Dunnigan, Albert A. Nofi, 2014-11-04 James F Dunnigan and Albert A Nofi s Dirty Little Secrets of the Vietnam War allows us to see what really happened to American forces in Southeast Asia separating popular myth from explosive reality in a clear concise manner Containing more than two hundred examinations of different aspects of the war the book questions why the American military ignored the lessons taught by previous encounters with insurgency forces probes the use of group think and mind control by the North Vietnamese and explores the role technology played in shaping the way the war was fought Of course the book also reveals the dirty little secrets the truth behind such aspects of the conflict as the rise of the Montagnard mercenaries the most feared group of soldiers participating in the secret war in Laos and the details of the hidden struggle for the Ho Chi Minh Trail With its unique and perceptive examination of the conflict Dirty Little Secrets of the Vietnam War by James F Dunnigan Albert A Nofi offers a critical addition to the library of Vietnam War history *The US Air Force after Vietnam : postwar challenges and potential for responses* Donald J. Mrozek, 2001 This book probes various groups of Americans as they come to grips with the consequences of the Vietnam War Dr Mrozek examines several areas of concern facing the United States Air Force and the other services in varying degrees in the years after Vietnam Chemical Warfare during the Vietnam War D. Hank Ellison, 2011-04-06 Chemical Warfare during the Vietnam War documents the use of antipersonnel chemical weapons throughout the Vietnam War and explores their effectiveness under the wide variety of circumstances in which they were employed The short readable account follows the US program as it progressed from a focus on the humanitarian aspects of non lethal weapons to their use as a means of augmenting and enhancing the lethality of traditional munitions It also presents the efforts of the North Vietnamese to both counter US chemical operations and to

develop a chemical capability of their own Chemical Warfare during the Vietnam War is a comprehensive and thoroughly fascinating examination of riot control agents during the Vietnam War *Air Power And The Ground War In Vietnam, Ideas And Actions* Dr Donald J. Mrozek, 2015-11-06 Ultimately this study is about a smaller Vietnam War than that which is commonly recalled It focuses on expectations concerning the impact of air power on the ground war and on some of its actual effects but it avoids major treatment of some of the most dramatic air actions of the war such as the bombing of Hanoi To many who fought the war and believe it ought to have been conducted on a still larger scale or with fewer restraints this study may seem almost perverse emphasizing as it does the utility of air power in conducting the conflict as a ground war and without total exploitation of our most awe inspiring technology Although the chapters in this study are intended to form a coherent and unified argument each also offers discrete messages The chapters are not meant to be definitive They do not exhaust available documentary material and they often rely heavily on published accounts Nor do they provide a complete chronological picture of the uses of air power even with respect to the ground war Nor is coverage of areas in which air power was employed South Vietnam Laos Cambodia and North Vietnam evenly distributed nor necessarily proportionate to the effort expended in each place during the war Lastly some may find one or another form of air power either slightly or insufficiently treated Such criticisms are beside the point for the objectives of this study are to explore a comparatively neglected theme the impact of air power on the ground and to encourage further utilization of lessons drawn from the Vietnam experience *Our Time in Vietnam* John H. Corns, John H Corns, 2009-12 Captain John Corns leads his Special Forces team into the jungles of the Central Highlands of Vietnam in 1963 There is an insurgency and he and his Green Berets have undergone extensive training for the mission of assisting the Vietnamese and Montagnard people in their fight against communist terrorism What they find is a challenge that resists rapid progress and a cause that leaves destruction and death in its wake Corns returns four years later as a major and operations officer for the Army Navy Mobile Riverine Force in the Mekong Delta The conflicting military forces are larger losses to both the insurgent Viet Cong and to American Forces are greater and the sacrifices of men around him beg the question of what will it cost to win and will it be worth the losses Now a retired Lieutenant General Corns looks back at those days as a young officer to share the worth to him of that experience his time in Vietnam with men like himself **Dak To and the Border Battles of Vietnam, 1967-1968** Michael A. Eggleston, 2017-01-25 In 1967 the North Vietnamese launched a series of offensives in the Central Highlands along the border with South Vietnam a strategic move intended to draw U S and South Vietnamese forces away from major cities before the Tet Offensive A series of bloody engagements known as the border battles followed with the principle action taking place at Dak To Drawing on the writings of key figures veterans memoirs and the author's records from two tours in Vietnam this book merges official history with the recollections of those who were there revealing previously unpublished details of these decisive battles *Military History* United States. Victory John D. Caldwell, 2018-11-09 This groundbreaking book provides the first systematic comparison of America's modern wars and why they were won or lost. John D. Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts. Unlike WWII, the Korean, Vietnam, and Iraqi Wars were limited, but they required enormous national commitments, produced no lasting victories, and generated bitter political controversies. Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different. He defines a strategic architecture as an interlinked set of continually evolving policies, strategies, and operations by which combatant states work toward a desired end. Policy defines the high-level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one. Policy makers direct a broad course of action and strive to control the initiative. When they make decisions, they have to respond to unforeseen conditions to guide and determine future decisions. Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly. Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time. Operations are the actions that occur when politicians, soldiers, and diplomats execute plans. A strategic architecture, Caldwell argues, is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict.

The American Culture of War Adrian R. Lewis, 2017-09-08 Now in its third edition, *The American Culture of War* presents a sweeping critical examination of every major American war since 1941: World War II, Korea, Vietnam, the First and Second Persian Gulf Wars, U.S. operations in Iraq and Afghanistan, and the war against ISIS. As he carefully considers the cultural forces that surrounded each military engagement, Adrian Lewis offers an original and provocative look at the motives, people, and governments used to wage war, the discord among military personnel, the flawed political policies that guided military strategy, and the civilian perceptions that characterized each conflict. This third edition features a new structure focused more exclusively on the character and conduct of the wars themselves. Updates account for the latest evolving scholarship on these conflicts. An updated account of American military involvement in the Middle East, including the abrupt rise of ISIS. The new edition of *The American Culture of War* remains a comprehensive and essential resource for any student of American wartime conduct.

Alliances & Armor Jim Pomeroy, 2025-07-10 Jim Pomeroy's *Alliances & Armor* bridges the gaps between Cold War diplomacy and military operational history. With a firm grasp of multi-archival and secondary sources, Pomeroy provides a comprehensive look at the international issues that influenced Hanoi's decisions in the Second Indochina War in a concise and deftly written narrative. This is a strong addition to the voluminous literature of the war in Vietnam. Kelly Crager, Vietnam Center and Sam Johnson Vietnam Archive. The People's Army of Vietnam's decision to utilize armor as part of its warfighting strategy was a product of various geopolitical factors that surrounded Hanoi during various parts of the Vietnam War. During the First Indochina War,

the People's Republic of China (PRC) emerged as the foremost communist benefactor of North Vietnam. The Soviet Union, however, largely stood by. While worried by the PRC's and Soviet Union's actions during the Geneva Conference of 1954, Hanoi still felt the need to maintain good relations with both countries. This was reinforced when the Sino-Soviet split occurred in 1956 and Hanoi was forced to walk a tight rope between Beijing and Moscow. As the United States escalated its war in Vietnam, Moscow, now under new leadership, sought to increase its material support for Hanoi. As the war progressed, Hanoi sought to fight larger battles against the Americans and their South Vietnamese allies. In order to fight larger battles, the PAVN needed more modern military equipment that only the Soviet Union could provide. This, paired with the chaos of the ongoing Cultural Revolution in China, led Hanoi to lean more towards Moscow in the latter years of the Vietnam War. As part of this newly blossomed relationship, Moscow began to furnish the PAVN with more modern weapons, including Soviet armor. Initially, the PAVN's use of armor at Lang Vei (1968) and Laos (1971) was met with some success. However, in 1972, Hanoi panicked as the United States began to reach détente with Beijing and Moscow. This led to fears of another Geneva and thus led Hanoi to pursue a rushed Easter Offensive in March 1972, which saw ill-trained PAVN tank crews fall prey to poor planning and bad strategy. This changed in 1975 when, following the Paris Peace Accords and subsequent combined arms training in the Soviet Union, the PAVN victoriously drove its Soviet armor into Saigon.
