## **Setting Municipal Priorities 199:**

Power Failure Charles Brecher, Raymond D. Horton, 1993-04-08 New York City's municipal government is the largest and most complex in the nation perhaps in the world Its annual operating budget is now a staggering 29 billion a year plus it has a capital budget of 4 billion more The city and its various agencies employ approximately 360 000 full time workers The Office of the Mayor alone employs some 1 600 people and spends some 135 million And the Police Department boasts a small army of over 25 000 officers with a budget of 1 5 billion Anyone wanting to make sense of an organization this vast needs an excellent guide In *Power Failure* Charles Brecher and Raymond Horton provide a complete guidebook to the political workings of New York City Ranging from 1960 to the present the authors explore in depth the political machinery behind City Hall from electoral politics to budgetary policy to the delivery of city services They examine the operation of the Office of the Mayor and the City Council covering everything from the number of members and their annual salaries Council Members receive 55 000 per year the Council President 105 000 to the mayoral races of John V Lindsay Abraham Beame and Edward I Koch Much of this encyclopedic work focuses on New York's ever present financial woes including the financial crisis of the mid 1970s when the City had an unaudited deficit of over a billion dollars and the public credit markets closed their doors They examine the repeated failure of collective bargaining to set wage policy before the annual operating budget is set which undermines the integrity of the budgetary process and they look at the main source of revenue the property tax homeowners pay 84 cents per hundred dollars of market value commercial property owners pay 4 31 a politically motivated imbalance which the authors find economically harmful and grossly unfair to renters and businesses Finally they examine service delivery and discover not surprisingly that the highest local taxes in the nation are not spent efficiently The authors offer detailed looks at the uniformed services police fire sanitation corrections the Department of Parks and Recreation and the Health and Hospitals Corporation which operates the country's largest municipal hospital system revealing which departments are run well and which are not For New York City residents this is an essential volume for understanding City Hall Indeed anyone baffled by big city government whether you live in New York or in any major metropolis will find in this volume a wealth of information on how to run a city well and how to run it into the ground

*Working-Class New York* Joshua B. Freeman, 2021-04-20 A lucid detailed and imaginative analysis The Nation of the model city that working class New Yorkers created after World War II and its tragic demise More than any other city in America New York in the years after the Second World War carved out an idealistic and equitable path to the future Largely through the efforts of its working class and the dynamic labor movement it built New York City became the envied model of liberal America and the scourge of conservatives everywhere cheap and easy to use mass transit work in small businesses and factories that had good wages and benefits affordable public housing and healthcare for all *Working Class New York* is an engrossing Dissent account of the birth of that ideal and the way it came crashing down In what Publishers Weekly calls absorbing and beautifully detailed

history historian Joshua Freeman shows how the anticommunist purges of the 1950s decimated the ranks of the labor movement and demoralized its idealists and how the fiscal crisis of the mid 1970s dealt another crushing blow to liberal ideals as the city's wealthy elite made a frenzied grab for power A grand work of cultural and social history Working Class New York is a moving chronicle of a dream that died but may yet rise again **The State of the Uniformed Services**,1990 Secrets in High Places Jay Innes,2003 **Dual City** John H. Mollenkopf,Manuel Castells,1991-04-04 Have the last two decades produced a New York composed of two separate and unequal cities As the contributors to Dual City reveal the complexity of inequality in New York defies simple distinctions between black and white the Yuppies and the homeless The city's changing economic structure has intersected with an increasingly diversified population providing upward mobility for some groups while isolating others As race gender ethnicity and class become ever more critical components of the postindustrial city the New York experience illuminates not just one great city or indeed all large cities but the forces affecting most of the globe The authors constitute an impressive assemblage of seasoned scholars representing a wide array of pertinent disciplines Their product is a pioneering volume in the social sciences and urban studies the 20 page bibliography is a major research tool on its own Choice **The Millennial City** Myron Magnet,2000-04-11 A penetrating collection of articles drawn from the pages of City Journal the quarterly magazine that has established a reputation for groundbreaking analytical reports on the urban scene On the Money Trail Tim Chorney,2003-02-01 A graduate of Lakehead University Tim Chorney is a freelance journalist and media researcher for television newspaper and radio He is based in Ottawa Jay Innes holds a master's degree in journalism from Carleton University and has worked as a researcher and reporter for newspapers radio and television He is the producer of Secrets in High Places a television documentary for Stornoway Productions *When Unions Merge* Gary N. Chaison,1986 **Thinking Like a Policy Analyst** I. Geva-May,2005-06-18 The world of policy represents the confluence of a number of intellectual strands in which the clinician brings science together with intuition and uses his or her experience to interpret the evidence and make recommendations for treatment This important volume brings together leading scholars to explore the how of thinking about policy the questions values judgments and experience the analyst brings to bear **American Burke** Greg Weiner,2016-08-12 Those who lament Washington's polarized politics will find both inspiration and even hope in this first book to analyze the political thought of the scholar statesman Daniel Patrick Moynihan 1927 2003 who was eulogized by the Economist as a philosopher politician diplomat who two centuries earlier would not have been out of place among the Founding Fathers Identifies the New Yorker as a Burkean liberal who believe that government does have an important role to play yet while fully acknowledging its limitations and society's complexity *In Pursuit of Performance* Patricia W. Ingraham,2007-04-15 Based on five years of extensive research by the Government Performance Project this volume offers a comprehensive analysis of how government managers and elected officials use management and management systems to improve performance Drawing

on data from across the nation it examines the performance of state county and city governments between 1997 and 2002 within the framework of basic management systems financial information human resources capital and infrastructure and results evaluation Key issues addressed How governments strategically select elements of management to emphasize the role of leadership How those governments that aim to improve performance differ from those that do not What effective management looks like Through this careful in depth investigation the contributors conclude that the most effective governments are not those with the most resources but those that use the resources available to them most carefully and strategically In Pursuit of Performance is an invaluable tool for government leaders and the scholars who study them
