Sesame Lilies The Two Paths The Rive:

Bulletin ,1917 **An Educational Survey of a Suburban and Rural County** Henry Stoddard Curtis,Hermann Nelson Morse,National Council of Education. Committee on Economy of Time in Education,Raymond William Sies,United States. Bureau of Education,William Nicholas Hailmann,Fred Eastman,Arthur Coleman Monahan,1913 **Bulletin** United States. Office of Education,1918 Domestic and Heroic in Tennyson's Poetry Donald S. Hair,1981-12-15 Tennyson shared the assumptions of his age concerning the value of family life and treated the domestic as the source of the heroic in both action and character This book provides a critical examination of these major Victorian themes as they appear in Tennyson s poetry and demonstrates how the poet s assumptions illuminate his use of elegy idyl and epyllion and his treatment of romance Professor Hair analyses In Memoriam the English Idylls The Princess and Idyls of the King he examines Tennyson s view of the family as the model of social order a civilizing influence on the nation and a place where the greater man or hero is nurtured and he reveals how much of Tennyson s poetry explores the link between domestic and heroic He also discusses the patterns into which these pervasive domestic concerns fall with emphasis on the most significant separation and reunions The myth of Demeter and Persephone the Biblical story of Ruth and the Sleeping Beauty fairy tale are all versions of Tennyson s treatment of this pattern The English Idylls and other idyls and epyllia are explored as varying combinations of romance satire tragedy comedy and irony with a detailed analysis of The Princess the most complex of these medleys Idylls of the King wherein the fate of Camelot rests on the marriage of Arthur and Guinevere is treated as the fullest exploration of the link between domestic and heroic Radical Blake S. Dent,J. Whittaker,2002-10-02 Blake has maintained an enduring popularity amongst a large and diverse audience as a poet artist and engraver There are probably more artists writers filmmakers and composers working under the influence of Blake than any other figure from the Romantic era Radical Blake traces his influence and afterlife across a range of major themes such as Metropolitan Blake Blake and Nationalism and Blake and Women *Images of Excellence* Christopher Janaway,1995-05-25 Plato was the first great figure in Western philosophy to assess the value of the arts he famously argued in the Republic that traditionally accepted forms of poetry drama and music are unsound claiming they are conducive to warped ethical standards detrimental to the psyche and purveyors of illusions about important matters in human life This view has been widely rejected but Christopher Janaway here argues that Plato s hostile case is a more coherent and profound challenge to the arts than has sometimes been supposed Denying that Plato advocates good art in any modern sense Dr Janaway seeks both to understand Plato s critique in the context of his own philosophy and to locate him in today s philosophy of art showing how issues in aesthetics arise from responses to his charges Plato s questions about beauty emotion representation ethical knowledge artistic autonomy and censorship are of contemporary relevance as formerly secure assumptions about the value of art and the aesthetic come under scrutiny Images of Excellence gives a new and original view of a famous issue in the history of philosophy it is written

not only for readers working in ancient philosophy but for all who are interested in aesthetics art theory and literary theory

The Making of Women Artists in Victorian England Jo Devereux, 2016-08-02 When women were admitted to the Royal Academy Schools in 1860 female art students gained a foothold in the most conservative art institution in England The Royal Female College of Art the South Kensington Schools and the Slade School of Fine Art also produced increasing numbers of women artists Their entry into a male dominated art world altered the perspective of other artists and the public They came from disparate levels of society Princess Louise the fourth daughter of Queen Victoria studied sculpture at the National Art Training School yet they all shared ambition talent and courage Analyzing their education and careers this book argues that the women who attended the art schools during the 1860s and 1870s including Kate Greenaway Elizabeth Butler Helen Allingham Evelyn De Morgan and Henrietta Rae produced work that would accommodate yet subtly challenge the orthodoxies of the fine art establishment Without their contributions Victorian art would be not simply the poorer but hardly recognizable to us today

Wilfred Owen Jon Stallworthy, 2013-11-14 Of all the poets of the First World War Wilfred Owen most fires the imagination today this is the comprehensive literary biography of the greatest WW1 poet Wilfred Owen tragically died in battle just a few days before the Armistice Now during the centenary year of his death this biography honours Owen s brief yet remarkable life and the enduring legacy he left Stallworthy covers his life from the childhood spent in the backstreets of Shrewsbury to the appalling final months in the trenches More than a simple account of his life it is also a poet s enquiry into the workings of a poet s mind This revised edition contains the beautiful illustrations of the original edition including the drawings by Owen and facsimile manuscripts of his greatest poems as well as a new preface by the author One of the finest biographies of our time Graham Greene An outstanding book a worthy memorial to its subject Kingsley Amis As lovingly detailed as the records of Owen s short life permit but it is always fascinatingly readable in fact engrossing Sunday Telegraph

Irish Culture and Colonial Modernity 1800-2000 David Lloyd, 2011-09-22 From the Famine to political hunger strikes from telling tales in the pub to Beckett s tortured utterances the performance of Irish identity has always been deeply connected to the oral Exploring how colonial modernity transformed the spaces that sustained Ireland s oral culture this book explains why Irish culture has been both so creative and so resistant to modernization David Lloyd brings together manifestations of oral culture in the nineteenth and twentieth centuries showing how the survival of orality was central both to resistance against colonial rule and to Ireland s modern definition as a postcolonial culture Specific to Ireland as these histories are they resonate with postcolonial cultures globally This study is an important and provocative new interpretation of Irish national culture and how it came into being

A Pioneer of Connection James Mussell, Graeme Gooday, 2020-05-26 Sir Oliver Lodge was a polymathic scientific figure who linked the Victorian Age with the Second World War a reassuring figure of continuity across his long life and career A physicist and spiritualist inventor and educator author and authority he was one of the most famous public figures of British science in the late nineteenth and early twentieth

centuries A pioneer in the invention of wireless communication and later of radio broadcasting he was foundational for twentieth century media technology and a tireless communicator who wrote upon and debated many of the pressing interests of the day in the sciences and far beyond Yet since his death Lodge has been marginalized By uncovering the many aspects of his life and career and the changing dynamics of scientific authority in an era of specialization contributors to this volume reveal how figures like Lodge fell out of view as technical experts came to dominate the public understanding of science in the second half of the twentieth century They account for why he was so greatly cherished by many of his contemporaries examine the reasons for his eclipse and consider what Lodge a century on might teach us about taking a more integrated approach to key scientific controversies of the day *Suffer and Be Still (Routledge Revivals)* Martha Vicinus, 2013-10-08 First published in 1972 this book contains a collection of ten essays that document the feminine stereotypes that women fought against and only partially erased a hundred years ago In an introductory essay Martha Vicinus describes the perfect Victorian lady showing that the ideal was a combination of sexual innocence conspicuous consumption and worship of the family hearth Indeed this model in some form was the ideal of all classes as the perfect lady's only functions were marriage and procreation The text offers a valuable insight into Victorian culture and society **Philippine Education**, 1918

Proceedings of the Society for Psychical Research Society for Psychical Research (Great Britain), 1910 List of members in v 1 19 21 24 Proceedings Society for Psychical Research, 1910 **Made in Brooklyn** Amanda Wasielewski, 2018-06-29 Made in Brooklyn provides a belated critique of the Maker Movement from its origins in the nineteenth century to its impact on labor and its entanglement in the neoliberal economic model of the tech industry This critique is rooted in a case study of one neighborhood in Brooklyn where artists occupy former factory buildings as makers Although the Maker Movement promises to revitalize the city and its dying industrial infrastructure by remaking these areas as centers of small scale production it often falls short of its utopian ideals Through her analysis of the Maker Movement the author addresses broader questions around the nature of artistic work after the internet as well as what the term hipster means in the context of youth culture gentrification labor and the influence of the internet Part history part ethnography this book is an attempt to provide a unified analysis of how the tech industry has infiltrated artistic practice and urban space

A Catholic High School Library List National Catholic Welfare Conference. Department of Education, 1928 **Dino Buzzati and Anglo-American Culture** Valentina Polcini, 2014-06-02 This book investigates the relationship between Dino Buzzati's fiction and Anglo American culture by focusing on his re use of visual texts Arthur Rackham's illustrations narrative sources Joseph Conrad's novels and topoi belonging to such genres as the seafaring tale the ghost story and the Christmas story Tracing Buzzati's recurring theme of the loss of imagination Dino Buzzati and Anglo American Culture shows that far from being a mere imitator he carries on an original and conscious reworking of pre existing literary motifs Especially through the adoption of intertextual strategies Buzzati laments the lack of an imaginative urge in contemporary society and

attempts a recovery of the fantastic imagery of his models. Alongside a reconsideration of Buzzati's intertextuality, this book offers new insights into Buzzati's fantastic fiction by highlighting its playful and ironic component as opposed to the more overtly pervading sense of gloominess and nostalgia. Furthermore, while filling a gap in the critical study of Buzzati in the English-speaking world, the book contributes towards a general reassessment of an author who, although regarded as minor for many years, can rightly be ranked among the masters of twentieth-century fantastic literature.

The Smith Alumnae Quarterly, 1924 The Publishers' Trade List Annual, 1886 **The Return of Nature** John Bellamy Foster, 2020-06-16

Winner 2020 Isaac and Tamara Deutscher Memorial Prize. A fascinating reinterpretation of the radical and socialist origins of ecology. Twenty years ago, John Bellamy Foster's *Marx's Ecology: Materialism and Nature* introduced a new understanding of Karl Marx's revolutionary ecological materialism. More than simply a study of Marx, it commenced an intellectual and social history encompassing thinkers from Epicurus to Darwin who developed materialist and ecological ideas. Now, with *The Return of Nature: Socialism and Ecology*, Foster continues this narrative. In so doing, he uncovers a long history of the efforts to unite questions of social justice and environmental sustainability and helps us comprehend and counter today's unprecedented planetary emergencies. *The Return of Nature* begins with the deaths of Darwin (1882) and Marx (1883) and moves on until the rise of the ecological age in the 1960s and 1970s. Foster explores how socialist analysts and materialist scientists of various stamps, first in Britain then the United States, from William Morris and Frederick Engels to Joseph Needham, Rachel Carson, and Stephen J. Gould, sought to develop a dialectical naturalism rooted in a critique of capitalism. In the process, he delivers a far-reaching and fascinating reinterpretation of the radical and socialist origins of ecology. Ultimately, what this book asks for is nothing short of revolution: a long ecological revolution aimed at making peace with the planet while meeting collective human needs.
