Roman Letters Matthew B. Schwartz, Finley Hooper, 2018-07-20 In this selection of letters notable Romans write about themselves and their times as well as about personal and public matters Seneca provides indignant remarks about the behavior of women in Nero's Rome From his monastic cell in Bethlehem St Jerome berates St Augustine for gossip he may have spread Some letters give a different perspective to history while other talk of harvests marriages and day to day events For historical continuity Hooper and Schwartz include a running commentary and brief biographical sketches on the writers

Ancient Epistolary Fictions Patricia A. Rosenmeyer, 2001-04-30 A comprehensive look at fictive letters in Greek literature from Homer to Philostratus first published in 2001 It includes both embedded epistolary narratives in a variety of genres epic historiography tragedy the novel and works consisting solely of letters such as the pseudonymous letter collections and the invented letters of the Second Sophistic The book challenges the notion that Ovid invented the fictional letter form in his *Heroides* and considers a wealth of Greek antecedents for the later European epistolary novel tradition Epistolary technique always problematizes the boundaries between fictionality and reality Based on a process of selection and self censorship the letter is a construction not a reflection of reality The author bypasses the question of sincerity for a close look at epistolary self representation the function of the letter form and the nature of the relationship between writer and reader in a wide range of ancient Greek texts

Philosophy and Community in Seneca's Prose Carey Seal, 2021 This book shows how the Roman philosopher Seneca balances the imperative to subject one's life to rational scrutiny with the claims of the Roman moral tradition

The Reputation of the Roman Merchant Jane Sancinito, 2024-01-02 Roman merchants artisans and service providers faced substantial prejudice Contemporary authors labeled them greedy while the Roman on the street accused merchants of lying and cheating Legally and socially merchants were kept at arm's length from respectable society Yet merchants were common figures in daily life populating densely packed cities and traveling around the Mediterranean The Reputation of the Roman Merchant focuses on the strategies retailers craftsmen and many other workers used to succeed examining how they developed good reputations despite the stigma associated with their work In a novel approach blending social and economic history The Reputation of the Roman Merchant considers how reputation worked as an informal institution establishing and reinforcing traditional Roman norms while lowering the cost of doing business for individual workers From histories and novels to inscriptions and art this volume identifies common reputation strategies explores how points of pride and personal accomplishments were shared with others and explains responses to merchant activities on the small scale The book concludes that merchants invested heavily in their reputations as a way to set themselves apart from common negative stereotypes without admitting that there was anything shameful about the work they did

*St. Cyprian of Carthage and the College of Bishops* Benjamin Safranski, 2018-09-15 This book assesses episcopal cooperation as envisioned by the third century bishop Cyprian of Carthage It outlines and assesses the interactions between local bishops provincial

groups of bishops and the worldwide college Assessing these interactions sheds light on the relationship between Cyprian's strong sense of local autonomy and the reality that each bishop was responsible to the world wide college Episcopal consensus was the sine qua non for Cyprian for a major issue of faith or practice to become one that defined membership in the college and ultimately the Church The book brings this assessment into a modern scholarly debate by concluding with an evaluation of the ecclesiology of the Orthodox scholar Nicolas Afanasiev and his critiques of Cyprian Afanasiev lamented Cyprian as the father of universal ecclesiology and claimed that Cyprian's college wielded authority above that of the local bishop This book argues that Afanasiev fundamentally misconstrued Cyprian's understanding of collegiality It is shown that for Cyprian collegiality was the framework for the common ministry of the bishops and did not infringe on the sovereignty of the local bishop Rather it was the college's collective duty to define the boundaries of acceptable Christian belief and practice

Mitchell, 2007 Once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct Poster and Mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition In this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from Isocrates to email that form the basis for its study
