Anglo-Hispania beyond the Black Legend Mark Lawrence,2023-10-19 This book traces and analyses the relationship between Britain and Spain in its various forms since 1489 So often viewed as antagonistic rivals in history the two countries are here compared and contrasted in order to shed light on their international connection and how this has evolved over time Mark Lawrence reflects on the similarities of their composite monarchies their roles as successive projectors of European global power and the common fondness for peculiarly patriotic expressions of Christianity through the ages At the same time Lawrence is alert to recognising other ways in which Britain and Spain have seemed worlds apart in their respective corners of the European continent He examines how British Protestants excoriated Spain in a Black Legend while Catholic propagandists dismissed rising English power as the work of pirates and heretics during the early modern period In a series of chronological chapters rich with a diverse range of sources Anglo Hispania beyond the Black Legend considers the cultural exchanges which flourished amidst the growth of travel and new ideas in the 18th century the surprising alliances of the 19th

century and the shared international causes of the 20th Whereas Spaniards feared or admired Britain for its successful political and fiscal system the book convincingly argues Britons romanticised Iberia for its supposed failures It ultimately concludes that British campaigns in the 1700s and 1800s established a Romantic Spain in memoir culture which the 20th century gradually dissolved in the ideological cauldron of the 1930s and the advent of mass tourism      **War and Revolution in Russia, 1914-1917** Vasiliĭ Iosifovich Gurko, Basil Gourko, 1919
