Roaring Twenty:

Robert Rossen Alan Casty, 2013-03-13 This book calls for a re evaluation of the films of Robert Rossen Over a 30 year period he was the most accomplished writer and director who was also a longtime member of the Communist Party but his achievement has not been recognized his films have been belittled or ignored his legacy denied Rossen s films reflected his times and the American scene with a dramatic intensity and personal expression unmatched by any other filmmaker of the period The stages of his political journey from idealism about Communism to his rebellion against the Party s betrayal of those ideals influenced the rendering of his concerns and themes the flaws of human nature the complexities of motives the paradoxes of betrayal personal and political Yet Rossen testified against his fellow filmmakers and so his morals and character have been denounced his work diminished as fatally marred by his moral flaws The opposite is true Here is a thorough analysis of each of his 22 films and their place in the developing themes of his body of work It integrates this study of the films with a documented narrative of his relationship to the Party its history and conflicts its duplicities especially the relations of the Party and its followers to the oppressions of the Soviet Union And so it challenges the validity of the conventional wisdom about the moral issues of the blacklist period [Handbook of the American Novel of the Twentieth and](#)

[Twenty-First Centuries](#) Timo Müller, 2017-01-11 Increasing specialization within the discipline of English and American Studies has shifted the focus of scholarly discussion toward theoretical reflection and cultural contexts These developments have benefitted the discipline in more ways than one but they have also resulted in a certain neglect of close reading As a result students and researchers interested in such material are forced to turn to scholarship from the 1960s and 1970s much of which relies on dated methodological and ideological presuppositions The handbook aims to fill this gap by providing new readings of texts that figure prominently in the literature classroom and in scholarly debate from James s The Ambassadors to McCarthy s The Road These readings do not revert naively to a time before theory Instead they distil the insights of literary and cultural theory into concise introductions to the historical background the themes the formal strategies and the reception of influential literary texts and they do so in a jargon free language accessible to readers on all levels of qualification

Boom and Bust Thomas Schatz, 1999-11-23 On the history of motion pictures **The Girls of Southend High School 1913-2013** Pam Mansell, 2013-11-01 This book celebrates the lives of the students and former students of Southend High School for Girls during its first one hundred years Through their words we are able to experience key events of the twentieth century and come to understand how much has been achieved by them In 1913 women did not even have the vote including the highly educated and formidable Head Mistress One year later World War I broke out Sister Mary Ruth Brewster on her hundredth birthday in 2005 wrote from South Africa about the air raids we had to get out of our desks sit cross legged on the floor on the side away from the window with our big atlases open and held over our heads In World War II the Old Girls faced even more dangers including imprisonment by the Germans in France and internment by the Japanese

in China Others who went out as teachers and missionaries in the final days of the British Empire also faced dangers from those fighting for their independence Finally this would not be a true history of the school without chapters on the uniform success in sport and the School Birthday in October with its cards presents cakes and celebrations Prosperity ethics Johann Walters,J.M. Vorster,2021-11-30 The paradigm shift from modernism to post modernism and the Fourth Industrial Revolution poses enormous challenges to universal moral codes and human life today The thesis of this manuscript is that human prosperity in the broad sense of human flourishing in this new environment could be enhanced by re defining and applying universal moral codes and practising related habits to guide people to prosper and flourish as dignified human beings In a relevant and vigorous discourse the book engages with issues regarding morality in an age of high technology It explores ways in which moral agents can contribute to leading post modernist people into an environment where humans can prosper and enjoy life in a changing world where many old moral directives are not feasible anymore This scholarly book contributes to the specific scientific discourse on studies regarding the relevant discipline and offers a new pattern of reasoning in the field of social ethics about moral agency aiming purposefully to address particular virtues and applicable habits beneficial for human prosperity and dignified life in a changing social environment From the perspective of applied methodology the book is the result of a comparative literary study done from the perspective of universal moral codes which flows from in created natural law Recent research results of empirical studies about the effects of the Fourth Industrial Revolution were consulted and applied to raise awareness of the deep rooted changes and challenges in society today

Leidholdt,2002-05-01 From his assumption of the Norfolk Virginian Pilot s editorial helm in 1919 until his death in 1950 Louis Isaac Jaff served as one of the South s leading and most respected liberal journalists Prejudice he faced as a Jew created in him an abiding empathy with the downtrodden and his World War I military service and subsequent Red Cross work deepened his sensitivity to injustice Alexander Leidholdt s new biography maps the battlefield of intolerance and civil rights violations on which Jaff fired his journalistic salvos and explores the complexities of a man who was poised to become a national spokesman for a better South Jaff worked ceaselessly to advance racial understanding successfully lobbying locally for black parks and beaches black police and a black college A high point of Leidholdt s book is the account of Jaff s attacks on mob justice a stirring record of one writer s response to what he saw as inexcusable moral sluggishness in civil authorities For his campaign urging Virginia lawmakers to adopt stiff antilynching legislation he earned the 1929 Pulitzer Prize for distinguished editorial writing Achieving a poignant balance between Jaff s significant professional accomplishments and the private pains he bore including anti Semitism a mentally unstable wife and an estranged son this superb study demonstrates how Jaff s difficulties limited him as an active liberal

reformer but also fueled his prescient and impassioned warnings against Hitler's rise to power in the early thirties Drawing extensively from primary source material much of it previously unexamined Editor for Justice makes an important contribution to journalism and to southern Jewish and black history Readers will treasure the depiction of an extraordinary champion of human rights
