**A Garden Of Bristlecones** Michael P. Cohen, 1998-09-01. An engaging well-illustrated natural and cultural history of the oldest living organism, the bristlecone pine. Since Edmund Schulman discovered in 1958 that individual bristlecones live nearly 5,000 years, the trees have been investigated primarily for the elaborate record their rings contain. The trees have been read closely with major consequences for natural and human history. Historians have read local and global environmental change. Archaeologists have rewritten the history of civilization. Writers have transformed them into figures pertinent to the human dilemmas of time and eternity. *A Garden of Bristlecones* investigates professional and popular conceptions as a set of narratives drawn from the outside and inside of the trees. It reveals the premises of the investigators, the nature of their inquiry, and the extent of their knowledge while also revealing the Great Basin bristlecone itself. Illustrations by Valerie Cohen.

**Building Nevada's Highways** Jennifer E. **Preserving the Glory Days** Shawn Hall,1999 Nye County is Nevada s largest and least populated county but it is also the site of many of the state s most colorful ghost towns and mining camps The county s economy throughout its history has been largely based on its mines first exploiting veins of gold and silver and more recently deposits of raw materials for modern industry such as molybdenum and barite It was here that famous

boomtowns like Tonopah and Rhyolite sprang up after the discovery of nearby lodes brought in rushes of prospectors and the merchants who supported them But the county includes many smaller shorter lived camps and numerous abandoned stagecoach and railroad stops associated with defunct mining operations This book offers a lively informative record of Nevada s isolated interior Hall first published a guide to Nye County s ghost towns in 1981 Since then he has continued his research into the county s past and has uncovered much new information and corrected some errors To prepare this revised and greatly expanded edition he revisited all 175 sites recorded earlier and has added more than 20 previously unlisted sites
