Pack, 2006-10-02 Following WWII the authoritarian and morally austere dictatorship of General Francisco Franco s Spain became the playground for millions of carefree tourists from Europe s prosperous democracies This book chronicles how this helped to strengthen Franco s regime and economic and political standing      **See America First** Marguerite Shaffer, 2013-08-06 In See America First Marguerite Shaffer chronicles the birth of modern American tourism between 1880 and 1940 linking tourism to the simultaneous growth of national transportation systems print media a national market and a middle class with money and time to spend on leisure Focusing on the See America First slogan and idea employed at different times by railroads guidebook publishers Western boosters and Good Roads advocates she describes both the modern marketing strategies used to promote tourism and the messages of patriotism and loyalty embedded in the tourist experience She shows how tourists as consumers participated in the search for a national identity that could assuage their anxieties about American

society and culture Generously illustrated with images from advertisements guidebooks and travelogues See America First demonstrates that the promotion of tourist landscapes and the consumption of tourist experiences were central to the development of an American identity Train Tracks Gayle Letherby, Gillian Reynolds, 2020-08-25 This book provides an in depth exploration of trains and train travel Letherby and Reynolds have conducted extensive research with all those concerned with trains from leisure travelers and enthusiasts to railway workers and commuters Overturning conventional wisdom they show that the train has a social life in and of itself and is not simply a way to get from A to B The book also looks at the depiction of train travel through cultural media such as music films books and art The authors consider the personal politics of train travel and political discussion surrounding the railways as well as the relationship trains have to leisure and work The media often paints a gloomy picture of the railways and there is a general view that the romance of train travel ended with the steam locomotive Letherby and Reynolds show that this is far from the case **Acts of supremacy** J. S. Bratton, Richard Cave, Brendan Gregory, Michael Pickering, 2021-06-15 Imperialist discourse interacted with regional and class discourses Imperialism s incorporation of Welsh Scots and Irish identities was both necessary to its own success and one of its most powerful functions in terms of the control of British society Most cultures have a place for the concept of heroism and for the heroic figure in narrative fiction stage heroes are part of the drama s definition of self the exploration and understanding of personal identity Theatrical and quasi theatrical presentations whether in music hall clubroom Shakespeare Memorial Theatre or the streets and ceremonial spaces of the capital contributed to that much discussed national mood This book examines the theatre as the locus for nineteenth century discourses of power and the use of stereotype in productions of the Shakespearean history canon It discusses the development of the working class and naval hero myth of Jack Tar the portrayal of Ireland and the Irish and the portrayal of British India on the spectacular exhibition stage The racial implications of the ubiquitous black face minstrelsy are focused upon The ideology cluster which made up the imperial mindset had the capacity to re arrange and re interpret history and to influence the portrayal of the tragic or comic potential of personal dilemmas Though the British may have prided themselves on having preceded America in the abolition of slavery and thus outpacing Brother Jonathan in humanitarian philanthropy abnegation of hierarchisation and the acceptance of equality of status between black and white ethnic groups was not part of that achievement *Global Tourism* William F. **George Stephenson** Hunter Davies,2004-07-22 George Stephenson is the ultimate selfmade man born in the pit village of Wylam near Newcastle and skipping any education to start work his inventions would change the very nature of the world From the moment he began work in the pit at the tender age of ten he showed a natural talent for mending and inventing machines slowly rising to become the colliery s resident engineer However he struggled to break through the class prejudices of the time indeed Sir Humphrey Davy later President of the Royal Society considered Stephenson then an unknown pitman a thief and not a clever thief This early battle was only one of many that Stephenson waged against the establishment Even so Stephenson went on to build the world s first public railways the Stockton and Darlington in 1825 and the Liverpool Manchester in 1830 Much is known of these achievements and of his famous creation Rocket yet little is known of the man himself In *George Stephenson* a colourful portrait is painted of the self taught and often testy Geordie whose Victorian invention is now the backbone of every nation on the planet

**A New Race of Men** Michael Fry, 2013-10-03 War opened and closed Scotland's greatest century a pitiless part in the defeat of Napoleon in 1815 a huge blood sacrifice for the sake of victory from 1914 In between came the greatest contributions to the progress and happiness of the rest of mankind that the Scots have ever made in everything from the combine harvester to the mackintosh to anaesthesia It was a supremely successful achieving society yet one not without deep flaws in its urban poverty its destruction of the environment its religious intolerance its moral hypocrisy its crushing of Highland culture Michael Fry shows with an emphasis always on the human story how a succession of deep crises undermined the usually tranquil and prosperous surface of life in Victorian Scotland to leave a legacy of paradox that the modern nation has even today yet to overcome

**Viewing the Islamic Orient** Pallavi Pandit Laisram, 2014-07-11 The Islamic Orient studies the travel accounts of four British travelers during the nineteenth century Through a critical analysis of these works the author examines and questions Edward Said's concept of Orientalism and Orientalist discourse his argument that the orientalist view had such a strong influence on westerners that they invariably perceived the orient through the lens of orientalism On the contrary the author argues no single factor had an overwhelming influence on them She shows that westerners often struggled with their own conceptions of the orient and being away for long periods from their homelands were in fact able to stand between cultures and view them both as insiders and outsiders The literary devices used to examine these writings are structure characterization satire landscape description and word choice as also the social and political milieu of the writers The major influences in the author's analysis are Said Foucault Abdel Malek and Marie Louise Pratt
