In Motion Tony Hiss,2011-08-17 In this extraordinarily wide ranging insightful and revelatory book Tony Hiss the much praised author of The Experience of Place delves into a unique and instantly recognizable though previously undescribed experience that can happen to us when we travel a special understanding and ability that can leave us feeling exhilarated He illustrates how throughout human history from our ancestors walking upright for the first time to astronauts walking on the moon we have repeatedly availed ourselves of this seemingly elusive quality which he calls Deep Travel The sensation of Deep Travel can overtake us Hiss says whenever we tap into a sophisticated wide awake awareness we all possess With a wealth of examples from evocative accounts of his own journeys to celebrated travel writing across the centuries Hiss identifies and rescues this powerful capacity and sets out simple techniques for accessing it no matter where we are And this is only a jumping off point for an original and penetrating explanation of how Deep Travel radically alters our perception of not only where we are but also when we are by placing us in an extended present and how it acts as an open sesame to enlarge and enrich the world around us Going even further he investigates how we can remain absolutely still but travel in time itself as our horizons move backward to include layers of nature and human culture that have gone before or project us forward to consider what our actions will mean to those who will inhabit our spot on earth a few generations from now Whether travel takes you around the corner or around the world once you ve read In Motion no journey will ever feel the same From the Hardcover edition

Love Songs in Motion Christina J. Woolner, 2023-11-24 An intimate account of everyday life in Somaliland explored through an ever evolving musical genre of love songs At first listen both music and talk about love are conspicuously absent from Somaliland's public soundscapes The lingering effects of war the contested place of music in Islam and gendered norms of emotional expression limit opportunities for making music and sharing personal feelings But while Christina J Woolner was researching peacebuilding in Somaliland's capital Hargeysa she kept hearing snippets of songs Almost all of these she learned were about love In these songs poets musicians and singers collaborate to give voice to personal love aspirations and often painful experiences of love suffering Once in circulation the intimate and heartfelt voices of love songs provide rare and deeply therapeutic opportunities for dareen wadaag feeling sharing In a region of political instability these songs also work to powerfully unite listeners on the basis of shared vulnerability transcending social and political divisions and opening space for a different kind of politics Taking us from 1950s recordings preserved on dusty cassettes to new releases on YouTube and live performances at Somaliland's first postwar music venue where the author herself eventually takes the stage Woolner offers an account of love songs in motion that reveals the capacity of music to connect people and feelings across time and space creating new possibilities for relating to oneself and others

Aby Warburg and the Image in Motion Philippe-Alain Michaud, 2024-09-10 A compelling analysis of the work of art historian Aby Warburg and its radical implications for the study of visual images Aby Warburg 1866-1929 is best known as the originator of the discipline of iconology and as the founder of the institute that bears his name His followers included some of the celebrated art historians of the twentieth century such as Erwin Panofsky Edgar Wind and Fritz Saxl But his heirs developed for the most part a

domesticated iconology based on the decipherment and interpretation of symbolic material As Philippe Alain Michaud demonstrates in this important book Warburg's project was remote from any positivist or neo Kantian ambitions Nourished on the work of Friedrich Nietzsche and Jacob Burckhardt Warburg fashioned a critical iconology to reveal the irrationality of the image in Western culture Opposing the grand teleological narratives of art inaugurated by Giorgio Vasari Warburg's method operated through historical anachronisms and discontinuities Using procedures of montage collision he brought together pagan artifacts with masterpieces of Florentine Renaissance art the astrology of the ancient Near East with the Lutheran Reformation Mannerist festivals with the sacred dances of Native Americans Michaud insists that for Warburg the practice of art history was not only the recognition of the radical heterogeneity of objects but the discovery within the art work itself of lines of fracture contradictions tensions and the energies of magic empathy totemism and animism Michaud provides us with a book that not only is about Warburg but also extends his intuitions and discoveries into analyses of other categories of imagery like the daguerreotype the chronophotography of Étienne Jules Marey early cinema and the dances of Loie Fuller This edition also includes a foreword by Georges Didi Huberman and texts by Warburg not previously translated into English Chosen as one of the best art books of 2004 by the Washington Post and Bookforum *How to Cheat in Motion* Patrick Sheffield, 2013-05-02 Creative solutions without the filler That is what you get from this practical guide to enhancing your titles motion graphics and visual effects with Motion Step by step instruction is concisely described and lavishly illustrated The downloadable resources show the techniques at work so you can take them and run *The Bible in Motion* Rhonda Burnette-Bletsch, 2016-09-12 This two part volume contains a comprehensive collection of original studies by well known scholars focusing on the Bible's wide ranging reception in world cinema It is organized into sections examining the rich cinematic afterlives of selected characters from the Hebrew Bible and New Testament considering issues of biblical reception across a wide array of film genres ranging from noir to anime featuring directors from Lee Chang dong to the Coen brothers whose body of work reveals an enduring fascination with biblical texts and motifs and offering topical essays on cinema's treatment of selected biblical themes e g lament apocalyptic particular interpretive lenses e g feminist interpretation queer theory and windows into biblical reception in a variety of world cinemas e g Indian Israeli and Third Cinema This handbook is intended for scholars of the Bible religion and film as well as for a wider general audience
