in South Asia Fabrizio Ferrari, 2011-03-07 Drawing on original fieldwork, this book develops a fresh methodological approach to the study of indigenous understandings of disease as possession and looks at healing rituals in different South Asian cultural contexts. Contributors discuss the meaning of disease possession and healing in relation to South Asian religions, including Hinduism, Islam, Buddhism, and Sikhism, and how South Asians deal with the divine in order to negotiate health and wellbeing. The book goes on to look at goddesses, gods, and spirits as a cause and remedy of a variety of diseases, a study that has proved significant to the ethics and politics of responding to health issues. It contributes to a consolidation and promotion of indigenous ways as a method of understanding physical and mental imbalances through diverse conceptions of the divine. Chapters offer a fascinating overview of healing rituals in South Asia and provide a full-length, sustained discussion of the interface between religion, ritual, and folklore. The book presents a fresh insight into studies of Asian Religion and the History of Medicine. Dharma Patrick Olivelle, 2009-01-01 This is the first scholarly book devoted to the study of the term dharma within the broad scope of Indian cultural and religious history. Most generalizations about Indian culture and

religion upon close scrutiny turn out to be inaccurate An exception undoubtedly is the term dharma This term and the notions underlying it clearly constitute the most central feature of Indian civilization down the centuries irrespective of linguistic sectarian or regional differences The nineteen papers included in this collection deal with many significant historical manifestations of the term dharma These studies by some of the leading scholars in the respective fields will both present a more nuanced picture of the semantic history of dharma by putting contours onto the flat landscape we have inherited and spur further studies of this concept so central for understanding the cultural history of the Indian subcontinent
