Disjunctive Poetics Peter Quartermain,1992-06-26 *Disjunctive Poetics*

examines some of the experimental contemporary writers including Stein and Zukofsky whose work forms a counterpoint to the mainstream writing of our time Peter Quartermain suggests that the explosion of such modern writing is linked to the severe political social and economic dislocation of non English speaking immigrants who arriving in America at the turn of the century found themselves uprooted from their tradition and disassociated from their culture *The Postmoderns* Donald Allen,George F. Butterick,1982 This anthology includes many of the major poets to have emerged and gained pre eminence since World War II and whose writing reflects not only the significant changes in this nation s postwar history and the coming to grips with a nuclear age but also an entirely new way of looking at and structuring reality United by their postmodernist concerns with spontaneity instantism formal and syntactic flexibility and the revelation of both the creator and the process through the writing itself these 38 poets represent very diverse strains of an essential American individualism Included are many of the poets whose work first gained widespread national attention with the 1960 publication of *The New American Poetry* Charles Olson Allen Ginsberg Paul Blackburn LeRoi Jones Amiri Baraka Denise Levertov Robert Duncan and others Among the poets included here for the first time are Anne Waldman Diane di Prima Ed Sanders Jerome Rothenberg and James Koller In addition to a new preface by Allen and Butterick the book provides autobiographical notes of all the poets and listings of their major works **Stubborn Poetries** Peter Quartermain,2013-06-25 *Stubborn Poetries* is a study of poets whose work because of its difficulty or simple resistance to conventional explication remains more or less firmly outside the canon Book jacket **Poetic Community** Stephen Joyce,2013-01-01 *Poetic Community* examines the relationship between poetry and community formation in the decades after the Second World War In four detailed case studies of Black Mountain College in North Carolina the Caribbean Artists Movement in London the Women s Liberation Movement at sites throughout the US and the Toronto Research Group in Canada the book documents and compares a diverse group of social models small press networks and cultural coalitions informing literary practice during the Cold War era Drawing on a wealth of unpublished archival materials Stephen Joyce offers new and insightful comparative analysis of poets such as John Cage Charles Olson Adrienne Rich Kamau Brathwaite and bpNichol In contrast with prevailing critical tendencies that read mid century poetry in terms of expressive modes of individualism *Poetic Community* demonstrates that the most important literary innovations of the post war period were the results of intensive collaboration and social action opposing the Cold War s ideological enclosures Charles Olson's Reading Ralph Maud,1996 In this narrative account of the life and work of Charles Olson Ralph Maud focuses on what the poet read as a basis for understanding the work he produced To an extraordinary degree Olson s reading and life were coextensive according to Maud who notes that Olson saw

his written output over his lifetime as a total cosmology. An individual who rarely traveled, this major American poet explored the world and its history as well as the furthest reaches of the thought of his day through books. Maud builds upon George Butterick's annotated listing of Olson's library, bought by the University of Connecticut after the poet's death in 1970. The present volume, however, adds categories of books Butterick deliberately omitted: Olson's childhood books and poetry by his own contemporaries. Linking Olson's books to his intellectual and poetic development at each stage of his career, Maud reveals such little-known but important connections as the contracted book project *Operation Red, White, and Black* and Olson's plan for the long poem *West*, two unrealized projects much later shaped into *The Maximus Poems*. Maud also outlines the surprisingly multiple role of the painter Corrado Cagli, who brought home to Olson the significance of the Holocaust and introduced him both to the Tarot and to the theories of non-Euclidean geometry that Olson variously incorporated into his poems and essays. In discussing Olson's relationship to Ezra Pound, Maud defines in some detail what Olson gained from Pound and what he repudiated. Maud refutes the notion that Olson's intellectual and creative powers declined during the last years of his life, demonstrating that during these years Olson developed his Jungian interest, his attention to early Greek thought, and a new concern for Northern mythology. This chronicle of Olson's reading from childhood to deathbed constitutes a critical biography of the larger-than-life author of *Call Me Ishmael* and *The Maximus Poems*. No modern poet is more revealed in his sources than Olson. Maud's comprehensive and complete study provides a basis for new and fresh modes of thinking about Olson's great achievement.

From Outlaw to Classic Alan Golding, 2009-08-26 *From Outlaw to Classic* presents a sweeping history of the forces that have shaped and continue to shape the American poetry canon. Students, scholars, critics, and poets will welcome this enlightening and impressively documented book. Recent writings by critics and theorists on literary canons have dealt almost exclusively with prose. Alan Golding shows that like all canons, those of American poetry are characterized by conflict. Choosing a series of varied but representative instances, he analyzes battles and contentions among poets, anthologists, poetry magazine editors, and schools of thought in university English departments. The chapters present a history of American poetry anthologies, compare competing models of canon formation (the aesthetic poet-centered and the institutional critic-centered), discuss the influence of the New Critics (emphasizing their status as practicing poets), their anti-nationalist reading of American poetry, and the landmark textbook *Understanding Poetry* by Cleanth Brooks and Robert Penn Warren. Examining the canonizing effects of an experimental little magazine, *Origin*, traces how the Language poets address in both their theory and their method the canonizing institutions and canonical assumptions of the age.
