The Nobility and Ecclesiastical Patronage in Thirteenth-century England Elizabeth Gemmill,2013 While there has been work on the nobility as patrons of monasteries this is the first real study of them as patrons of parish churches and is thus the first study to tackle the subject as a whole Illustrated with a wealth of detail it will become an indispensable work of reference for those interested in lay patronage and the Church more generally in the middle ages Professor David Carpenter Department of History King s College London This book provides the first full length integrated study of the ecclesiastical patronage rights of the nobility in medieval England It examines the nature and extent of these rights how they were used why and for whom they were valuable what challenges lay patrons faced and how they looked to the future in making gifts to the Church It takes as its focus the thirteenth century a critical period for the survival and development of these rights being a time of ambitious Church reform of great change in patterns of land ownership in the ranks of the higher nobility and of bold assertion by the English Crown of its claims to control Church property The thirteenth century also saw a proliferation of record keeping on the part of kings bishops and nobility and the author uses new evidence from a range of documentary sources to explore the nature of the relationships between the English nobility the Church and its clergy a relationship in which patronage was the essential feature Dr Elizabeth Gemmill is University Lecturer in Local History and Fellow of Kellogg College University of Oxford **Fourteenth Century England** James Bothwell,Gwilym Dodd,2016 Articles showcasing the fruits of the most recent scholarship in the field of fourteenth century studies *Medieval Ecclesiastical Studies* Michael J. Stolen Women in Medieval England Caroline Dunn, 2013 The first comprehensive exploration of women's multifaceted experiences of forced and consensual ravishment in medieval England **Acre and Its Falls**, 2018-05-01 In the crusader period Acre was in many ways a remarkable place but the most striking thing about its history is the number of times it fell to enemies The present volume Acre and Its Falls is unusual in that it analyses a wide range of aspects of the history of Acre across the crusader period combining political military and cultural history with a notable emphasis on the memory of the city in Europe This may have been a city famous for its falls but most certainly not for them alone Contributors are Adrian J Boas Charles W Connell Paul F Crawford Susan B Edgington Marie Luise Favreau Lilie John France Anna Gilmour Bryson John D Hosler Georg Philipp Melloni Janus Møller Jensen J Rubin and Iris Shagrir "Non enim fuerat Evangelii surdus auditor..." Interpreting Duns Scotus Giorgio Pini, 2022-01-06 John Duns Scotus is commonly recognized as one of the most original thinkers of medieval philosophy His influence on subsequent philosophers and theologians is enormous and extends well beyond the limits of the Middle Ages His thought however might be intimidating for the non initiated because of the sheer number of topics he touched on and the difficulty of his style The eleven essays collected here especially written for this volume by some of the leading scholars in the field take the reader through various topics including Duns Scotus s intellectual environment his argument for the existence of God and his conceptions of modality order causality freedom and human nature This volume provides a reliable point of entrance to the thought of Duns Scotus while giving a snapshot of some of the best research that is now being done on this difficult but intellectually rewarding thinker

The Dependent Pories of Medieval English Monasteries Martin Heale, 2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated
