Kokoszka, 2023-08-25 T D Kokoszka grew up in Texas with a Jewish mother and a Polish American father While he was aware of roots going back to Eastern Europe from both families he found it hard to learn very much about them He knew that Polish people would whack one another with palm leaves around Easter and he knew that his great grandmother purportedly believed in forest spirits known as borowy However it wasn't until he was in his teens that he became vaguely aware of an ancient people known as the Slavs who gave rise to the Polish Ukrainian Russian Serbian Bulgarian Slovakian Slovene and Czech languages It quickly became clear to him that this was a family of cultures currently under represented in popular culture and even in western scholarship Not simply a regurgitation of scholarship from the Soviet period and presenting new analyses by using previously neglected resources Bogowie A Study of Eastern Europe's Ancient Gods offers one of the most painstaking scholarly reconstructions of Slavic paganism These new resources include not only an overview of folklore from many different Slavic countries but also comparisons with Ossetian culture and Mordvin culture as well as a series of Slavic folktales that Kokoszka analyzes in depth often making the case that the narratives involved are mythological and shockingly ancient Readers will recognize many European folktale types and possibly learn to look at these folktales differently after reading this book **The Oxford Handbook of Pre-Roman Italy (1000-49 BCE)** Marco Maiuro, Jane Botsford Johnson, 2024 The Oxford Handbook of Pre

Porphyry a native of Phoenicia educated in Athens and Rome during the third century AD was one of the most important Platonic philosophers of his age In this book Professor Johnson rejects the prevailing modern approach to his thought which has posited an early stage dominated by Oriental superstition and irrationality followed by a second rationalizing or Hellenizing phase consequent upon his move west and exposure to Neoplatonism Based on a careful treatment of all the relevant remains of Porphyry s originally vast corpus much of which now survives only in fragments he argues for a complex unity of thought in terms of philosophical translation The book explores this philosopher s critical engagement with the processes of Hellenism in late antiquity It provides the first comprehensive examination of all the strands of Porphyry s thought that lie at the intersection of religion theology ethnicity and culture **Brill's Companion to Classics in the Early Americas** ,2021-08-30 Brill s Companion to Classics in the Early Americas illuminates the remarkable range of Greco Roman classical receptions across the western hemisphere from the late fifteenth to the early nineteenth century Bringing

together fifteen essays by scholars working at the intersection of Classics and all aspects of Americanist studies this unique collection examines how Hispanophone Lusophone Anglophone Francophone and or Indigenous individuals engaged with Greco Roman literary cultures and materials By coming at the matter from a multilingual transhemispheric perspective it disrupts prevailing accounts of classical reception in the Americas which have typically privileged North over South Anglophone over non Anglophone and the cultural production of hegemonic groups over that of more marginalized others Instead it offers a fresh account of how Greco Roman literatures and ideas were in play from Canada to the Southern Cone to the Caribbean treating classical reception in the early Americas as a dynamic polyvocal phenomenon which is truly transhemispheric in reach

Counterheritage Denis Byrne, 2014-04-16 The claim that heritage practice in Asia is Eurocentric may be well founded but the view that local people in Asia need to be educated by heritage practitioners and governments to properly conserve their heritage distracts from the responsibility of educating oneself about the local popular beliefs and practices which constitute the bedrock of most people's engagement with the material past Written by an archaeologist who has long had one foot in the field of heritage practice and another in the academic camp of archaeology and heritage studies Counterheritage is at once a forthright critique of current heritage practice in the Asian arena and a contribution to this project of self education Popular religion in Asia including popular Buddhism and Islam folk Catholicism and Chinese deity cults has a constituency that accounts for a majority of Asia's population making its exclusion from heritage processes an issue of social justice but more pragmatically it explains why many heritage conservation programs fail to gain local traction This book describes how the tenets of popular religion affect building and renovation practices and describes how modernist attempts to suppress popular religion in Asia in the early and mid twentieth century impacted religious heritage Author Denis Byrne argues that the campaign by archaeologists and heritage professionals against the private collecting and looting of antiquities in Asia largely ignores the

regimes of value which heritage discourse has helped erect and into which collectors and local diggers play Focussing on the Philippines Thailand and Taiwan but also referencing China and other parts of Southeast Asia richly detailed portraits are provided of the way people live with old things and are affected by them Narratives of the author s fieldwork are woven into arguments built upon an extensive and penetrating reading of the historical and anthropological literature The critical stance embodied in the title counterheritage is balanced by the optimism of the book s vision of a different practice of heritage advocating a view of heritage objects as vibrant agentic things enfolded in social practice rather than as inert and passive surfaces subject to conservation

Exceeding Reason Dennis Vanden Auweele,2020-10-12 The work of the later Schelling in and after 1809 seems antithetical to that of Nietzsche one a Romantic idealist and Christian the other Dionysian anti idealist and anti Christian Still there is a very meaningful and educative dialogue to be found between Schelling and Nietzsche on the topics of reason freedom and religion Both of them start their philosophy with a similar critique of the Western tradition which to them is overly dualist rationalist and anti organic metaphysically ethically religiously politically In response they hope to inculcate a more lively view of reality in which a new understanding of freedom takes center stage This freedom can be revealed and strengthened through a proper approach to religion one that neither disconnects from nor subordinates religion to reason Religion is the dialogical other to reason one that refreshes and animates our attempts to navigate the world autonomously In doing so Schelling and Nietzsche open up new avenues of thinking about the relationship between freedom reason and religion
