The Shakespearean Name David Lucking,2007 This book comprises ten essays on Shakespearean drama the majority of which focus on the problem of language and more particularly on issues pertaining to names and their meanings Four of these essays deal specifically with Romeo and Juliet and examine the work in different sets of terms as a reply to the aspersions against Shakespeare contained in Greene s Groatworth of Wit as a representative site for a kind of archaeology of meaning as an experiment in the poetics of identity and as a meditation on the interrelation between rival conceptions of time Other works subjected to extended analyses in independent essays are Richard II Julius Caesar and Macbeth all of which are interpreted as tragedies of language in which the paradoxes inherent in names and naming are enacted in the personal dilemmas of the protagonists The final two essays in the volume comparative rather than exegetical in approach explore the intricate web of allusion linking The Tempest with Marlowe s Doctor Faustus and Jonson s The Alchemist and consider the contribution that all three plays make to the Renaissance exploration of the role played by art and knowledge in human life

Shakespeare's Hand Jonathan Goldberg, 2003 Over the past fifteen years Jonathan Goldberg's wide ranging essays have been among the most sophisticated influential and controversial writing about Shakespeare He challenges the critical orthodoxy provoking scholars to reassess both their own assumptions and those underpinning the field of Shakespeare studies Collected in one volume for the first time these essays offer a sustained energetic and rigorous examination of issues of gender and sexuality that pervade Shakespeare's plays as well as a road map of the shifts during the past two decades in our understanding of English literature's most canonical figure Central to these essays are concerns about textuality as considered from a number of vantage points including deconstructionist psychoanalytic and historicist Goldberg studies most of Shakespeare's plays giving particular emphasis to Henry IV Parts 1 and 2 and to Romeo and Juliet he focuses throughout on the relationship between the text as material object and the reality created or reflected by that text Among the issues he considers are the textual instability of Shakespeare's plays and the historical instabilities of gender and sexuality depicted in those plays the construction of gender and the dehumanization implicit in treating characters as a textual production the function of letters and other documents within the Shakespearean texts and the correlation of sexual politics and textual desire Tracing a path from characters in the scriptive sense to their embodiment in characters marked by gender and sexuality Shakespeare's Hand provides a brilliant set of inquiries into the production critical reception and conditions of Shakespearean texts
