H. Goodyear,2015-06-15 Excerpt from Roman and Medieval Art It is a pity that the word art carries with it to a person not interested in the subject or not versed in its history a suggestion of luxury and of superfluity as contrasted with the utilitarian or the practical Where this possibly derogatory tinge of meaning is not suggested there is generally at least a feeling that the matters which the word calls up are those of interest to the specialist in design rather than to the world at large People who are supposed to be interested in art might according to this view possibly not be interested in literature or in history Contrary wise people interested in history or in literature might possibly not be interested in art It is true that in recent centuries those namely of recent modern history the arts of painting and sculpture at least have become mainly matters of luxury and that as arts of popular education and instruction they have been displaced by printed books Hence the difficulty of making immediately apparent before the subject itself has been opened up that a history of art is not so much a history of the arts of design as it is a history of civilization But if this point is not apparent in advance it is notwithstanding the point which in recent years has drawn more and more attention to the subject until it is beginning to figure as an indispensable part of the philosophy and knowledge of general history About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Roman and Medieval Art (Classic Reprint)* William Henry Goodyear,2018-01-13 Excerpt from Roman and

Victoria Charles, Klaus H. Carl, 2020-02-27 September 4 476 A D marked the end of the Western Roman Empire After several centuries of prosperity Europe sank into chaos With Charlemagne a new dynamic begins that of a civilising reconstruction The Romanesque period is part of the rediscovery of this Roman Empire lost in memories but living on in the architectural testimonies of the cities and the countryside In art history Romanesque art refers to the period between the beginning of the 11th and the end of the 12th century This era was characterised by a great diversity of regional schools each practising their own unique style In architecture as well as in sculpture Romanesque art is marked by raw forms Through its rich iconography and captivating text this work endeavours to restore the importance of this art which is often overshadowed by the later Gothic style Gothic art is defined by the powerful architecture of the cathedrals of northern France It is a medieval art movement that evolved throughout Europe over 200 years Abandoning curved Roman forms the architects started using flying buttresses and pointed arches to open cathedrals to daylight A period of great economic and social change the Gothic era incorporated new iconography celebrating the Holy Mary a drastic contrast to the dismal themes of Roman times Full of rich changes in all of the various art forms architecture sculpture painting etc Gothic art paved the way for the Italian Renaissance and the International Gothic movement
