Security, Socialisation and Affect in Indian Families Ira Raja,2016-05-23 Sociological research on Indian families has largely focused on questions of household form and structure to the exclusion of not only the more nebulous dimensions of family life and relationships but also the discursive and imagined aspects of our familial worlds such as may be accessed through an analysis of film literature and the electronic media Moreover when sociological inquiry has sought to go beyond the demographic and census aspects of the household it has trained its eye on the heterosexual family centred on the conjugal couple frequently at the expense of those relational patterns and diversities that fall outside the familiar circuits of desire within the family The present volume brings together ten essays from a range of disciplines including law literature anthropology sociology and queer studies to engage with hitherto neglected and emergent aspects of Indian family life This book was published as a special issue of South Asia Journal of South Asian Studies **Culinary Fictions** Anita
