**The Roots of Evil** Ervin Staub, 1992-07-31 How can human beings kill or brutalise multitudes of other human beings Focusing particularly on genocide Erwin Staub explores the psychology of group aggression He sketches a conceptual framework for the many influences on one group's desire to harm another and within this framework considers four historical examples of genocide

**The Roots of Evil** Christopher Hibbert, 1963 *The Roots of Evil* John Kekes, 2014-01-17 Evil is the most serious of our moral problems All over the world cruelty greed prejudice and fanaticism ruin the lives of countless victims Outrage provokes outrage Millions nurture seething hatred of real or imagined enemies revealing savage and destructive tendencies in human nature Understanding this challenges our optimistic illusions about the effectiveness of reason and morality in bettering human lives But abandoning these illusions is vitally important because they are obstacles to countering the threat of evil The aim of this book is to explain why people act in these ways and what can be done about it

John Kekes The first part of this book is a detailed discussion of six horrible cases of evil the Albigensian Crusade of about 1210 Robespierre's Terror of 1793-94 Franz Stangl who commanded a Nazi death camp in 1943-44 the 1969 murders committed by Charles Manson and his family the dirty war conducted by the Argentinean military dictatorship of the late 1970s and the activities of a psychopath named John Allen who recorded reminiscences in 1975 John Kekes includes these examples not out of sensationalism but rather to underline the need to hold vividly in our minds just what evil is The second part shows why in Kekes's view explanations of evil inspired by Christianity and the Enlightenment fail to account for these cases and then provides an original explanation of evil in general and of these instances of it in particular

Geisler,2002 Stewardship in the New Testament Church

Holmes Rolston,2016-06-02 Our churches are sadly in need of the stewardship program that is inevitable if this book is given serious study I can think of no greater contribution that could be made to the whole cause of missions both at home and abroad than the study of this volume in all the churches The present crisis in world affairs nay the crisis in the church itself calls for a new dedication of life and substance to the cause of Christ This is the objective that I find running through these pages and the least I can do is to commend it to all those who are concerned that the church achieve a new and greater impetus as it must now meet the larger demands that are upon it Mark A Dawber from the foreword      **The Missing Sense** C. W. Wooldridge,1887      *The Anti-Pelagian Works of Saint Augustine, Bishop of Hippo* Saint Augustine (of Hippo),1885
