Universal Design 2016: Learning from the Past, Designing for the Future H. Petrie, J. Darzentas, T. Walsh, 2016-09-15 Universal Design is the term used to describe the design of products and environments which can be used by all people to the greatest extent possible without the need for adaptation or specialized design It is not a euphemism for designs for people with a disability but really is about designing to include all people regardless of their age ability cultural background or status in life However it remains the case that many designers and developers fail to understand the need for universal design and lack the skills needed to implement it This book presents papers from the 3rd International Conference on Universal Design UD 2016 held in York UK in August 2016 The theme of the conference was learning from the past designing for the future and it aimed to bring together policymakers practitioners and researchers interested in the different strands of universal design to exchange ideas and best practice review some of the developments in universal design from the last 20 years and formulate strategies for taking the concept of universal design forward into the future The book is divided into two sections Section 1 About Universal Design and Section 2 Universal Design In Practice The book will be of interest to all those whose work involves design from the built environment and tangible products to communication services and systems
