored contributions of other countries in the development of the net Entertaining and informative From Anarchy to Power is required reading for anyone who wants to know where the new digital economy is heading

Cross-cultural Communication and Aging in the United States Hana Noor Al-Deen, 2013-10-18 Recently the communication discipline has devoted increasing energy toward the study of aging yet most of the research has insufficiently addressed a crucial factor in communicative relationships culture Meanwhile cross cultural intercultural communication has not adequately addressed the aging process Combining three powerful elements communication aging and culture all of which have an increasingly profound impact on today's multicultural society this book focuses on older Americans in various communicative contexts within the framework of their cultures Composed of original research by experts in their respective fields the book combines communication aging and culture for a unique examination of those elements in American society Section 1 deals with perspectives in cross cultural communication and aging These perspectives both illustrate the issues that greatly affect the lives of our elders and suggest ways to improve their status Section 2 showcases three American cultures Hawaiian Arab and Mormon illustrate how language attitudes and mentoring can serve as the links for maintaining cross generational continuity in multicultural society Section 3 demonstrates that many American organizations frequently contribute to the hardships that both internal elder customers employees and external elder customers residents and patients must endure Section 4 incorporates popular culture and aging It presents the role of selective popular media in portraying our elders Because Americans rely heavily on the media their mediated perceptions can have a profound impact on their attitudes toward the older population Designed as a reader or supplementary text for college students in communication gerontology anthropology sociology and other related fields this text can also be used by professionals in gerontological service areas by libraries and as a personal reference It offers extensive appendices figures and tables for additional reference
