Bartholomew, 2012-12-04 The lake surface was glass My girlfriend and I were fishing from our anchored rowboat in about fifteen feet of water facing the New York shore Ron what's that I turned About thirty feet away I saw three dark humps protruding about two feet above the surface The humps were perhaps two or three feet apart They didn't move We didn't either We watched in disbelief for about ten seconds The humps slowly sank into the water There was no wake no telltale sign of movement Unexplained Eerie Unsettling from the Foreword by Ronald S Kermani Scotland may have Nessie the Loch Ness Monster but we have Champ the legendary serpent like monster of Lake Champlain The first recorded sighting of Champ in 1609 has been attributed to the lake's namesake French explorer and cartographer Samuel de Champlain This is pure myth but there have been hundreds of sightings since then Robert E Bartholomew embarks on his own search both of the lake firsthand and through period sources and archives many never before published Although he finds the trail obscured by sloppy journalism local leaders motivated by tourism income and bickering monster hunters he weighs the evidence to craft a rich colorful history of Champ From the nineteenth century when Champ was a household name to 1977 when he appeared in Sandra Mansi's controversial photograph Bartholomew covers it all Real or imaginary Champ and his story will fascinate believers and skeptics alike

Hersen,2013-11-11 Although the field of child psychopathology is of relatively recent origin it is a healthy burgeoning one Within the past 10 to 20 years numerous articles and books have been published and the field can now be described as emerging with an identity of its own No longer can child psychopathology be viewed simply as a downward extension of adult psychopathology Rather children must be viewed as children not as miniature adults Such a situation requires that issues of child psychology and developmental psychology be intimately considered when delineating the problems of children Such a focus has guided our efforts in soliciting contributors and topics for this volume All contributors are active researchers and clinicians in the area of child psychopathology and all are acutely aware of the special considerations of child and developmental psychology as they relate to child behavior problems Further all contributors are empirically minded consequently the various chapters are data based and represent the most up to date knowledge available However since research based knowledge is more abundant in some topic areas than in others the chapters vary in length and scope *Cut*
