Burt Lancaster Ed Andreychuk,2015-09-01 With a career in films spanning nearly fifty years Burt Lancaster brought his unique charisma and energy to roles in films ranging from the adventurous to the bittersweet This comprehensive filmography of Lancaster s career is accompanied by a biography that provides the background for his immense range of work on the screen Production information a synopsis and commentary is provided for each of Lancaster s 85 films from the first *The Killers* to the last *Separate But Equal* Photographs from nearly all of Lancaster s films accompany the text and an index and bibliography are also included

Burt Lancaster Kate Buford,2013-07-08 Burt Lancaster is perhaps most widely remembered as the tough iron jawed star of films such as *Gunfight at the OK Corral* and *Airport* But as this superbly readable and insightful biography demonstrates he was an actor with much broader ambitions brilliantly realised in Visconti s *The Leopard* as well as the founder of the first actor led production company in Hollywood Lancaster s liberal political views led not only to frequent clashes with the House Un American Activities Committee and a voluminous FBI file but also a private life that was colourful even by Hollywood standards Although a devoted father and husband to three wives the actor took numerous lovers of both sexes In his sexual tastes as in his choice of roles he defied classification Kate Buford s definitive biography offers a full frank sensitive and compelling portrait of the star of Atlantic City From *Here to Eternity* and *Elmer Gantry* for which he won a Best Actor Oscar Lancaster emerges as a man of restless energy relentless curiosity and continual development as an actor a star every bit as interesting offscreen as on As one American reviewer put it Not many film stars receive first class biographies Burt Lancaster not only deserved one he got one Acclaimed biographer Kate Buford has been a regular commentator on National Public Radio in the United States since 1994

Fade to Gray Timothy Shary,Nancy McVittie,2016-09-06 Americans are living longer and reinventing both work and retirement but Hollywood movies barely hint at this reality of contemporary society In many popular films older characters fade into irrelevance inactivity or absurdity or else they stay in the background as wise elders while younger characters provide the action Most American films do not attempt to portray the rich variety of experiences or the sensitive aging issues that people confront in the years beyond fifty *Fade to Gray* offers one of the first extended studies of the portrayal of older people in American cinema from the silent era to the present Writing in an accessible style for both general audiences and scholars Timothy Shary and Nancy McVittie examine social attitudes toward aging through an analysis of hundreds of individual films including such classics as *You Can t Take It With You* 1938 *Rosemary s Baby* 1968 *Grumpy Old Men* 1993 and *Nebraska* 2013

They show how representations of the aging process and depictions of older people embracing or enduring the various experiences of longer lives have evolved over the past century as well as how film industry practices have both reflected and influenced perceptions of aging in American society Exposing the social and political motivations for negative cinematic portrayals of the elderly Fade to Gray also gives visibility to films that provide opportunities for better understanding and appreciation of the aged and the aging process

It's Still Strictly Personal Eric Friedmann,2021-02-15 It s Still Strictly Personal continues Eric Friedmann s journey through the movies during the nine year period of 1983 to 1991 While he and the rest of the world embraced blockbuster motion pictures like Ghostbusters Back to the Future Top Gun Die Hard Batman and Terminator 2 it was also alternative films like A Passage to India Blue Velvet Platoon Do the Right Thing and Cinema Paradiso that captured his attention and continued to impact his youth while shaping a deeper and more meaningful insight to the possibilities of cinema Eric s personal story about the movies is still told with great memory and affection for those who still remember a time when movies continued to change grow and evolve into deep rooted memories for all of us who loved sitting in front of the big screen and waited for the magic to unfold Some movies we just watch Others we feel Those that we can feel may not only tell us who we once were but perhaps who we have the potential to become Eric Friedmann So are you ready to go back in time again and remember

Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies, 1998 [Coming of Age in Films](#) Mario Garrett, 2019-02-14 The story of films is the story of human development

From the very first story that defined the birth of our civilization the Sumerian Epic of Gilgamesh a story of immortality aging and death comes a tale of why we age We are a species of storytellers The stories we tell to each other define who we are However since we are living in a world marked by age apartheid our interaction with people across different generations is becoming more limited As a result the information we gain about older people comes mostly from secondary sources For the general public films remain the most accessible form of information regarding getting older From the early exposure of cartoons to more elaborate dramas our knowledge of what it means to become old relies on our exposure to films This

volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults Arguing that films present a simplified view of aging this analysis relies on scientific evidence to explore why and how such stereotypes affect us Stereotypes have the ability of being internalized and becoming prescriptive of our behavior Numerous studies have attempted different ways of understanding the impact films have on aging Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process This text builds upon this knowledge and provides new insights by applying current gerontological knowledge the science of aging to unpack and analyze the images of aging that films are providing By readdressing this focus on gerontological theories as diverse as biology and psychology the book readdresses an overlooked approach *The Motion Picture Prescription* Gary Solomon,1995 In the first book of its kind Gary Solomon a k a The Movie Doctor supplies a list of healing stories culled from movies that shows readers how others have coped and healed from problems such as addictions abuse bigotry and physical illnesses **The Films of Jean Seberg** Michael Coates-Smith,Garry McGee,2014-01-10 Here is the first comprehensive examination of the international film career of Iowa born actress Jean Seberg 1938 1979 Bursting onto the scene as star of Otto Preminger s controversial Saint Joan 1957 the 19 year old Seberg encountered great difficulty recovering from the devastating criticism of her performance The turnaround came in 1959 with her brilliant work in Jean Luc Godard s new wave classic A bout de souffle Breathless Though her Hollywood prospects were harmed by subsequent political involvements Seberg continued to work with some of Europe s finest directors Her later films offer a fascinating view of the movie industry in the 1960s and 1970s and of a courageous actress always ready for a new challenge A biographical sketch provides a framework for detailed scrutiny of her 37 films Background information and a critical evaluation is provided for each title **Film Fooled** Seth Hymes,2008 You don t need a degree to make movies You do need tireless dedication boundless creativity and a budget So how do film schools justify charging students tens of thousands of dollars for their programs Find out in this surprising behind the scenes account of what is currently considered to be one of the best film schools in the country You ll laugh at the professor s obscure credentials You ll cry at the cost of tuition and the plight of the graduates But mostly you ll be astounded by what alumni have hailed as very funny sadly accurate portrayal of the film school experience **Encyclopedia of Motion Picture Sound** Marty McGee,2010-09-29 Ever since 1927 when The Jazz Singer broke the silence of the silver screen sound has played an integral role in the development and appreciation of motion pictures This encyclopedia covers the people processes innovations facilities manufacturers formats and award winning films that have made sound such a crucial part of the motion picture experience Every film that has won a sound related Academy Award is included here with detailed critical commentary Every sound mixer or editor who has been honored by the Academy has his or her own entry and filmography and career biographies are provided for key developers including Jack Foley Ray Dolby George Lucas and more **The Jerome Kern Encyclopedia** Thomas S.
